PROFESSIONAL EXPERIENCE

Saberpoint LLC, Remote, Salesforce Consultant | 12X Salesforce Certified July 2020 – Present

- Create modern lightning applications combining lightning design systems, app builders, & component features to enable clients' businesses to grow, providing resolution to technical challenges & business support issues.
- Design & deploy custom objects, custom tabs, entity-relationship data models, reports, validation rules, workflow rules, auto-response rules, page layouts, components, & visual force pages to suit the needs of the application.
- Introduce data from various sources to Accounts, Contacts, & Opportunities using Data Loader & Import Wizard.
- Define Salesforce post-production implementation & adoption strategies, develop system requirements, design prototypes, conduct testing, conduct end-user training, define support procedures, & lead deployment of scalable business solutions.
- Manage up to 6 SFDC Orgs with 400+ users containing Visualforce Pages, Lightning Web Components, APEX Triggers, & Classes.
- Create Email & CPQ Quote Templates using Visualforce including HTML tags, & Pricing line items to perform advanced operations on data that is sent to a recipient.

Pace University, New York, NY, Graduate Research Assistant January 2019 – June 2020

- Researched current information on real-time stock market data, health statistics, and educational trends and linked data from internal tools to the Data feed Toolbox - MATLAB to support faculty in paper publication.
- Performed exploratory data analysis on millions of rows of finance and stock data and designed Tableau dashboards to analyze trends in stock prices over years and to determine the risk of investing in each stock.
- Extracted large volumes of high-frequency financial data from various data sources, such as Google Finance, Yahoo Finance, and Bloomberg, and load data into Excel and SQL to develop visualizations that offer valuable insights.
- Facilitated computer science courses and labs in collaboration with faculty, guiding 50+ students and preparing lectures.

UPS Supply Chain Solutions, Alpharetta, GA, Financial Analyst, Global Freight Forwarding June 2019 – September 2019

- Created design and conceptual framework to update tables within the database by importing data from PL/SQL.
- Constructed a clean document and produced a Data Concept Map and Financial Concept Map in Excel to visualize information.
- Collaborated with the GPR team in writing audit codes employing PL/SQL to validate input received from regions/departments on the 2020 Stewardship survey template.
- Coordinated with all concerned regions/departments about the 2020 Stewardship survey and contributed GPR team redesigning the survey template using Data Validation and Excel VBA.
