

Neha Kumari

SAP ABAP, ODATA & HANA Developer

PROFESSIONAL SUMMARY

SAP ABAP, ODATA & HANA Developer with 10+ years of experience delivering customized enterprise solutions in FICO, MM, SD, HR, Security and FSCD modules. Skilled in OData service creation, performance optimization, data migration and HANA development. Proven ability to design and deploy high-impact SAP applications, streamline business processes, and collaborate with cross-functional teams in global delivery environments.

PROFESSIONAL EXPERIENCE

NTT DATA

Oct 2018 — May 2025

Sr. Analyst – Enterprise & Business Management

- Designed and implemented multiple Fiori applications (CI creation, Order Management, Rate Card Approval, and Attachment Upload Apps) using OData and SAP Gateway.
- Developed custom FICO, SD, HR, MM, Security reports for asset management, invoice status, User Creation and Bloomberg reporting, improving operational visibility by 25%.
- Created and optimized RFCs and enhancements to automate user creation in ECC and Fiori systems, reducing manual efforts.
- Built custom dictionary objects, tables, and search helps, ensuring scalable and reusable architecture.
- Developed HANA-based reports using CDS Views and AMDP for real-time analytics.
- Collaborated with functional and business teams to translate requirements into technical designs, reducing defect rates post-deployment.
- Analyzed cross-departmental data flows to streamline reporting processes, increasing accuracy and accelerating decision-making across enterprise functions.

Wipro Technologies

Dec 2014 — Sep 2018

Project Engineer

- Delivered end-to-end RICEFW developments for Areva and Farmers Insurance projects.
- Designed and developed OOABAP classes, reports, and Adobe Forms for FI and FSCD modules.
- Implemented data migration through LSMW and BDC (Session Method) to automate WBS and network creation.
- Supported FSCD implementation—configured dunning procedures, payment notices, and account summaries.
- Liaised with onsite SMEs and business owners for requirement validation and production support.

EDUCATION

- Present

B.Tech in Computer Science & Engineering, School of Engineering, CUSAT

CONTACTS

2967 W Centennial Dr, M106, 80123
Littleton, United States
