SUMMARY

- Business Analyst with 10+ years of experience in healthcare & finance, refining processes, and implementing solutions.
- Orchestrated Agile/Scrum projects, boosting operational efficiency and customer satisfaction.
- Gathered, & analyzed requirements, producing BRDs, SRDs, & user stories to meet stakeholder needs.
- Proficient in data analysis and visualization, leveraging SQL, Tableau, and Power BI to craft impactful reports and dashboards that drive informed decision-making.
- Expert in process modeling using Visio and Lucid chart streamlining workflows and cutting processing times.
- Strong understanding of risk management and fraud detection, bolstering threat identification and mitigation.
- Supervised project backlogs & tracked progress with JIRA, Confluence, and MS Project to ensure timely delivery.
- Performed user acceptance testing (UAT) & training sessions, achieving high user adoption rates for new systems.
- Skilled in UML diagrams, wireframes, and prototypes to bridge business-IT communication.
- Implemented a comprehensive process mapping initiative that identified and eliminated redundant steps in three key business functions, resulting in an improvement of team workflow efficiency by 30 hours monthly.

SKILLS

Business Analysis: Cost/Benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT Analysis

Business Intelligence: Tableau, Power BI, Qlik Sense, Looker, Google Analytics, Alteryx, Power Query, DAX

Database Management: MySQL, Oracle, MS Access, Snowflake, Neo4j, Azure, AWS

Programming Language: Python, Java, C, C++, HTML/CSS, R programming

Project Management Tools: MS Project, MS Excel, MS SharePoint, MS Office, Asana, Trello, Jira, Rally, Confluence

Methodologies: SDLC, Agile/Scrum, Waterfall, Lean, DevOps

Documentations: FRD, BRD, SRS, Test Plan, User Guide, Use Cases, User Story, User Personas

Tracking Tools: HP Quality Center, Rational ClearQuest, RTM

ERP Planning & CRM: SAP, MS Dynamics Nav, Salesforce

Technical Skills: SAS, ETL, Data Analysis, Data Modeling, Statistics, JAD, KPIs, Requirement gathering, Process Mapping, Quality Assurance (QA), A/B testing, MS Visio, RACI Matrix

Soft Skills: Communication, Time Management, Leadership, Ownership, Adaptability, Negotiation, Decision-Making, Conflict Resolution, Problem Solving, Collaboration

EXPERIENCE

Business Analyst

Freddie Mac, USA

February 2023 – Present

- Analyzed large datasets with SQL Server to create 15+ business reports, leading to 30% increase in decision-making via upgraded data accessibility and clarity.
- Designed interactive Tableau dashboards, minimizing 40% of report generation time, and delivering real-time insights to executives for better data visibility and key performance indicators tracking.
- Drafted detailed Business Requirement Documents (BRDs) and System Requirement Documents (SRDs), aligning stakeholder expectations, achieving a good approval rate by defining project scope, and requirements.
- Applied Lean Six Sigma methods to streamline document management and UAT planning.
- Created user manuals, training materials, and test plans to support project deployment.
- Conducted root cause analysis and collaborated with stakeholders to optimize business processes.
- Utilized SQL for test data validation and process flow analysis.
- Created process documentation using Microsoft Visio to map current and future state workflows.

Business Analyst

Shawbrook Bank (Quinox Consultancy), India

July 2020 – August 2021

- Gathered and translated business requirements into detailed functional documentation.
- Performed stakeholder interviews and workshops to align expectations.
- Leveraged Power BI for creating dashboards and reports to track operational performance.
- Coordinated functional and non-functional requirements using Jira, processing 300+ new feature requests and reaching an on-time delivery rate through task prioritization.
- Arranged 30+ user interviews and 10 Joint Application Development (JAD) sessions, gathered requirements utilizing Rational Requisite Pro to perform gap analysis between legacy and new scheduling systems, finding 50+ progress areas.

Business Analyst

Laurentian Bank of Canada (Odessa Technologies), India

February 2019 – June 2020

- Developed requirement traceability matrices and BRDs/FRDs.
- Conducted process gap analysis and implemented improvements using Lean techniques.
- Assisted in automation initiatives using data-driven methodologies.
- Maintained burn-down and burn-up charts during project sprints, ensuring 95% accuracy in sprint delivery estimation, project planning, and resource allocation.

Business Analyst

CIB Egypt (Quess Corp), India

May 2018 – October 2018

- Reviewed end-to-end system workflows to identify inefficiencies.
- Collaborated with cross-functional teams to improve data validation processes.
- Engineered 15 Business Process Model and Notation (BPMN) diagrams utilizing Visio and Lucid chart, augmenting financial workflows and shortening 35% processing time through automation.
- Crafted 10 interactive Power BI dashboards for real-time financial KPI tracking, accelerating 28% decision-making speed providing timely insights into business performance.

Business Analyst

Yethi Consulting Pvt Ltd, India

May 2016 – May 2018

- Conducted business process re-engineering projects within banking systems.
- Documented existing process flows and recommended areas for automation.

Business Analyst

Maveric Systems Ltd, India

August 2012 – April 2016

- Led requirement analysis and testing for financial modules.
- Created reports for management showing workflow optimizations.

EDUCATION

Master's in Management Information Systems

Stevens Institute of Technology, Hoboken, NJ

August 2021 – May 2023

Bachelor's in Information Technology

SV College of Engineering, Tirupati, Andhra Pradesh

June 2008 – May 2012

CERTIFICATIONS

Scrum Master | Tableau Desktop Specialist | ISTQB
