Professional Summary

Cloud Administrator with over 5 years of experience managing cloud infrastructure across Azure, AWS, and GCP environments. Proficient in Kubernetes, Terraform, CI/CD pipelines, and cloud security practices, driving efficiency through automation and ensuring high availability for mission-critical applications. Experienced in collaborating with cross-functional teams to implement scalable, secure, and cost-effective cloud solutions.

Technical Skills

Cloud Platforms: Azure, AWS, GCP, VMware, Elastic Beanstalk

Containerization & Orchestration: AKS, Docker, Kubernetes, Helm, OpenShift

Infrastructure as Code (IaC): Terraform, Ansible, ARM Templates, CloudFormation, Pulumi, PowerShell, Bash

CI/CD Tools: Jenkins, Git, GitLab CI/CD, Azure DevOps, Bitbucket, GitHub

Monitoring & Logging: Azure Monitor, Log Analytics, Grafana, AWS CloudWatch, Prometheus

Security & Compliance: Azure Security Center, RBAC, IAM, Key Vault, AWS CloudTrail, KMS

Networking & Storage: Azure Blob Storage, AWS S3, VPC, NSG, Azure Bastion

Collaboration Tools: JIRA, Confluence, ServiceNow, Slack, Trello

Work Experience

Accel BI Corporation

United States

Cloud Administrator

Aug 2024 – Feb 2025

- Managed and optimized cloud infrastructure, reducing downtime by 20% through proactive performance monitoring and automated alerts.
- Automated repetitive tasks using PowerShell and Terraform, improving operational efficiency by 30%.
- Implemented robust security protocols, including IAM and Key Vault, enhancing data protection and regulatory compliance.
- Developed backup and disaster recovery strategies, reducing recovery time objectives (RTO) by 25%.
- Collaborated with DevOps and security teams to ensure secure, scalable deployments aligned with business goals.

Microsoft

United States

AKS Cloud Engineer

June 2020 – July 2024

- Designed and deployed Azure Kubernetes clusters using Terraform, improving deployment efficiency by 40%.
- Built CI/CD pipelines with Jenkins, enabling automated deployments and reducing release cycles by 25%.
- Optimized containerized microservices using Kubernetes, Helm, and Prometheus, enhancing application performance.
- Resolved critical networking issues using tools like tcpdump, reducing service disruptions by 15%.
- Provided on-call support, troubleshooting and resolving production issues, maintaining 99.9% uptime.

Teradata

United States

DevOps Engineer

Mar 2019 – Feb 2020

- Automated AWS cloud provisioning with Ansible, accelerating deployments and reducing manual errors by 20%.
- Managed Git repositories and integrated automated workflows with Jenkins, ensuring seamless version control.
- Monitored cloud environments using AWS CloudWatch, proactively resolving performance issues and reducing downtime.
- Automated test cases for API validation with Postman, increasing test coverage by 35%.
- Led cloud migration projects with AWS Step Functions, delivering deployments 15% ahead of schedule.

Certifications

Microsoft Certified: Azure AI Fundamentals

Education

Master of Science in Computer Science

Aug 2017 – Dec 2018

University of Central Missouri

United States

Bachelor of Engineering in Computer Science

June 2013 – Apr 2017

GITAM University

India
