

SUMMARY

A highly skilled professional with a strong background in Enterprise Content Management (ECM) and Document Management Systems (DMS), including OpenText Content Suite tools. Proficient in Java, SQL, and UI drag-and-drop functionalities. Proven track record of successfully managing legacy ECM applications and high-availability systems, designing document archiving solutions and disaster recovery procedures, and ensuring compliance with regulatory standards. Excellent analytical, communication, and problem-solving skills, with the ability to translate technical requirements into actionable specifications, collaborate with cross-functional teams and stakeholders, and mentor team members. Expertise in gathering business requirements, performing data migrations, executing system upgrades and security patches, supporting system integrations, conducting user acceptance testing (UAT), and contributing to process improvement initiatives.

TECHNICAL SKILLS

Enterprise Content Management (ECM): OpenText Exstream, Content Server (CS), Directory Services (DS), Extended ECM (xECM), Archive Center (AC), Enterprise Scan (ES), Vendor Invoice Management (VIM), Business Center (BC), Business Center Capture (BCC)

Programming Languages: C, C++, Java, Python, SAP ABAP

Database Management: MSSQL, Oracle SQL

Web Development: HTML, CSS, JavaScript, .NET

Tools & Platforms: Eclipse, Android Studio, Adlib Server

Operating Systems: Windows, UNIX, AIX, Linux

WORK EXPERIENCE

PROGRAMMER ANALYST, COGNIZANT TECHNOLOGY SOLUTIONS INDIA PRIVATE LIMITED:

June 2022 – July 2023

- Managed high-availability legacy ECM applications for a Switzerland-based health and life sciences company.
- With extensive knowledge on disaster management and data recovery, conducted multiple drills.
- Designed and implemented new document archiving solutions based on evolving business requirements.
- Ensured compliance with GxP and international regulatory standards.

- Supported Oracle database upgrades and ECM application configurations.
- Provided mentorship and knowledge transfer sessions for new team members.

Tools used – OpenText Archive Center (OTAC), OpenText Enterprise Scan (OTES), OpenText Document Pipeline (OTDP), Oracle SQL

January 2022 – May 2022

- Worked on enterprise content management (ECM) application upgrades for a US-based energy and resources company.
- Performed pre- and post-upgrade configurations, data migration, and system setup.
- Created and executed test scripts for generic and custom functionality validation, unit testing, and user acceptance testing.
- Worked extensively on UI drag-and-drop functionalities using OTCS SmartView.
- Tools Used: OpenText Content Server (OTCS), OpenText Directory Services (OTDS), Adlib Server.

SYSTEMS ENGINEER, TATA CONSULTANCY SERVICES LIMITED: May 2019 – December 2021

- Developed document generation applications for generating insurance PDFs for a leading health insurance provider.
- Created Optical Character Recognition (OCR) applications leveraging Machine Learning to capture user feedback.
- Supported digital content processing (DCP) and document management system (DMS) processes in EU and UK regions of a renowned Austrian manufacturer.
- Performed system refresh activities to synchronize SAP environments with production data.
- Enhanced content management functionalities in SAP ERP systems, optimizing unstructured data handling.
- Trained junior associates in various ECM tools and functionalities.
- OpenText Tools Used: Exstream, Vendor Invoice Management (VIM), Business Center (BC), Business Center Capture (BCC), Extended ECM (xECM), Content Server (CS), Directory Services (DS), XML, Archive Center (AC).

EDUCATION

Master of Science in Information Systems Technologies

Wilmington University, New Castle, Delaware, USA.

August 2023 – December 2024

Bachelor of Technology in Computer Science and Engineering

Jawaharlal Nehru Technological University, Kakinada, India.

August 2015 – May 2019

PROJECTS

Medical Store Locator using Android Studio:

- Designed an Android application to locate pharmacies with required medicines.
- Integrated Firebase Analytics and Google Maps to identify alternative pharmacies when medicines are unavailable.

AWARDS & RECOGNITION

Grand Finale Participant, Smart India Hackathon 2018 (Indian Council of Medical Research)

Best Performer of the Quarter Award, TATA CONSULTANCY SERVICES LIMITED – May 2021

Best Performance for Programmer Analyst level, COGNIZANT TECHNOLOGY SOLUTIONS INDIA PRIVATE LIMITED – April 2023 (Performance rating: 5.0/5.0)
