

Dan Lechner

Wichita, KS 67207 | (316)871-5349 | vbdanl@yahoo.com

Detail-oriented Programmer Analyst seeking to leverage expertise in full software development lifecycle, online payment systems, and problem-solving to deliver secure, user-focused solutions for a forward-thinking technology team. Dedicated to optimizing code, enhancing system reliability, and collaborating with cross-functional teams to support organizational goals and improve business processes.

WORK EXPERIENCE:

Programmer/Analyst, High Touch Technologies – Wichita, KS 10/2003 – 12/2024

- Collaborated with a cross-functional development team to enhance Rent-to-Own applications, contributing to every phase of the software development lifecycle including requirements analysis, system design, coding, unit testing, implementation, and ongoing support
- Specialized in development and maintenance of online and POS electronic payment processing features, ensuring seamless integration and secure transactions for end users
- Applied AccuCobol and MicroFocus to create and modify business logic, troubleshoot application errors, and optimize system performance
- Conducted code reviews, debugged program modules, and resolved software defects to improve operational reliability and customer satisfaction
- Partnered with internal stakeholders and users to clarify system requirements, document technical specifications, and adapt software solutions to evolving business needs
- Provided post-implementation support and user training to maximize adoption and minimize downtime for newly deployed features
- Automated data processing with Linux scripts and Awk, enhancing workflow efficiency
- Supported applications on PC, IBM mainframes, Unix, Linux, and Windows operating systems, facilitating platform integration
- Utilized ISAM and VSAM for data management, CICS for transaction processing, and administered DB2 and SQL databases
- Created web interfaces using HTML and managed batch processing with TSO and JCL

EDUCATION & TRAINING:
