

Objective:

An experienced hands-on Global Automotive Quality Manager/Senior Quality Engineer who has demonstrated the ability to lead diverse cross-functional teams to new levels of success; searching for a growing company in need of a strong technical leader with effective communication skills, a can-do attitude that will contribute to cost savings and profitability targets, while exceeding all customer expectations.

Skills & Competencies:

- **Plant Quality Manager/Senior Quality Engineer – Leadership, Coach, Driving the Machine to Assure Happy Customers**
- **Quality Systems Development & Lead Auditor: IATF: 2016-16949, ISO-9001:2015, ISO-14001, ISO-17025, Military, AS9100, ASPICE / CMMI / ISO26262 / VDA**
- Continuous Improvement:
 - Risk management
 - Strategies and processes for improving quality
 - Data-driven decision making
 - Statistical thinking and methods
 - Lean process with strong Kaizen experience
 - Total quality management (TQM)
- Senior quality engineer tool box:
 - **AIAG core tools**
- Strong APQP and PPAP background assuring timely and accurate submissions
- Assembly of components to produce complete products
- **Hands on supplier quality development globally**
 - Process improvement success: Warranty, FTQ, scrap, part defect reductions, increased efficiencies, customer kudos, cost of quality, efficiency improvements, etc.
 - Supplier Quality Issues Escalation Process
 - 8D advanced problem solving
 - Corrective Action - identify, describe, and apply elements of the corrective action process including problem identification, failure analysis, root cause analysis, problem correction, recurrence control, verification of effectiveness, (Evaluate) **Kaizen Expert leading cost savings and root cause analysis events to robust process**
 - Preventive Action- identifies; describe and apply various preventive action tools such as error-proofing/poke-yoke, robust design, etc., and analyze their effectiveness. (Evaluate)
- **Managed department operations: employees, appraisals, training, budgets, growth**
- Quality Management & Planning Tools: affinity diagrams, tree diagrams, process decision program charts (PDPC), matrix diagrams, interrelationships digraphs, prioritization matrices, and activity network diagrams. (Analyze)
- Technical presentations, expert, polished upward reporting
- Bench marking, competition analysis
- Provided training to all plant employees on – Kaizen, AIAG Tool Set, APQP, PPAP, MSA/SPC, etc.
- Versatile, seasoned, polished Quality Professional / Customer “Go-To-Guy” for problem resolution, escalation, containment, and final resolutions.
- Exceptional communication & people skills (Coaching, team player, articulate, loyal, intuitive decision maker)
- Multi-cultural experience having worked in over 25 countries abroad
- Regulatory liaison with key governmental agencies globally
- Acquisition & merger integrating infrastructures to assure lean and efficient operations
- Has the ability to view climate and systems and make positive, creative improvements at all levels (50,000 feet strategic range, 15,000 feet accumulative range and 10 feet action range) – a doer, mover with exceptional change management skills
- Enthusiastic leader, mentor with positive can-do attitude

Work Experience:

Lear Corporation, a global automotive technology leader in Seating and E-Systems, enables superior in-vehicle experiences for consumers around the world.

- **Quality Manager & Senior Quality Engineering** **March 2024 to November 2024**
- Major Assembly Operations for General Motors and Stellantis, Cobots to record live operations mixed with hands on assembly protocols to assure Quality, Control Plans per Stations
- Our diverse team of talented employees in 39 countries is driven by a commitment to innovation, operational excellence, and sustainability. Lear is Making every drive better™ by providing the technology for safer, smarter, and more comfortable journeys. Further information is available at lear.com
- Supported the Stellantis Seating production with 3.5 lines assembling world class seats, luxury for the new Wagoneer.
- IATF16949/ISO9001 latest revisions QMS development and lead auditor
- Major assembly operations for Stellantis and General Motors in new Gratiot Assembly Plant, Detroit Mi.
- 5 Quality Engineers Report to me, 4 Laboratory Personnel measuring H-Point and other Seating measurements
- 11+ WTAP liaisons on site inside the Stellantis Assembly Plant as another layer of QE
- Customer support, portals and both internal and external audit support
- Training, mentoring interns and plant employees.
- Reported up to Senior Quality Management Warranty support (GIMS)
- Corrective & Preventive Actions in e-supply connect and in-house procedures.
- Fast Response Board (FRB) support
- Kaizen support

Myotek / Luxit Group – Senior Quality Validation Engineer / Test & Warranty / APQP **December 2021 – March 2024**

- Developer of lighting systems for all types of vehicles including electric newly developed vehicles such as the TESLA CYBER TRUCK, APQP – PPAP development. IATF16949/ISO9001:2015 continuous improvements and auditing.
- Developer of Bed Door Outlet charging port devices and assured fixture builds for proper cycling assuring door opened and closed
- Customer liaison for new product development working directly with TESLA, Ford, Magna, Rivian,
- Responsible for all DVPR Testing review working with local laboratories to send RFQ, decide which testing house to receive the PO. Followed through with testing on daily and weekly basis.
- Attended all customer meetings and updated team on the status of testing
- Identified and took necessary counter measures to assure the testing failures would be retested and not repeated
- Provided weekly reporting on all DVP and PV report out to both internal and external teams
- Led the HOMOLOGATION efforts for all vehicles assuring proper testing and certifications were timely submitted. ○ i.e. – FMVSS108/SAE, ECE, CCCC, KCCC,

Ingersoll Rand/Gardner Denver – Plant Quality Manager, Fraser – Michigan USA **October 2019 to December 2021**
Quality Team Leadership for recent Gardner Denver merger with Ingersoll Rand

- ISO9001:2015 QMS, EMS, BAE Systems, John Deere, Caterpillar QMS specialty, AS9100 Marine Boats
- Industrial products manufacturing - pumps and components to a variety of industries
- Best in class problem solving mentoring, coaching using Kaizen, Lean initiatives
- Hands on senior quality leadership for team of 100 to 300 employee
- Strong communicator to customers, suppliers and employees globally
- Effective achieving all KPI's, metrics setting for plant and supplier base
- Gage calibration and R&R assessments
- ISIR reporting/PPAP/New product development testing
- Led new product developments on plant floor assuring successful PPAP submissions and ISIR approvals
- Mitutoyo CMM qualified
- Employee appraisals and goal setting

Global Kaizen, LLC – Senior Quality Manager & Senior Quality Engineer

July 2009 to December 2021

- **Provided Plant & Corporate Industrial & Quality Assurance Team Leadership for global corporations and manufacturing plants developing best in class methods**, procedures, advanced problem solving, customer service, mentoring and polished communications. Quality Engineering and QMS Development, including supplier base. Kaizens, lean initiatives and coaching. Responsible for developing and maintaining an effective quality system to achieve optimal levels of quality, productivity to assure internal and external customer satisfaction. APQP leadership. Lead Auditor: IATF:2016 16949, ISO9001, ISO14001, ISO17025, AS9100, ISO13485, ASPICE / CMMI / ISO26262
- A hands-on Senior Quality & Industrial Engineer and Manager who leads by example and provides superior customer service for industrial companies abroad.
- Represented corporations in QMS audits and customer liaison for problem escalations and resolutions
Extremely effective CAPA programs beginning with a strong APQP process. Core tools expert.

Senior Director Global Quality Assurance & Senior Quality Engineer

October 1990 to July 2009

First Technology and Denton, Inc. / Ascot, England - UK & Rochester Hills, MI - USA

www.humaneticsatd.com – Corporation's automotive division is now Sensata Technologies

- **Designed, Developed and Manufactured every crash test dummy in the world, designs were consortium involvement**
- **Major SAE - engineering development player during the Crash Safety Renaissance beginning in 1990 through 2009**
- **Customer interface for problem escalation**, containment, resolution. Strong communicator and polished professional.
- Developed bodies in white vehicle structural components to reduce vehicle weight while offering more robust crash intrusion capabilities, door beams, pillars, seat structures. Engine intrusion protection, knee bolster mechanics, etc.
- **Developed global quality systems from ground up** for a unique start-up company. **Certified to ISO9001, TS16949 for Automotive ISO14001, ISO17025, ISO13485 for Medical Device Products and AS9100 for Aerospace industry – Crash Test Dummy Design Development and Manufacturer of approximately 100% of OEM's in the world. SAE/ISO Consortium leader/participant**
- **Created a service business model that developed ISO17025 laboratories supporting customers in over 12 facilities globally.**
- **Managed a direct staff of 20 and indirect over 250 employees**
- **Led the Global Quality Team in Product Development & Manufacturing** - APQP process from contract inception to product launch
- Developed systems to control Electronic Design, Development, Manufacturing of Instrumentation, including supply chains, etc.
- **Managed direct QE reports in Japan, Korea, China, Germany, the Netherlands, United Kingdom**
- **Developed center of excellence in Nagoya, Japan to support Toyota Motor Company**
- **Conducted Kaizens in every department to reduce "muda" and improve efficiencies by a 33% minimum.** Used Quality Engineering tools and skill sets including, Kaizens, KanBans, Value Stream Mapping, Lean Manufacturing, Six Sigma, DOE, problem solving – root cause analysis, preventative & corrective action.
- Advanced rubber, foams and plastics formulation development to meet both static and dynamic testing protocols, assembly
- **Assured plastic and rubber injection molding capability on 20+ presses, Cpk, PPAP's, Run@Rate, APQP, etc.**
- Responsible for introducing rubber injection molding to a primarily transfer and compression molding operation, that increased efficiencies by 50% and reduced scrap by over 90% leading to over \$2.5 million in savings
- **Worked with every automotive OEM and Tier one component suppliers in the world** for advanced engineering high profile safety components. Electronics and testing trouble shooting, customer technical support, resolution via CAPA, etc.

Supervisor/Test Laboratory

September 1988 to October 1990

Lindsay & Pavelich Manufacturing/Chivas Products, Ltd.; Canton, MI – Direct Hire – **A Tier One Supplier**

- **Led quality engineering for 27 plastics Injection molding machines and their processes: Tier one Automotive Supplier**
- Led CQE activities in Advanced Product Quality Planning design, development, manufacturing – Process capability, etc.
- Assured processes were designed to customer specs - Electronic manufacturing of interior lights and cup-holders with suppliers. Customer technical support, trouble shooting via CAPA's, etc. Class "A" cosmetic surfaces, color specific
- Managed product quality and plastics raw material certification laboratory operating all lab equipment i.e.
 - Compression loading machine for destructive testing, melt flow, viscosity, conducted FMVSS 203 Flammability testing on plastics, tested plastic for splay, moisture, and color matching using colorimeter, etc.
- Worked with Product Engineering Teams performing capability and design of experiments assuring quality reproducible products were designed, developed and finally shipped to the OEM's. Assured accurate assembly of various automotive components
- Supported teams to achieve the Ford Q-1 Quality Rating, Chrysler's Penta-star Award and GM's Target for Excellence Awards

**United States Air Force – Tactical Air Command
Quality & Safety Control Division/Non-Commissioned Officer**

November 1982 to November 1988

United States Air Force. Davis Monthan, Tucson, AZ

- Managed one of the largest USAF Tactical Air Command Quality Assurance/Engineering Laboratories responsible for the entire base fleet of A-10 Thunderbolt/Wart Hog Training Aircraft, OA37 Reconnaissance Wing, F-106 Phantom Border Security Wing. Cryogenics, fuels and lubricants.
- **Awarded the Department of the Air Force Commendation Medal for Meritorious service**, Good Conduct Medal, AF Longevity Ribbon, Marksmanship, NCO Leadership Award, Education Achievement, etc.
- **Awarded Certificate of Merit for Exceptional Education Achievements**
- Supported NASA space shuttle transfer missions

Education:

MBA Fundamentals, Freeman School of Business, Tulane University - 2006

B.S. Business Administration, Michigan State University, Pima College, CCAF, CU - 1996

B.S. Mechanical & Electrical Engineering, Apprenticeship, UK - 1994

A.A.S.: Quality Engineering, Community College of the Air Force (CCAF) - 1987

United States Air Force Technical Training School - Quality & Safety - 1983

Additional Training and Certifications:

Advanced Certificate – Best in Class Program Management

Expert certificate – Kaizen Leadership

Certificate – IATF: 2016 – 16949, ISO 9001:2015, ISO14001, ISO13485, AS9100 (Includes implementation and Lead Auditor)

Certificate – General Electric Plastics for Injection Molding in automotive components

Certificate – Manufacturing of Rubber Products (Includes rubber compounding, development, processes)

Certificate – Manufacturing and Process Control of Plastic Components (Plastics, foams, etc.)

Certificate – AIAG Core Tools (APQP, PPAP, FMEA, Control Plans, CAPA, SPC, MSA, etc.)

Certificate – ASPICE / CMMI / VDA

Certificate – Lead Quality Assurance Systems Auditor (CQA)

Certificate - Problem Solving and Corrective Action Implementation - the 8D Approach

Certificate – 5 Why's Problem Solving Tool

Certificate - Lean Manufacturing Implementation Skills Workshop/Demand Flow Technology

Certificate - Competence of Testing and Calibration Laboratories, ISO-17025/A2LA

Certificate - Geometric Dimensioning and Tolerance Based on ASNI 14.5Y

Certificate –Supplier Quality Assurance – How to develop Vendors into Strategic Partners

Certificate –Competitive Analysis and Benchmarking

Certificate – 6 Sigma Methodologies and Implementation w/Greenbelt

Certificate - Crucial Conversations Mastery Course

Certificate – Certified Customer Service Professional

Certificate – Advanced metallurgy and heat treatment

Metal Roll-Forming, Stamping, CNC machining, Welding, Bending, Heat Treating, Lathes, Machining

Specialized Ford Motor Company Training:

Ford SAFE Launch

Ford FMEA Course

Ford Difficult Situations

Ford Careful Communication

Ford Capacity Planning

Ford Avoid Retaliation

Ford 8D Problem Solving

Ford VPP MPP Certification

Ford Supplier Launch

Ford SREA / Ford SIMS/ Ford WERKS/ Ford MSA

Customer and Supplier Portals/Software Interfaces:

April 10, 2025 - REV

SAP
Covisint (Ford)
e-supplier connect (FCA)
PLEX
Oracle Data Bases - SAP
Microsoft office (Power Point, Word, Excel, Project, etc.)

Direct Aerospace Companies I've worked: AS9100

First Technology Safety Systems
Global Kaizen, LLC
Denton ATD
