Professional Summary

- An SAP TM Functional Consultant in Projects with more than 10 years of experience delivering successful implementations, upgrades and support services. Very good understanding of functional logistics business processes and the integration of TM with Sales & Distribution with Materials Management, Finance & Controlling. Skilled Project Management, System optimization, end user training & IT Technical Consulting.
- Rich experience in Manufacturing (Packaging), Pharma, Telecommunications, Oil & Gas and managing Implementation, Enhancement, Support, Upgrade projects, data migration across multiple industries.
- Professional experience in IT industry including of Functional experience in SAP TM (Standalone & Embedded TM both with S4HANA), SD and Application Development experience in SAP ECC(6.0 & EHP 7.5..), S4HANA(1809 & 1909....) & Cloud.
- Worked as a business process remodelling and change management expert to streamline processes across the logistics department.
- Extensive hands-on experience on TM modules – Order Management, Planning, Carrier Selection & Tendering (BN4L), Charge Management & Settlement.
- Worked on setting up Transportation Management Master Data like defining Business Partners, Partner Role codes, Locations, One-time locations set-up, Transportation Lane, Transportation Mode, Default Routes, Mean of Transport, Means of Transport assignment to Transportation Mode.
- Worked on defining document types for OTR/DTR, Freight Unit, Freight Order/Booking Order, Freight Unit Building Rule (FUBR), Planning Profiles, Carrier Selection settings, Automatic Freight Planning through Strategy setup, Carrier assignment based on Direct Shipment option.
- Strong experience in setting up ECC-TM standard integration for Transactional data like Order (TRSO), Delivery (TRDO) Master Data like Customers, Vendors, Plants, Shipping points, Materials through CIF (CFM1, CFM2, CFM7).
- Strong experience in setting up Enterprise Structure in ERP Sales Org, Distribution Channel, Division and Assignments with sales org, TM Enterprise Structure Configuration and integration with S4HANA, MM & FI Config (ML & Valuation).
- Requisite knowledge of associated modules and their integrations with SAP TM like SAP GTS, GTT, LBN, EWM & EM.
- Worked on defining Charge Calculation process by setting up Charge Profiles for Settlement, Charge Categories & Charge Type, Freight Agreement Set up, Freight Agreement assignment to Carrier and Purchase Org, Calculation sheet creation with necessary Rate table and Scales.
- Developed Custom Objects with ABAP RICEFW in various functional areas- SD, FICO, MM, PP, TM, EWM, SAP IS Oil & Gas (TSW & TD).
- Proficient in development of Object-Oriented ABAP, Enhancements (User Exits, BADIs & FICA Events), ABAP Objects, ALV Reports, Dialog programming, Data Conversions like BDC & LSMW, Logical database, Webservice, RFC & BAPI's, IDOC EDI and ALE, Workflow, BRF+, Smart forms.
- Designed process flows for each functional area during the implementation, carrying out requirement gathering, functional modifications, unit testing, having in-depth knowledge of various project management methodologies (Agile, Waterfall, Iterative, Activate, Hybrid), Mapping Requirements, AS-IS process, TO-BE Process, Gap fitment.

Key Skill

- | | |
|---|---|
| » SAP S4 HANA Transportation Management | » SAP ABAP HANA, BTP, RAP, ABAP on Cloud |
| » SAP Master Data | » OData Services, CDS Views, AMDP |
| » Order Integration with TM | » ABAP Development Tools (ADT), S/4 HANA, SAP Fiori |
| » Basic & Advanced Shipping | » BOPF, FPM, FBI, POWL, PPF |

Academic Profile

- » **Computer Science and Engineering (CSE)** from JNTUH University in 2012 with 81.72%

Certifications

- » **Certified Procurement Professional (CPP)** from International Institute for Procurement and Market Research Issued in Jan 2021

Professional Experience

- Worked as SAP TM Lead Consultant with **NTT Data Business Solutions Pvt Ltd**, from July '2021 to March '2025
- Worked as Assistant Manager (IT) with **Balmer Lawrie & Co.Ltd**, from June '2020 to Feb 2021
- Worked as SAP Developer with **SAP LABS India Pvt Ltd**, from March '2018 to March 2020
- Worked as Software Engineer with **Accenture**, from May '2017 to Feb 2018
- Worked as Associate Software Engineer with **CGI Information Systems and Management Consultants Pvt Ltd**, from Jun '2014 to April '2017.

Organization: NTT Data Business Solutions Pvt Ltd

Client : Novavax

July'2021 to till date

Role : SAP TM Functional Consultant

Responsibilities/ Deliverables:

- Successfully implemented SAP TM with S4 HANA for Shipper.
- Worked on preparing Functional Specifications, conducting workshops with the business for requirement gathering, feasibility analysis, End users, Preparing the User Guides.
- Worked on Customizing standard integration process and Proxy enhancements according to the business requirements to flow the necessary custom data between the systems.
- Designed process flows for each functional area during the implementation, carrying out requirement gathering, requirement analysis, gap analysis, Data setups, functional modifications, unit testing.
- Having in-depth knowledge of various project management methodologies (Agile, Waterfall, Iterative, Activate, Hybrid), Mapping Requirements, AS-IS process, TO-BE Process, Gap fitment.
- Extensive hands-on experience on SAP TM modules - Carrier selection and Tendering, Charge Management, Settlement, Shipment integration process with SAP TM.
- Worked on domestic and international outbound and inbound processes for various transportation modes (truck FTL/ LTL, ocean, intermodal)
- Configured various areas such as ECC - TM integration, transportation network, conditions, incompatibilities, allocations.
- Functional expertise in Design, Implementation and Testing in SAP TM 9.5/9.6, ECC & S4HANA.
- Worked on defining Charge Calculation process by setting up Charge Profiles for Settlement, Charge Categories & Charge Type, Freight Agreement Set up, Freight Agreement assignment to Carrier and Purchase Org, Calculation sheet creation with necessary Rate table and Scales.
- Worked on defining document types for Freight Unit, Freight Order/Booking Order, Freight Unit Building Rules (FUBR), Planning Profiles, Carrier Selection settings, Automatic Freight Planning through Strategy setup, Carrier assignment.
- Worked on defining Freight Settlement Profiles, Dispute Management and Carrier Invoice creation and postings.
- Configured all the necessary TM configuration for executing standard Outbound and Inbound scenario.
- Involved in Freight Settlement process and ECC integration to create Service PO and Service entry sheets and respective configuration set up.
- Knowledge in TM queue processing, post processing framework. Basic knowledge in providing permanent solution for integration error messages on PPO2- Post processing framework.
- Handling Change requested and Get solution on CR and impact analysis of changes request.
- Worked on new request, review the new request evaluate & propose the solution on new request.

Organization: Balmer Lawrie & Co.Ltd

Client : Balmer Lawrie & Co.Ltd

June'2020 to Feb 2021

Role : Assistant Manager (IT)

Responsibilities/ Deliverables:

- Successfully implemented SAP TM with S4 HANA for Packaging Industry to increase the efficiency and reduce the cost.
- Configured all the necessary TM configuration for executing standard Outbound and Inbound scenario.
- Leading Planning and Execution in SAP TM and owner of Functional Specification/Designs in SAP TM Planning and Execution.
- Extensive hands-on experience on SAP TM modules - Carrier selection and Tendering, Charge Management, Settlement, Shipment integration process with SAP TM.
- Worked on domestic and international outbound and inbound processes for various transportation modes (truck FTL/ LTL, ocean, intermodal and multimodal).
- Configured various areas such as ECC - TM integration, transportation network, conditions, incompatibilities, allocations and business shares.
- Charge Management - Worked on the entire charge management setup and designing the rate tables.
- Having a good understanding of SAP TM architecture across all multiple components
- Configuration of Business Partners, Org Structure and Master Data
- Worked on enhancements for the Master Data like Customers, Vendors, Plants, Shipping points, Materials through CIF.

- Worked on POWL enhancements, BRF+ Conditions & PPF framework
- Enhanced the FPM applications for TM module

Organization: SAP Labs India Pvt Ltd

Client : Saudi Aramco(Oil & Gas TSW) – Saudi Arabia
Role : SAP Product Developer

March'2018 to March 2020

Responsibilities/ Deliverables:

- Interpreting and translating functional specifications into ABAP, which involve creating High Level Design Documents for the developments requested which are then translated into ABAP programs.
- Developed and extended CDS Views, AMDPs and used to build BOPF application as well Odata Services.
- Developed FIORI App with smart Template paradigm and consumed above Odata services for CRUD operations.
- Created tables, views and configured to SPRO.
- Worked on Managed & Unmanaged applications using RAP(Restful ABAP Programming)
- Customized the existing CDS Views by adding new fields /Joining multiple CDS Views building the Master Report.
- Involves in technical design discussion, requirement gathering, development estimation and coordination with business, functional and technical team members. Prepare technical specification, code reviews, performance reviews and involved in testing phases.
- Developed Webdynpro application for Physical Inventory Calculation in TSW module using FPM configuration
- Expertise on trouble shooting techniques like monitor IDOCs, Webservice call, RFC calls and very good at SAP standard code debugging, to understand the core process and look for better scalable solutions.
- As a team member assisting other team member in resolving their issues and maintaining the project documents and tracking the work.

Organization: Accenture

Client : Nadro Pharma – Mexico
Role : SAP Product Developer

May'2017 to Feb 2018

Responsibilities/ Deliverables:

- Set up communication between SAP ECC 6.0 & S/4 HANA (EHP 7.4)
- Full cycle implementation for Master & Transactional data Transfer with ALE configuration using different message types CODCMT, FIDCC1, CREMAS, DEBMAS, COGRP1...etc with Change pointers for Full & Delta data transfer
- Implemented multiple interface programs to handle accounting & controlling information for posting
- Enhanced the User exits to get the Intercompany postings & generated FICO documents to send target system with IDOC mechanism using message type FIDCC1 & CODCMT
- Developed program using Dynamic Programming concept to send multiple Ztables data through changes pointers.
- Used Sidecar Approach (ABAP on HANA) created Materials and Customers in Centralised system by fetching details from underlying HANA Database(HDB system).
- Upon creation of Materials and Customers, send the required details back to NDB system as an acknowledgement.
- Created RFC's to handle the FI validation rules of target system in source system
- Responsible for the Go Live processes and after Go Live support.

Organization: CGI

Client : Bell - Canada
Role : SAP Developer

Dec'2015 to March 2017

Responsibilities/ Deliverables:

- Cycle Count Interface - Created an Inbound interface programs to accept file as an Input and create & Post Physical inventory document in SAP system using MI01,MI04 & MI07.
- Junking Interfaces - Created an Inbound & Outbound interface programs to accept file as an Input and send Junk data to Progostix to create & Post Junk document in SAP system using Basic type WMMBID01. (Inbound & Outbound File Interfaces)
- Bell Aliant Ph3 & Ph4: Enhanced the FM 'FI_VALIDATION_ITEM' to capture the Balance sheet line item validations & Capture the Junk document posting information for reprocessed IDOC's.
- Developed new programs to extract balance sheet posting data from BRT to post documents in both company codes to move the changes in balance sheet accounts for the period from company BRT to Bell Canada.
- Created custom tables & worked on table maintenance generator to maintain the validation before CRUD operations.

Achievements

- Received PAT ON BACK award twice.
- Received Pegasus award for excellence performance in a quarter.
- Received many appreciation mails from superiors & onsite team.

Personal Details

- Date Of Birth : 2nd May, 1990
- Marital Status : Married
- Languages Known : English, Telugu, Hindi, Arabic(Basic).
- Nationality : Indian
- Passport No : Z6324910
- Present Location : 18 Raleigh Rd, Edison, NJ 08817
