

DARNELL NJOME NJOME

5701 McKinney Place Dr, Apt 1313 · McKinney, TX 75070

682-472-6741 · darnellnjome5@gmail.com

PROFESSIONAL SUMMARY

Results-driven Data Engineer with 5+ years of experience designing scalable data architectures, building high-performance ETL/ELT pipelines, and delivering cloud-native solutions across Azure, Databricks, and Snowflake. Strong background in data governance, workflow automation, and real-time analytics for finance, healthcare, and supply chain environments. Adept at optimizing data systems, improving processing performance by up to 40%, and ensuring secure, compliant, and reliable data operations.

CORE SKILLS

Cloud & Big Data: Azure, Databricks, Snowflake, Delta Lake, Apache Spark, Hadoop, Synapse Analytics

Data Engineering: ETL/ELT, Data Pipelines, Data Modeling, Data Warehousing, Airflow, Azure Data Factory (ADF), Stream Processing, Data Governance, HIPAA Compliance

Programming: Python, SQL, DBT, PySpark, REST APIs, Git/GitHub, CI/CD

Analytics & BI: Power BI, Dashboarding, DAX, Data Visualization

Optimization: Performance Tuning, Query Optimization, Workflow Automation, Cost Optimization

DevOps & MLOps: CI/CD Pipelines, Azure DevOps, Docker, Kubernetes (basic), Infrastructure-as-Code (Terraform), Monitoring & Logging (Grafana, Prometheus)

PROFESSIONAL EXPERIENCE

Data Engineer – Animal Health Division

Patterson Companies, Inc. – Dallas, TX

March 2025 – August 2025

- Designed end-to-end data pipelines across Azure and Databricks to support Animal Health supply chain analytics.
- Automated ingestion of sales, distribution, and veterinary inventory data using ADF, increasing processing speed by 35%.

- Engineered Delta Lake data models enabling real-time reporting and multi-system data accuracy.
- Partnered with analysts to build Power BI dashboards, improving visibility into logistics and product demand.
- Implemented enterprise data-quality rules and lineage tracking compliant with HIPAA and company standards.
- Collaborated with data science teams to deliver curated datasets for predictive analytics and forecasting.
- Integrated DevOps practices by version-controlling pipelines, automating deployments, and monitoring jobs.

Data Engineer

Wells Fargo – Dallas, TX

April 2022 – December 2024

- Built and maintained ETL pipelines using Azure Databricks, PySpark, and ADF, reducing runtimes by 40%.
- Enhanced governance with Azure Key Vault and RBAC achieving 100% financial regulatory compliance.
- Improved ingestion throughput by 25% with optimized workflow orchestrations.
- Created high-performance data marts supporting risk, compliance, and regulatory reporting.
- Implemented CI/CD deployment for data pipelines using Azure DevOps.
- Developed monitoring dashboards for pipeline SLAs using Log Analytics and Grafana.

Junior Data Engineer

Cameroon Telecommunications (CAMTEL) – Yaoundé, Cameroon

April 2019 – July 2021

- Built predictive analytics models reducing inventory overstock by 20%.
- Automated data workflows using Airflow and SQL, enabling near-real-time insights.
- Designed Power BI dashboards for executive reporting and KPIs.

- Improved database performance by 35% through indexing, partitioning, and schema redesign.
 - Assisted in migrating legacy ETL workflows to modern cloud-based data systems.
-

EDUCATION

Bachelor of Science in Computer Engineering

African Institute of Computer Science – Yaoundé, Cameroon

CERTIFICATIONS

- Microsoft Certified: **Azure Data Engineer Associate (DP-203)**
 - **IBM Data Engineering Professional Certificate**
 - AWS Cloud Practitioner (In Progress)
-
