Summary

Dynamic Senior iOS Engineer with over 10 years of experience in developing high-quality mobile applications. Proven expertise in optimizing app performance and enhancing UI/UX designs, delivering significant improvements in user engagement. Noteworthy achievement includes leading the successful rewrite of a grocery app from React Native to iOS, ensuring seamless functionality. Committed to leveraging technical skills and innovative approaches to contribute effectively to a forward-thinking company.

Work Experience

SENIOR IOS ENGINEER (CONTRACTOR), Kroger, Cincinnati

05/2023 – Present

- Spearheaded development of a whitelabel grocery shopping app, enhancing user experience and engagement.
- Provided technical guidance and mentorship to junior developers during the development process.
- Collaborated closely with product owners, designers, and stakeholders to craft compelling UI and UX designs for mobile applications.
- Maintained and optimized the existing codebase by diagnosing and fixing bugs, as well as improving application performance and refactoring code as necessary.
- Executed unit testing on all newly written code before submitting for peer or managerial review.

IOS SOLUTIONS ARCHITECT, Big Nerd Ranch, Atlanta

09/2021 – 05/2023

- Enhanced and maintained the iOS metrics and news aggregator app for Chick-Fil-A, ensuring the delivery of high-quality performance.
- Formulated technical solutions and strategic approaches to various projects for Chick-Fil-A.
- Coached team members on industry best practices for designing robust systems architecture.
- Collaborated with cross-functional teams, including developers, product managers, and quality assurance engineers, to ensure project success.
- Provided technical leadership throughout the design, implementation, testing, and deployment phases of projects.

SENIOR IOS DEVELOPER (CONTRACTOR), Peapod Digital Labs, Chicago

04/2020 – 09/2021

- Participated in the comprehensive rewrite of the whitelabel grocery app from React Native to native iOS, enhancing performance and user experience.
- Optimized and rectified existing software and system applications, ensuring operational efficiency.
- Collaborated with designers, engineers, and cross-functional team members to develop high-quality iOS applications.
- Employed MVC, MVVM, and other design patterns to produce clean, scalable code solutions.
- Conducted unit and UI tests to verify code reliability and application stability.

SENIOR IOS DEVELOPER (CONTRACTOR), Hyatt Technologies, Chicago, IL

12/2015 – 04/2020

- Led the architectural design and development of the Hyatt iOS App, significantly improving user engagement.
- Engineered custom components such as UI controls, navigation bars, and toolbars employing Auto Layout constraints.
- Analyzed customer requirements to design intuitive user interfaces for iOS applications.
- Implemented UI and UX designs using Swift and Objective-C, aligning with project specifications.
- Delivered high-quality code that meets both project requirements and industry standards.
- Provided ongoing technical leadership and guidance to junior developers on coding standards and design patterns.

LEAD ENGINEER, Helium Foot Software, Inc, Chicago, IL

11/2014 – 12/2015

- Designed and developed an innovative iOS Peer to Peer platform for managing swim meets, launched as Meet Central in the Apple App Store.
- Collaborated with designers, engineers, and team members to produce high-quality iOS applications.
- Drafted technical specifications for mobile application development projects, ensuring clarity and direction.
- Conducted thorough code reviews, debugged issues, and provided mentorship to junior developers.
- Mentored junior developers, offering technical insights and promoting best practices.

SENIOR IOS DEVELOPER (CONTRACTOR), Sears Holdings Corp, Chicago, IL

01/2012 – 01/2014

- Maintained the functionality of Sears/Kmart iOS 5.8 apps, ensuring continued user satisfaction.
- Reviewed and approved pull requests from team members before merging them into the master branch.
- Tested and debugged existing codebases for iOS applications, ensuring high standards of reliability.
- Worked closely with product managers to define feature specifications, timelines, and project deliverables.
- Collaborated with fellow developers to identify and implement best practices in software development.
- Implemented UI and UX designs using Swift and Objective-C, improving the overall app experience.

Education

Bachelor of Science, Computer Science, Aurora University, Aurora

1984 – 1989

Skills

Agile Development Processes (Scrum, XP, Test Driven Development, etc.)

Clean architecture for mobile solutions

Swift & Objective C

Combine

SwiftUI
