

Gideon AiyeGunle (Active Security Clearance)

Certified AWS Solutions architect

Location: Chicago, IL | **Mobile:** +1(507) 400-8715 | **Email:** gideon.aiyeGunle1@gmail.com

Summary:

- Certified AWS Solutions Architect with **5+** years of experience designing, deploying, and optimizing scalable, secure, and cost-effective cloud architectures.
- Proficient in leveraging AWS services (EC2, Lambda, RDS, and Kubernetes) to drive innovation and operational efficiency.
- Strong background in technology, cloud security, and infrastructure automation.
- Proven track record of aligning cloud strategies with business objectives and delivering robust solutions for diverse industries.

Experience:

Company: Datics Inc

Jun 2022- Current

Role: AWS Cloud Solution Architect

Responsibilities:

- **Architected and Deployed Cloud Solutions:** Designed and implemented AWS cloud architectures for clients, leading to a **25%** increase in scalability and flexibility.
- **Technical Consultation:** Provided expert guidance to clients on AWS best practices, resulting in a **30%** improvement in overall system performance.
- **Cost Optimization:** Conducted cost assessments and implemented optimization strategies, achieving a **20%** reduction in AWS infrastructure costs for clients.
- **Automation and DevOps Integration:** Leveraged AWS Lambda and CloudFormation to automate deployment processes, reducing deployment times by **30%**.
- **Performance Monitoring and Optimization:** Utilized AWS Cloud Watch for real-time monitoring and implemented optimizations, resulting in a **15%** improvement in application performance.
- **Training and Knowledge Sharing:** Conducted training sessions for internal teams on AWS services and best practices, enhancing overall team proficiency by **20%**.
- **Client Relationship Management:** Acted as a key point of contact for clients, addressing technical concerns and ensuring high levels of client satisfaction, contributing to a **95%** client retention rate.

US ARMY RESERVE

Oct 2023- Current

Role: IT/Supply SPECIALIST

Responsibilities:

- Processed requisitions issue and turn-in transactions using GCSS-Army and other supply chain systems.
- Conducted monthly, quarterly, and annual inventories with **100%** accuracy.
- Coordinated logistics support for field exercises and deployments, ensuring timely delivery of equipment and provisions.
- Maintained and secured supply rooms and warehouses in accordance with Army regulations.

Company: Humana, Pasadena, TX

Mar 2020- May 2022

Role: AWS Solution architect

Responsibilities:

- Automated infrastructure provisioning for Humana's analytics workloads using Terraform, reducing manual errors by **90%** across dev/test/prod environments.
- Architected a hybrid disaster recovery solution using Azure Site Recovery (for on-premises systems) and AWS Backup, achieving RTO of <15 minutes.
- Modernized a healthcare SaaS platform by refactoring monolithic apps into Azure Functions (batch processing).
- Reduced monthly AWS spend by **60%** via rightsizing EC2 instances, Reserved Instance planning, and S3 Intelligent-Tiering for archival data.
- Used Auto-scaling, load balancers, and their components to equally distribute traffic throughout the environment
- Have used Dome to onboard assets of AWS, Azure, and GCP for security visibility, posture management, and IAM Management.
- Collaborated with DevOps teams to build CI/CD pipelines (AWS Code Pipeline, Code Deploy) for healthcare analytics platforms, accelerating deployment frequency by **50%**.

- Optimized real-time data processing for Humana's telemedicine platform using Lambda, API Gateway, and DynamoDB, reducing latency by **65%** during peak traffic.
- Designed and deployed multi-region, highly available architectures using AWS services like EC2, RDS, and S3.
- Collaborated with cross-functional teams to migrate on-premise applications to AWS, ensuring minimal downtime and Seamless integration.
- Optimized cloud infrastructure for performance and cost, leveraging AWS Cost Explorer and Trusted Advisor.

Company: Dell Technologies, Houston, Texas

Apr 2019- Feb 2020

Role: Cloud DevOps Engineer

Responsibilities:

- Designed a serverless CI/CD pipeline (AWS Code Pipeline, Lambda, S3) for Microservices architecture, cutting release cycles from 2 hours to 15 minutes.
- Built a hybrid data lake with AWS S3 (raw storage) and Azure Synapse Analytics (BI reporting), enabling cross-platform ETL workflows.
- Designed multi-cloud architectures Azure for enterprise clients, optimizing workloads across platforms to reduce costs by **40%**.
- Automated backups and disaster recovery for RDS/Aurora databases using AWS Backup, achieving RPO of <1 minute.
- Reduced AWS costs by **80%** via rightsizing EC2 instances, S3 lifecycle policies, and Reserved Instance purchases.
- Deployed Ansible playbooks to automate configuration management for 100+ Linux servers, ensuring zero-config drift.
- Automated backups using AWS Backup and Lambda, reducing manual oversight by **80%**.
- Optimized DynamoDB throughput via auto-scaling and GSIs, lowering latency by **75%**.

Technical skills for AWS Solutions Architecture & Cyber Security Analyst

- **Cloud Platforms:** AWS (EC2, S3, Lambda, RDS, EKS, IAM, CloudFormation, Cloud Watch)
- **Infrastructure as Code:** AWS CloudFormation
- **Networking:** VPC, Subnets, Route Tables, Security Groups, NACLs, VPN, Direct Connect
- **Database Management:** RDS, DynamoDB, Aurora, Redshift
- **Security:** IAM, KMS, Encryption, Compliance (HIPAA, GDPR), Security Best Practices
- **DevOps & CI/CD:** Jenkins, GitHub Actions, AWS Code Pipeline
- **Containerization & Orchestration:** Dockers, AWS Kubernetes (EKS)
- **GRC Automation Tools:** RSA Archer, SAP GRC, Metric Stream, ServiceNow GRC, Xacta, IBM Open Pages
- **Development Methodologies:** Waterfall, Scrum, Agile, Iterative
- **Operating System:** Windows win 7, 8, Vista, XP, 2000, UNIX
- **Microsoft Tools:** MS Office (Excel, Word, Power Point), MS Visio, SharePoint, and MS Projects
- **Browsers:** Internet Explorer 7,8, 9, Fire fox, Chrome, Safari

Educations:

- **Bachelor of Engineering, Industrial Management & Engineering,** HAMK UNIVERSITY OF APPLIED SCIENCES - **2013**
Valkeakoski, Finland

Certifications:

- **AWS Certified Solutions Architect**
- **CompTIA Security +**
- **PSM1**
