

Sandeep Reddy

Workday Integrations Developer

+1 (845) 625-6557 @ sandeepreddyaredla123@gmail.com

SUMMARY

Workday Integration Developer with **4+ years of hands-on experience** designing, building, and maintaining scalable Workday integrations across the **finance and HR domains**. Began career at **Dell Technologies**, advanced through **Trigent Software**, and currently serving at **Uber**, consistently delivering high-impact integration solutions using **Workday Studio, EIB, Core Connectors, and Workday Web Services (SOAP/REST)**. Proven ability to collaborate with cross-functional teams, align technical solutions with business goals, and ensure compliance with **SOX, GDPR, and internal audit controls**. Strong background in leading integration testing, production deployments, and post-go-live support in fast-paced enterprise environments.

EXPERIENCE

Workday Integrations Developer

Uber

09/2024 - Present Cleveland, OH

- Environment: Workday Studio, EIB, Core Connectors, Cloud Connect, Document Transform, XSLT, SOAP/REST APIs, Workday Payroll, BIRT, Report Writer, Oracle, SAP, PeopleSoft
- Designed and developed 2-3 integrations using Workday Studio, EIB, Core Connectors, Cloud Connect, and Document Transform
- Delivered complex Workday reports with BIRT and Report Writer across Payroll, Talent, and Compensation domains
- Built secure Payroll integrations with Core Connector: Payroll and PECI; applied vendor-specific logic
- Supported and maintained integrations, resolved incidents, and implemented enhancements in production
- Worked with integration leads and PMs to prototype and deploy new interfaces on schedule
- Participated in security configuration using Workday ISUS and domain security policies

Workday Integration Developer

Trigent Software

03/2021 - 05/2022 India

- Led the design and deployment of over **20+ Workday financial integrations**, including solutions for General Ledger, Banking, Supplier Invoices, and Spend Authorization, resulting in a **30% improvement in financial data processing efficiency**.
- Collaborated with **5+ cross-functional teams** (Finance, Payroll, Compliance, IT, and HR) to gather and refine business requirements, reducing rework by **25%** through improved stakeholder alignment.
- Spearheaded a cross-regional initiative to standardize integration development, improving delivery speed by **40%** and reducing integration errors by **50%** over two quarters.
- Developed and maintained **15+ EIB and Core Connector integrations** and **10+ Studio integrations** for real-time financial data exchange with third-party vendors and internal systems.
- Acted as the primary point of contact for finance stakeholders during quarterly Workday releases, ensuring **100% compatibility** of integrations and smooth adoption of new features.
- Mentored a team of **3 junior developers**, increasing team delivery capacity by **35%** and accelerating onboarding time by **2 weeks** through structured training and documentation.
- Ensured compliance with **SOX and GDPR** standards by implementing robust error handling, encryption, and logging mechanisms across all finance-related integrations.

Workday Integration Developer

Dell Technologies

01/2019 - 03/2021 India

- Environment: Workday Studio, EIB, Core Connectors (Payroll Interface), SOAP/REST, XML, XSLT, Payroll, Finance
- Designed and supported complex Workday integrations between HCM, Payroll, Finance, and vendor systems
- Built Core Connectors for Payroll and Benefits and custom outbound integrations using Workday Studio
- Participated in system testing, UAT, and cutover activities; ensured zero-defect deployment
- Maintained detailed technical documentation and supported knowledge transfer sessions
- Resolved integration monitoring issues using Workday's troubleshooting tools and error logs

SKILLS

Workday Integration Tools:

Workday Studio	EIB (Enterprise Interface Builder)	Core Connectors	Workday Web Services (SOAP/REST)
Workday Report Writer	Workday Calculated Fields	Workday Custom Reports	

SKILLS

Finance Domain Expertise:

General Ledger	Accounts Payable	Banking	Supplier Invoices	Spend Authorization
Financial Reporting	SOX Compliance	Audit Controls	Data Reconciliation	

Technical Skills:

XML	XSLT	XSD	JSON	REST API	SOAP API	XPath	Java	Web Services
Middleware Integration	Error Handling	Debugging						

Collaboration & Leadership:

Cross-functional Team Collaboration		Stakeholder Communication		Requirements Gathering
Knowledge Transfer	Mentorship	Agile Methodology	Offshore Coordination	

Testing & Deployment:

Unit Testing	End-to-End Testing	Integration Testing	Workday Release Management	UAT Support
Production Deployment	Post-Go-Live Support			

Compliance & Security:

Data Privacy	GDPR	SOX Compliance	Data Encryption	Secure File Transfers	Role-Based Security
Audit Logging					

EDUCATION

Degree in Computer Science

Loyola Academy

06/2017 - 04/2020

Masters in Information Technology Management

Webster University

08/2022 - 05/2024
