Experience

- Web Design Intern

Stepping Stone Academy Foundation, Remote

Feb 2025 – Present

 - Created responsive web pages for a non-profit supporting single parent children’s education, enhancing user experience and accessibility with HTML, CSS, JavaScript, and Wix. This led to increased engagement and support for their mission.
- Computer Science Grader

Vanderbilt University, Nashville, TN

Aug 2024 – Present

 - Evaluated assignments, projects, and exams for CS3265: Database Management Systems.
 - Ensured accurate grading and adherence to academic standards.
- Software Engineer

Cognizant, Chennai, India

Jun 2019 – Jun 2023

Client: U.S.-based Healthcare Insurer

 - Addressed inefficient queries by optimizing PL/SQL and MS SQL, boosting database performance by 20%.
 - Reduced downtime issues with unit testing and database optimizations, achieving a 25% improvement.
 - Improved decision-making by redesigning data retrieval, resulting in a 30% increase in efficiency.
 - Enhanced ETL reliability by streamlining processes, ensuring end-to-end data integrity.
 - Strengthened team performance by mentoring junior engineers on deliverables and best practices.
 - Collaborated with cross-functional teams to maintain data quality and regulatory compliance in a HIPAA-governed environment.

Projects

- GeoGRCNN

Collaborated with academic partners to develop a compact and fast ML model for synthetic urban mobility trajectories, accepted for IEEE COMPSAC 2024.

Aug 2023 – July 2024
- Optimizing Power-Performance Tradeoffs in Nvidia Jetson with RL

Developed an RL agent to optimize power, performance, and temperature on Nvidia Jetson Nano, enhancing efficiency during diverse workloads.

Aug 2024 - Present
- Fault Detection in Business Processes:

Worked with a team to structure BPMN data using NER and applied GPT-4 to detect logical faults, earning 3rd place at the Vanderbilt CS Immersion Showcase.

Aug 2024 - Dec 2024

Education

- M.S. in Computer Science

Vanderbilt University, Nashville, TN

GPA: 3.47

Aug 2023 – May 2025 (Expected)
- B.Tech in Computer Science and Engineering

Galgotias University, Greater Noida, India

Sep 2015 – May 2019

Skills

- Database Management: Oracle PL/SQL, MySQL, MongoDB, PostgreSQL, MS SQL Server
- Data Analysis: Power BI, Apache Spark, ETL, Data Warehousing, Excel
- Programming: Python, C#, Docker, Git
- Machine Learning: Scikit-learn, PyTorch, TensorFlow, PySpark
- Cloud: AWS, Oracle APEX
- Scripting: Linux, Bash, PowerShell
- Web Development: HTML5, CSS, JavaScript, Django, Wix
- LLM: ChatGPT

Certifications

- Microsoft Certified: PowerBI Data Analyst Associate
- 2023
