Current role	Senior Frontend Developer at Caesars Entertainment
Experience	Sports, Retail
Technologies	React, TypeScript, Redux, Tailwind CSS, React Native, Node.js, Next.js, JavaScript

Work experience

Senior Frontend Developer, Caesars Entertainment 

Jun 2024 - Present (1y 5m)

Sportsbook Betting Online
Sports

React TypeScript Redux Tailwind CSS

- Led the web and Android front-end development for the new sportsbook.caesars.com wallet (React, TypeScript, Redux, Redux Saga, Capacitor). This included custom integrations for credit/debit cards, PayPal, Venmo, and Online Banking.
- Built the new web and Android KYC (Know Your Customer) user journey for sportsbook.caesars.com. Users would verify their identity with one or more uploaded documents supported by the UI.
- Improved the web and Android withdrawal front-end experience for sportsbook.caesars.com by fixing bugs and supporting new features including the deposit match lock (informing users why certain payments were not refundable due to being tied to an existing promotion)
- Led 5 state launches for the Caesars "PAM" experience (the new Caesars account management UI that was previously built by an outside company)

Senior Front-End/React Native Developer, BrickSeek 

Jun 2022 - Jun 2024 (2y)

Helps find the latest online and in-store deals
Retail

React TypeScript React Native Node.js Next.js Tailwind CSS

- Led front-end development for the new BrickSeek.com launched in September 2023, using Next.js, React, TypeScript, TailwindCSS, and Node.js with Vercel CI/CD.
- Collaborated with the product team to implement new features and resolve issues on BrickSeek's website.
- Established project architecture including unit testing, pre-commit hooks, code linting, component scaffolding, and storybook integration from scratch.
- Developed and deployed feature enhancements and bug fixes for the BrickSeek React Native app in February 2024 to align its functionality with the website.
- Enhanced the BrickSeek React Native app by integrating new features to mirror the website, updating it with React Native version 0.76.0, Auth0, and One Signal dependencies.

Senior Dev/React Native Engineer - Front-End, Yahoo yahoo/

May 2014 - Apr 2022 (7y 11m)

Platform that provides sports scores and fantasy games.
