

Alexey I. Pronikov

03/13/1993

Santa Monica, CA, USA

+1 424 877 58 29

pronikovalexey@gmail.com

Profile	Sex: male The marital status: married, no children
Education	2011-2017 National Research Nuclear University Moscow Engineering-Physics Institute (NRNU MEPhI), <i>Faculty:</i> Automatics and Electronics; <i>Department:</i> Electrophysical Devices <i>Degree:</i> Master of Science <i>GPA:</i> 4.75 (max 5.0)
Work Experience	2013-present <i>RF Engineer</i> RadiaBeam Technologies LLC (2022-present) - Microwave Engineering - RF measurements - CST MWS/ANSYS Workbench/Parmela/Poisson simulations - RF design, tuning, and testing the industrial accelerators <i>Principal Engineer</i> JSC Pluton (2017-2022) - Microwave Engineering - RF measurements - CST MWS simulations of M-type RF sources (magnetrons) <i>RF Engineer</i> NRNU MEPhI (2013-2022) - Simulations of electrodynamic characteristics of accelerating structures (BAS) Moscow Radio-Engineering Institute (2015-2017) - Prototype of radar transmission path 3-mm wavelength range high power phased array based on synchronized magnetrons
Other Experience and Qualifications	- Microwave Sources, USPAS 2024, USA - Microwave Measurements and Beam Instrumentation, USPAS 2023, USA - RF Superconductivity for Particle Accelerators, USPAS 2022, USA - The training school at the European Synchrotron Radiation Facility, Grenoble, France, 2019 - The CERN-Japan-Russia International Accelerator School, Dubna, Russia, 2019
Hobby	- BMW community, MMA, football, hockey
Languages	- Russian – native - English – full professional proficiency
IT Skills	Overall: advanced user General Software: MS Windows, MS Office, 3DS Max. Professional Software: CST Microwave Studio, ANSYS Workbench, MathCad, Python
