SOFTWARE ENGINEER (JAVA DEVELOPER)

Java Development | AWS Integration | Team Leadership

Results-oriented Software Engineer with 4 years of experience leveraging Java and AWS to build scalable, cloud-based solutions. Proven track record of leading teams, delivering projects on time and within budget, and driving business impact through innovative technology.

PROFESSIONAL SUMMARY

- Having over **4** years of IT experience in Software Development using **J2SE** and **J2EE** Technologies.
- Expertise in **designing, deploying** and operating highly available, **scalable** and fault-tolerant systems on **AWS**, including experience with AWS **Serverless** deployment services.
- Expertise in developing **Spring Boot, Spring, Hibernate, RESTful** web services using **SpringRest, Kafka** and build tools like **Maven** and **log4j** for logging.
- Skills in developing UI screens using **JavaScript, React JS, HTML5** and **CSS3**.
- Experience in web development using **JSP, Servlets, Java Beans, JDBC, XML** and Web Services.
- Proficiency in using version control systems like Subversion **GitHub** and **Bitbucket**.
- Experience working with databases like **MySQL, MongoDB**

TECHNICAL SKILLS & EXPERIENCE

- **Languages:** Java, SQL, React JS
- **Mark-up/XML Technologies:** HTML5, CSS3, JavaScript, XML, JSON
- **Tools & Framework:** Kafka, Spring Boot, Spring, Hibernate, Spring MVC, Spring Boot
Spring REST, Spring JDBC, Spring Data JPA, Junit
- **Servers:** Tomcat
- **Database Skills:** MySQL, DynamoDB, MongoDB
- **Others:** Git, Git Lab, Bit Bucket, Jira, Maven
- **Cloud Technologies:** AWS - Lambda, S3 bucket, DynamoDB, CloudWatch, Step functions, etc

WORK EXPERIENCE

Tata Consultancy Services (TCS)

Hyderabad

System Engineer

Jul 2024 - Present

Project: Kafka Event Processing, Monitoring, and UI Integration

Key Responsibilities:

- Reduced failed event processing time by 30% using optimized retry mechanisms.
- Designed and implemented a robust system to send and consume messages from Apache Kafka topics.
- Developed a **retry mechanism** to reprocess failed events up to three times before marking them failed.
- Automated the reprocessing of failed events using **Spring Batch** and **Control-M**, scheduled to run every 24 hours.
- Utilized **WebClient** to call **REST endpoints** from external projects, storing failed event information in the database for traceability and future action.
- Enhanced system reliability and scalability by implementing **real-time Slack alerts for Kafka event failures using Elastic Watcher**.
- Implemented REST endpoints using **Spring Boot** and **Spring Data JPA** to fetch and manage failed events.
- Developed a user-friendly UI page using **React Js** to display and analyze failed events, enhancing visibility and decision-making.
- Ensured efficient **error handling, recovery mechanisms, proactive monitoring**, and seamless user interaction throughout the system

Project #1: EVA

Link: <http://www.eva.travel/>

Key Responsibilities:

- Designed and implemented data persistence using **Spring Data JPA** and RESTful Web Services.
- Mapped third-party APIs to our resources and integrated RESTful and SOAP APIs into the system.
- Developed and optimized stored procedures for efficient database operations.
- Managed data storage and retrieval using **DynamoDB** and **Amazon S3**.
- Monitored **AWS Step Functions** and **CloudWatch** to ensure system reliability and performance.
- Debugged software, optimized performance, and contributed to future code enhancements.
- Implemented a feature of adding multiple products to cart.

Project #2: No Expenses

Link: <https://www.noexpenses.com/>

Key Responsibilities:

- Actively conducting code reviews to ensure quality and adherence to best practices.
- Developed key features like integration of EVA and NoExpenses and developed the common global settings for eva and NoExpenses
- Successfully addressed and resolved defects at various levels, maintaining the integrity of the system.

EDUCATION

- **Bachelor of Technology**
Sathyabama Institute of Science and Technology, Chennai | CGPA: 7.6 (2017 - 2021)
- **Higher Secondary Education – Intermediate (MPC)**
NRI Junior College, Vijayawada | 93.1% (2014 - 2016)
- **Secondary School Education – Secondary School certificate**
Sri Chaitanya Techno School, Ongole | CGPA: 9.5 (2014)

PERSONAL STRENGTHS

- Quick & Clean coding skills
- Capable of working with fast-moving teams against the tight deadlines
- String Object-Oriented Methodologies
- Excellent Communication Skills
- “Can-Do” Attitude
- Willingness to Learn
- Believes and Values Teamwork

PERSONAL DETAILS

- **DOB:** 26/04/1998
- **Gender:** Female
- **Nationality:** Indian
- **Languages Known:** English, Hindi & Telugu
- **Marital Status:** Single

CONCLUSION

I hereby affirm that the above-mentioned particulars are correct up to my knowledge and I am responsible correctness of it.
