Experience:

ServiceNow Developer | Techkonnnect

July 2023 – present

Application Developer | Kinsfolk

Jan 2021 – Dec 2021

Summary:

- 3.5+ years of IT experience, 2.8+ years in ServiceNow as Developer & Administrator.
- Skilled in Agile methodology, translating business requirements into technical solutions.
- Hands-on experience in ITSM (Incident, Problem, Change), Service Catalog, Asset Management, and Integrations.
- Proficient in CMDB, CI relationships, data imports, and ITBM event management.
- Strong experience with Business Rules, Client Scripts, UI Policies, UI Actions, Script Includes, and Access Control Lists.
- Worked on email notifications, inbound actions, reports, dashboards, Performance Analytics, and ServiceNow security.
- Expertise in REST & SOAP API integrations, third-party system connections, and automation of workflows.
- Experience in SLA management, Service Catalog development, record producers, UI customizations, and data transformation using Transform Maps.
- Knowledgeable in ITIL processes, IT asset & configuration management, and SDLC.
- Hands-on experience in developing and managing complex workflows and approvals.
- Strong problem-solving skills, adaptability to new technologies, client handling, workshops, and end-user training.

Work Experience:

Techkonnnect Dallas Tx

July 2023 - Present

Role: - ServiceNow Developer

- Worked under Fruition Partners, a leading global ServiceNow integration partner.
- Experienced in analyzing business requirements and converting them into functional ServiceNow solutions.
- Hands-on with client and server scripting, business rules, UI actions, notifications, and inbound actions.
- Managed multiple client tasks, provided timely solutions, and documented changes in scrum stories.
- Developed service catalog items, workflows, and customized processes per business requirements.
- Worked extensively on CMDB, including identification and reconciliation rules, CI updates, and maintaining data completeness and compliance.
- Enhanced major ITSM modules like Incident, Problem, Change, Knowledge, and Service Request Management.
- Consulted clients on complex business problems and implemented solutions following industry best practices.

- Revamped and customized the Service Portal for improved usability and department-specific needs.
- Followed Agile methodology with regular client and team status meetings.

Kinsfolk Pune -IN

Jan 2021 – Dec 2021

Role: Application developer

- Worked extensively on ServiceNow platform, focusing on ITSM, GRC, CMDB, HR, and custom modules.
- Developed and administered ServiceNow applications, ensuring alignment with business needs and best practices.
- Translated complex business requirements into scalable ServiceNow solutions using Business Rules, Client Scripts, UI Policies, UI Actions, and Script Includes.
- Collaborated with the GRC team to develop risk management solutions, policy workflows, risk assessments, and compliance tracking.
- Configured and administered GRC plugins, automated policy acknowledgment campaigns, and implemented risk calculation logic.
- Integrated ServiceNow with third-party applications using REST and SOAP APIs, automating processes through workflows, scheduled jobs, and event-driven triggers.
- Worked on CMDB management, handling CI identification and reconciliation rules, maintaining data integrity, and ensuring compliance.
- Customized and enhanced Service Portal by developing widgets and improving UI/UX for a better user experience.
- Created record producers, catalog items, order guides, and automated HR workflows using Document Builder in HR Service Delivery.
- Managed multiple client requirements, provided technical consultation, and implemented solutions following industry best practices.
- Worked in Agile environments, participating in daily scrums, documenting enhancements, and ensuring smooth project delivery.
- Provided training and knowledge sharing to end-users and stakeholders for maximizing platform adoption and efficiency.

Certifications:

- Certified System Administrator – CSA
- Scrum fundamental
- Six Sigma
