## ABOUT ME

**Award-winning AI Product Executive** with 15+ years of experience delivering high-impact products at the intersection of AI, automation, and user-centric design. Proven success in building and scaling LLM-based platforms, intelligent agents, autonomous workflows, growing multi-surface tools and enterprise SaaS tools. Expertise in prompt engineering (GPT-4, Claude, LangChain), GenAI deployment for workflows, agentic design, and ML-powered personalization tools. Skilled in transforming customer insights into innovative solutions, 0→1 product innovation, leading full lifecycle product development and aligning cross-functional teams to deliver measurable outcomes. Adept at navigating ambiguity, optimizing complex workflows, and driving measurable outcomes through experimentation and continuous iteration. Passionate about shaping the future of AI-driven experiences.

Some of my core competencies include:

- |                                                          |                                   |                                 |
|----------------------------------------------------------|-----------------------------------|---------------------------------|
| ● Product Vision & Strategy                              | ● 0→1 Product Innovation          | ● Executive Communication       |
| ● Product Lifecycle management                           | ● Consumer & B2B SaaS             | ● Experimentation - A/B Testing |
| ● Agile Execution-JIRA/Confluence                        | ● Data-Informed Decision Making   | ● OKRs & Product Metrics        |
| ● Roadmap Prioritization                                 | ● UX Research - Consumer insights | ● Automation (Zapier, Make)     |
| ● GTM & Growth Strategy                                  | ● Agentic App Design              | ● OKRs & Product Metrics        |
| ● Org Scaling, Stakeholder Alignment, Talent Development | ● AI/ML Product Innovation        | ● Cross-Functional Leadership   |
| ● ML/Ranking Systems                                     | ● Gen AI, LLM RAG                 | ● KPI Performance Tracking      |
|                                                          | ● Prompt Engineering              | ● Intelligent Search            |

---

## PROFESSIONAL EXPERIENCE

**Rava AI /Co-Founder - Product, San Francisco, CA**

**(2023-2025)**

**Led strategy and execution for an award-winning AI-powered SaaS platform focused on intelligent automation for SMEs.**

- **Designed and shipped GenAI platform** integrating LLMs, RAG, and Knowledge Graphs for autonomous content generation; recognized as "AI Innovation of the Year" and "Top 3 Product" on Product Hunt.
- **Led strategy, team hiring, and roadmap for a GenAI platform**, conceptualized platform vision, integrated APIs and SDKs, and developed execution models for intelligent agent workflows.
- **Led 0→1 development** of LLM-powered platform with weekly sprints; integrated GenAI into user workflows, launched to 100+ enterprises with 40% engagement lift and improved operational workflows.
- **Built and scaled a lean cross-functional team** (design, engg, data, marketing) from ground up; delivered 100% of roadmap goals on schedule.
- **Engaged with 200+ users** through feedback sessions, GTM pilots and interviews to define customer-driven requirements and acceptance criteria, which directly informed over 30% of roadmap updates.
- **Defined structured metadata** and prompt frameworks to support composable GenAI modules for dynamic interfaces.
- **Presented roadmap & outcomes** to executive investors; to secure seed funding through product-driven growth.
- **Owned end-to-end product success metrics** (activation, retention, NPS), using experimentation to improve conversions by 18% post-launch.
- **Built internal productivity tools** (JIRA/Confluence wiki, chatbot) to streamline onboarding, documentation, and team productivity in a remote-first setup.
- **Defined scalable information architecture** and documentation systems to support engineering and product teams.

**GoDaddy/Director of Product, San Francisco, CA**

**(2021-2023)**

**Owned roadmap and delivery of internal and external-facing Godaddy Marketing tools, supporting millions of users.**

- **Drove product vision for Marketing Suite**, integrating with Google & Meta & Open AI APIs to support automated campaign execution, improving user acquisition by 12% YoY.
- **Owned technical roadmap** for 5 complex products, making trade-off decisions, ensuring consistency across multiple surfaces (web, mobile, admin portal), collaborating UI/UX design on reusable components to cut time-to-market by 30%.
- **Directed cross-functional multi-million \$ initiatives** across marketing, engineering, UX and sales, reporting directly to SVP
- **Improved product adoption by 5% and CSAT by 35%**, delivering onboarding enhancements, personalization and feature discoverability tools that simplified workflows
- **Established KPI dashboards and experimentation**, leading to an 8% lift in conversion and significant funnel efficiency
- **Led org-wide tech modernization** affecting multiple product lines, coordinating across 40+ leaders with 0 downtime
- **Owned OP1 and quarterly planning cycles**, aligning roadmap with company-level OKRs and driving cross-team delivery

- **Spearheaded internal tooling** and admin systems supporting operational teams & onboarding flows. Led documentation and knowledge-sharing efforts via Confluence; trained cross-functional teams and maintained product area wikis.

**Sabio Mobile/** VP of Product, Santa Monica, CA

**(2017-2021)**

**Scaled real-time ML and analytics platforms across CTV and mobile ad ecosystems serving Fortune 500 clients.**

- **Delivered 3 patent-pending technologies** in predictive modeling, fraud detection, and audience graphing
- **Transformed startup from 3rd party tools to homegrown platforms**, resulting in \$12M valuation growth
- **Launched ML-based systems** for intelligent segmentation and real-time recommendations, driving 15% increase in CLTV and reducing churn by 20%
- **Partnered with compliance teams** to ensure data privacy (GDPR, CCPA), product safety, operational reliability at scale.
- **Built and scaled global product, ML, and data science teams**, with 100% on-time delivery of high-impact roadmap items
- **Owned product discovery with enterprise clients** to identify high-impact vertical use cases, customizing workflows that increased deal win rates.
- **Partnered with sales and execs** on enterprise deployment strategy and GTM for vertical-specific ML tools across retail, automotive, and healthcare, increasing deal win rates.

---

## PROJECTS & ADDITIONAL EXPERIENCES

- **Agency Ready:** AI, product and GTM advisory for startups and AI-driven apps
- **Roku/DataXu:** Delivered automation workflows and audience intelligence tools for Fortune 100 brands
- **xAd/GroundTruth:** Led ad ops strategy for major AdTech clients. Managed a team of 13 across the US.
- **Celtra:** Drove product adoption for key client accounts through training & support.
- **Intel:** Developed & tested in-house hardware analysis tools.
- **AI Agentic Projects:** Built agents for content creation, and hiring workflows
- **AI Projects:** Built machine learning-based candidate interviewing software and auto part malfunction detection system

---

## EDUCATION

**M.S., Electrical and Computer Engineering** | OKLAHOMA STATE UNIVERSITY

**M.B.A.** | PRESIDIO SCHOOL OF MANAGEMENT

---

## THOUGHT LEADERSHIP & CERTIFICATIONS

- **Industry Recognition:** Keynote speaker at Agentic AI Summit, AI and Creator Tech Summit, Women Founders Summit
  - **Media Presence:** Podcast guest on [Silicon Valley FM Radio](#), [Hindu Business line](#), [ETV Chit Chat with Entrepreneurs](#)
  - **Community Leadership:** Hosted AI & Marketing Events across Silicon Valley (900+ registrations per event)
  - **Published Articles:** Multiple publications on AI and Martech innovation
  - **Certifications:**
    - AWS Certified Solutions Architect – Associate
    - Neo4J - Gen AI Certification
    - Design Thinking For Innovation (University of Virginia Darden School of Business)
    - Outskill Gen AI Mastermind certification
-
