EDUCATION

B. Tech from College of Engineering
Trivandrum, Kerala
(Tier-1 college, AAAA rating), 2014

SKILLS

- C#, OOPS
- .NET Core, ASP.NET, MVC
- Design Patterns
- SOLID Principles
- Web APIs, RESTful API, WCF
- Microservices Architecture
- JWT Tokens & Authentication
- JSON & XML Data Handling
- HTML, CSS, JavaScript, jQuery
- Angular, TypeScript
- SQL Server, Entity Framework
- Oracle, MySQL
- Microsoft Azure
- Google Cloud
- Logging & Monitoring
- NUnit Testing
- Test Driven Development (TDD)
- Code Review
- Troubleshooting, Bug fixing
- Agile / Scrum Delivery
- Requirement Gathering
- Project Estimation & Planning
- Research & Analysis
- Team Coordination
- Talent Management
- People Management
- Stakeholder Engagement
- Analytical and Problem-Solving Skills
- Communication Abilities
- Collaborative Mindset
- Critical Thinking
- Ownership-driven mindset

- Results-driven Technology Leader with 9.5+ years of success in full-stack development, enterprise application design, and end-to-end project delivery.
- Proven track record of building scalable, high-performance solutions across diverse sectors including Engineering, Construction, Finance & Banking, Retail, Logistics, Healthcare, Travel, Real Estate, Government (CBI), and Enterprise Management.
- Deep expertise in .NET Core, MVC, C#, SOLID Principles, Design Patterns, Entity Framework, RESTful APIs, WCF, Microservices, and modern integration patterns.
- Strong front-end capability with JavaScript, TypeScript, jQuery, Angular, HTML5, CSS, Bootstrap, and advanced hands-on experience with SQL Server, Oracle, MySQL, plus proficiency in JSON/XML data handling.
- Cloud-ready professional with practical experience in Microsoft Azure and Google Cloud (GCP).
- Demonstrated leadership at Capgemini by designing and enforcing a standardized testing process, reducing UAT defects from 20+ to as low as 0–3, significantly improving release quality and customer satisfaction.
- Successfully delivered 8+ end-to-end enhancements, leading project estimation, SRS, TDD, development, SIT, customer demos, UAT, RFC, deployment, and production support—earning consistent OTACE ratings of 5/5.
- Certified in SAFe® Scrum Master, SAFe® Scrum Practitioner, Professional Scrum Master (PSM), Microsoft Azure Fundamentals, Google Cloud Digital Leader, and trained as an Aspiring Architect and Connected Manager.

EXPERIENCE (TOTAL: 9.5 YEARS)

Capgemini, Chicago United States of America | 2021 – present

Software Engineer Lead | .Net Full Stack Developer | People Manager

Key Projects:

1. McDonald's Customer Self-Ordering Kiosk - .Net Core backend, UI with Angular, core components Kiosk Plugin, NP# extensions/APIs, LINQ operations, and NUnit testing. Handled XML data loading, publish/subscribe messaging cloud data integration, payment integrations for cash/cashless.
2. SMART Application for Black & Veatch- .NET-based solution with multiple API integrations, web application, and console apps to improve Turf efficiency and revenue through streamlined Scope Management.

Responsibilities:

- Led a team of 7 developers to deliver enterprise applications using .NET Core, SQL, RESTful APIs, Angular, and Azure, ensuring performance, scalability, maintainability, and overall technical quality.
- Collaborated with stakeholders to gather and refine business requirements, prepare project estimates and proposals, and deliver high-quality documentation including SRS and TDD.
- Designed end-to-end technical solutions by defining UI requirements, architecting backend components, designing service patterns, and managing database structures for scalable implementations.
- Conducted technical interviews to assess talent and select the right candidates, while mentoring junior engineers through training, knowledge-sharing, and performance coaching to enhance team capability.
- Facilitated daily stand-ups to track progress, remove blockers, and manage dependencies while driving delivery through WSR updates, demos, UAT coordination, and structured knowledge transfer sessions.

TOOLS AND SOFTWARE

- Visual Studio, Visual Studio Code
- PL/SQL Developer
- Team City, Bit Bucket, SonarQube
- Jira, Confluence, IIS Manager
- Git Hub, TFS, Plastic SCM, SVN

CERTIFICATIONS

- SAFe® 6 Scrum Master
- SAFe® 6 Scrum Practitioner
- Professional Scrum Master
- Microsoft Azure Fundamentals
- Google Cloud Digital Leader
- Connected Manager, Capgemini
- Aspiring Architect, Capgemini
- Full stack foundation, Mastek

ACHIEVEMENTS & AWARDS

- **Customer Delight Award**, Capgemini
- **Best Performer Award**
Q1, Q3 2020, Q1, Q2 2021, Mastek

ACADEMICS & SCHOLARSHIPS

- All India Engineering Entrance (AIEEE)
Rank: 715
- Kerala State Engineering Entrance (KEE) Rank: 842
- Conducted evening classes for academically struggling B. Tech students as part of a government-sponsored program, supporting myself financially and gaining valuable teaching experience.
- Sarojini Damodaran Foundation scholarship (Funded by Mr. S.D. Shibu Lal, **Infosys** Founder & Ex-CEO) winner from 2010- 2014.
- Merit Cum Means Scholarship (MCMS) Winner from 2010 to 2014

- Implemented CI/CD pipelines in partnership with the DevOps team to automate builds, testing, and deployments for faster and more reliable releases.
- Managed production deployments, post-release support, and defect triage by coordinating closely with QA, independent testers, and environment teams.
- Oversaw version control processes including branching, merging, and release management using Microsoft TFS and GitHub to ensure code integrity and consistent development practices.

Tools & Technologies: Asp.Net, .Net Core, Web API, MSSQL, Java Script/jQuery, Angular, Type Script, Visual Studio, IIS Manager 10.0 (IIS 10.0), TFS, Azure DevOps, Git Extension, Git Bash, Team City, Bit Bucket, SonarQube, Azure, Google Cloud, Design Patterns, Solid Principles

Mastek Ltd, Mumbai (US, UK, India MNC) | Dec 2019 - Nov 2021

Sr. Software Engineer | .Net Full stack Developer

- Developed a web application for the Central Bureau of Investigation (CBI) using technologies ASP.NET, SQL Server, jQuery/javascript to manage the investigation process, from complaints to prosecution.
- Fixed defects, analyzed production issues, found root causes, and applied solutions. Provided production support and handled deployments using CI/CD pipeline.

Tools & Technologies: Asp.Net, .Net MVC, MSSQL, jQuery, Visual Studio, SSMS, TFS, IIS

Nelito Systems Ltd, Mumbai | Jan 2019 - Dec 2019

Sr. Software Engineer

- Worked on multiple financial software projects, including Corporate Banking for AXIS Bank, CBS Alliance for microfinance operations in Myanmar, and Moneyboxx, which managed 32 types of loans.
- Responsibilities included requirement gathering, system design, development, testing, implementation, and integration.
- Actively participated in client demos by presenting UAT releases, conducted technical discussions, and delegated tasks to team members. Key contributions involved developing secure Web APIs with AES encryption for mobile apps.

Tools & Technologies: Asp.Net, MVC, Web API, MSSQL, Oracle, jQuery, Visual Studio, SSMS, TFS

GTL Limited, Mahape, Mumbai | Sep 2018 - Jan 2019

Software Developer

- Developed client-specific software applications with a focus on timely delivery and quality through sanity testing.
- Led recruitment for project teams and ensured smooth execution of deliverables. Key projects included a Customer Billing system and a Vendor Bill Tracker for managing invoices and payments.

Tools & Technologies: Asp.Net, MVC, Oracle, MSSQL, jQuery, CSS, Bootstrap, Visual Studio, SSMS, TFS

OEC Records Management Pvt Ltd, Navi Mumbai | Jul 2017 - Sep 2018

Programmer

- Developed and maintained internal web and Windows applications to support employee and business operations.
- Key projects included TOBAS for logistics management, Sales Management automation, a Data Entry tool, and Your Space Doctor for a sister company.

Tools & Technologies: VB.Net, MSSQL, jQuery, Visual Studio, SSMS, SVN

Smart Business & IT Solutions, Navi Mumbai | Aug 2015 - June 2016

Software Engineer

- Led end-to-end software development across multiple projects, from requirements gathering to deployment.
- Key projects included Hospital Management, Online Travel Software, an Article Portal, Biometric Fingerprint Scanner integration, and a U.S.-based legal QDRO application.

Tools & Technologies: Asp.Net, .Net MVC, MSSQL, jQuery, CSS, Bootstrap, Visual Studio, SSMS, Plastic SCM
