Clearance: Top Secret

Professional Summary

Highly skilled Business Analyst with 6+ years of experience in requirements analysis, quality assurance, process improvement, and stakeholder communication. Adept at gathering and translating complex business needs into technical requirements, managing Agile project lifecycles, and conducting user acceptance testing to ensure high-quality software delivery. Proficient with SharePoint, Azure DevOps, Salesforce, Jira, and Confluence, with strong interpersonal skills to collaborate effectively across diverse teams. Demonstrated success in optimizing processes, enhancing user experiences, and bridging the gap between business stakeholders and development teams.

Skills

- Salesforce (Administration, Configuration, UAT)
- Business Analysis (Requirement Gathering, Process Mapping, Gap Analysis)
- Agile Methodologies (Scrum Ceremonies, Backlog Refinement, Sprint Planning, Testing)
- Change Management & User Adoption (Training, Documentation, Stakeholder Engagement)
- Data Consistency & Integration (Field Mapping, Validation Rules, Process Automation)
- Tools: Jira, Confluence, MS Visio, SharePoint, Azure DevOps, Tableau, MS Office (Word, Excel, PowerPoint), Windows Server & Desktop OS, Microsoft SQL Server

Professional Experience

Salesforce Business Analyst

Delaney Advantage Technologies

February 2024 – Present

- Collaborate with stakeholders to elicit and document business requirements, translating them into functional specifications for Salesforce development teams. Perform UAT to ensure solutions meet user needs and quality standards
- Define and map Salesforce fields to maintain data consistency and support system integrations.
- Develop user stories, functional specifications, and process flows to guide Salesforce developers/administrators.
- Recommend enhancements to existing workflows, focusing on optimizing user experience and process efficiency.
- Collaborate with cross-functional teams (developers, architects, stakeholders) to ensure solutions align with strategic goals.
- Lead Agile ceremonies (daily stand-ups, sprint planning, and retrospectives) to keep cross-functional teams aligned on project objectives, risks, and timelines.
- Conduct training sessions to facilitate end-user adoption of new Salesforce functionalities and drive continuous improvement

Key Achievements

- Led a successful deployment of a new Salesforce feature set, resulting in a 20% reduction in user-reported errors.
- Introduced a streamlined requirement-gathering process, improving documentation accuracy and reducing rework by 15%.

Business Analyst / Scrum Master

Halvik; Vienna, VA

April 2023 – January 2024

- Facilitated stakeholder discussions to identify and address process inefficiencies, producing actionable recommendations.
- Created and maintained detailed, testable, and traceable process documentation, including Business Requirements, Functional Requirements, and Use Cases.
- Led Scrum ceremonies (daily stand-ups, sprint planning, sprint reviews, retrospectives) to ensure on-time delivery.
- Prepared user and system documentation (administration manuals, technical guides), ensuring alignment with best practices.
- Identified process inefficiencies and gathered detailed requirements, producing functional specs, data requirements, and system documentation to guide development.
- Ensured project artifacts and work products were continuously updated in SharePoint and Confluence.

Key Achievements

- Implemented a backlog refinement framework that reduced sprint scope creep by 25%.
- Improved team velocity by introducing a standardized approach to user story estimation and acceptance criteria.

Analyst

KBS; Lorton, VA

Aug 2022 – April 2023

- Conducted analysis of unclassified and classified documents, determining actions required based on regulatory guidelines.
- Evaluated visual models and technical manuals for compliance with relevant statutes and executive orders.
- Created training materials (manuals, e-learning modules, videos) to improve user onboarding and compliance awareness.
- Coordinated with government personnel to ensure alignment with organizational policies and frameworks.

Key Achievements

- Developed a document tracking system that improved classification review efficiency by 30%.

Business Analyst – Case Manager

Fairfax County Public Schools; Falls Church, VA

May 2021- August 2022

- Researched, gathered, and analyzed content data and information for future retrieval and usage.
- Coordinated and facilitated stakeholder interactions to eliminate impediments during product development.
- Performed custom workflow and dashboard management in Jira/Confluence, improving reporting accuracy for leadership.
- Identified potential gaps between current and desired states of business processes, recommending strategic improvements.

Key Achievements

- Reduced **project bottlenecks** by 15% through effective **cross-team communication** and issue resolution.

Quality Assurance / Business Analyst

Metropolitan HealthCare Services; Fairfax, VA

Jul 2020 - May 2021

- Collected, captured, and managed mission user needs, translating them into user stories for development.
- Tracked and managed projects using Azure DevOps and SharePoint, ensuring timely updates and visibility.
- Performed business analytics to identify improvement opportunities, leveraging data-driven insights to propose solutions.
- Applied relevant laws, policies, and practices to mitigate organizational risk and resolve complex system **matters**.
