Education

DAIICT

Master of Science in Information Technology - 7.8 GPA

Gandhinagar, GJ

May 2021 - March 2023

- **Selected Coursework:** DBMS, CN, Data Structures and Algorithms, OOPs, System Programming, Cloud Computing.

Summary

- Over 6 years of strong experience as a Full Stack web developer with solid understanding of frontend technologies, MVC frameworks, Restful web services and Data Base designing.
- Strong knowledge in MERN Stack with vast experience in building Web Applications, used React.js for client side, Node.js/Express for server side and MongoDB, SQL Server for database.
- Expertise in using React.js/Redux to build User Interface, strong knowledge of state store, middleware, action creator, reducer and container.
- Expertise in using Grid Controls, jQuery and DOM manipulations, worked with CSS preprocessor.
- Hands-on experience in building data visualization with D3.js.
- Extensive experience in developing Restful web services with Express and NodeJS.
- Strong knowledge of MongoDB as well as SQL server, experienced with (Mongoose plugin, Mongo Client) and write SQL queries, stored procedures and data base normalizations.
- Deep understanding with advanced Javascript concepts, such as Prototype, Closure, Scope Chain and Promise.
- Strong knowledge of Object Oriented Programming, functional programming and have strong knowledge of design patterns, such as SOLID principles, Singleton, factory, DI, etc.
- Extensively worked with Test-driven Development (TDD) and proficient in creating and executing Unit test cases using Mocha, Chai and JEST.
- Hands-on experience in working with GIT and Microsoft Team Foundation Server (TFS).
- Team player with excellent communication, Trouble shooting, Debugging and Strong analytical problem solving skills to deliver Technology products and consulting solutions.

Experience

Thrivos

Software Engineer

Vadodara, GJ

Jan 2024 - Jan 2025

- Worked on technologies like Angular, Next, Nest, SQL, .NET Core
- Created and Integrated API's for the company products
- Developed UI using frontend technologies
- Wrote Data scripts for the DBMS systems

Integrella IT PVT LTD

Software Consultant

Ahmedabad, GJ

Jan 2023 - Nov 2023

- Worked on a product using 3rd party API's for payment systems, UI designing, and meeting scheduling using technologies written in javascript
- Learned and implemented basic solutions for HL7 interface using integration engine such as Intersystems.
- Learned team management, work ethics.
- Practised various software engineering methodologies.

- Analyzed business requirement to translate functional requirements into technical requirements and developed web application using MongoDB, Express, React.js/Redux and Node.js (MERN stack).
- Used HTML5, CSS3, JavaScript and jQuery to build Interactive User Interface (UI), created responsive web pages using react bootstrap framework.
- Worked on Lifecycle Methods, State, Props, and Events to create interactive and stateful React Components, achieved routing using react-router.
- Created class based and function based components, added necessary event listeners, implemented communication strategies between React Components.
- Designed rich featured action creators and corresponding reducers.
- Used React Axios to call Web APIs to fetch data from backend and update the states in the store of Redux.
- Adopted MongoDB for data storage, designed different schemas and data access services to communicate with MongoDB.
- Used NodeJS and Express framework to build server side logic, and applied with middlewares to handle http requests.
- Involved in design and development of Restful API and services to interact with data storage layer.
- Built reusable React components and functions to be added to future pages.
- Applied JWT middleware to backend for authentication and used Passport for security purpose.
- Worked in TDD (Test-Driven Development) and performed testing using Mocha, Chai, Enzyme, Jest.
- GIT was used as code repository, Webpack used as module bundler, JIRA for bug tracking, and Jenkins for continuous integration code deployment.
- Active participant in daily scrum meetings and involved in many phases of Confidential using Agile methodology

Technical Skills

Languages: Javascript, Java, Python, C++, SQL

Developer Tools: MATLAB, Github, Docker, Node

Technologies/Frameworks: API, REST, React Native, React, Express, MongoDB, GIT, MySQL, JSON, Redis, Bootstrap, Unit Testing, AJAX, Web Services, Agile, XML, HTML5
