Summary

A skilled Frontend Engineer with over 6 years of experience specializing in front-end and back-end development. Expertise in React, Next.js, Node.js, TypeScript, and Tailwind CSS, with strong problem-solving skills and experience integrating RESTful APIs. Proven ability to collaborate cross-functionally with marketing and security teams, ensuring optimal system performance, scalability, and security. Adept at implementing test-driven development and optimizing code for performance.

Work Experience

Software Engineer | Cal Engineering Solutions | Jan 2023 – Present

- Developed a project management platform with customizable Kanban boards, task assignments, and file attachments using React, Next.js, TypeScript, Tailwind CSS, Node.js, GraphQL, Redux and MongoDB.
- Designed and implemented a user management system with role-based access control (RBAC) and automated email and toast notifications to enhance collaboration.
- Led a team using Agile methodology, managing daily stand-ups, task distribution, and code reviews, resulting in a 35% increase in project efficiency.
- Implemented unit and component test automation using Vitest and Jest improving code reliability and reducing bugs by 40%.
- Optimized system performance by 45% by improving load times and database efficiency through code refactoring and query optimization.

Junior Frontend Engineer | Saba System | Oct 2018 – Jan 2023

- Developed and maintained responsive UI components using React, HTML, CSS, and JavaScript, ensuring a consistent and user-friendly experience across multiple devices.
 - Refactored and optimized front-end components, increasing performance and scalability by 20%.
 - Collaborated with back-end developers to integrate RESTful APIs, reducing load times by 15% and enhancing application performance.
 - Designed and deployed a real-time chat plugin using Node.js and Socket.io, adding group creation and chat functionalities to boost user engagement.
 - Enhanced front-end functionality and responsiveness through continuous testing and debugging, leading to a 20% reduction in reported bugs.
-

Education

Bachelor of Science in Computer Science, 2020

Azad University South Branch

Certifications

- AWS Cloud Practitioner Essentials
 - AWS Cloud Technical Essentials
 - Agile Software Development
-

Skills

- **Front-End:** React, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML, CSS, Vitest, Redux
- **Back-End:** Node.js, GraphQL, MongoDB, MySQL, RESTful APIs, Docker, AWS, CI/CD, Jest
- **Development Practices:** Agile Software Development, Git, Problem-Solving, Code Optimization
- **Interpersonal:** Leadership, Communication, Teamwork, Adaptability, Strong Work Ethic
