Professional Summary

SAP Certified S/4HANA MM Consultant with over **7 years** of hands-on experience in SAP MM/IM/WM modules and **25+ years of combined domain expertise in supply chain and operations**. Completed **two full lifecycle implementations, rollouts, support and enhancement projects**. Specialized in design, configuration, and implementation of SAP solutions for procurement, inventory, logistics, and warehouse management. Proven success in global S/4HANA projects, process automation, system enhancements, and cross-functional integration. Proficient in SAP organizational structures, P2P processes, STO, return PO, delivery processes, and master data setup. Strong background in supporting RICEFW developments and EDI/ALE interfaces.

Core Skills & Expertise

- **SAP MM/IM/WM/EWM Configuration:** Procurement, inventory management, warehouse management, goods movements
 - **Purchase-to-Pay (P2P) Processes:** PR, PO, MRP, invoice verification, service procurement, subcontracting
 - **SAP Logistics Execution:** Stock transfers (STO), return PO, inbound/outbound delivery integration
 - **SAP S/4HANA & Fiori:** End-to-end implementation using SAP Activate, SAP Fiori apps for MM processes
 - **Master Data Management:** Material master, vendor master, purchasing info records, batch management
 - **Interfaces & Integration:** IDoc, EDI, ALE, MM-SD-FI-PP-QM-PM integration
 - **RICEFW & Enhancements:** Functional specs, custom reports, workflow enhancements, debugging familiarity
 - **Testing & Support:** UAT, test scripts, regression testing, cutover, go-live, hypercare support
 - **Process Optimization:** Business process redesign, automation, procurement analytics
 - **Additional skills:** Strong communication & stakeholder management across IT and business teams. Cross-functional collaboration with SD, FI, PP, QM, PM consultants
-

Professional Experience

SAP MM Consultant | SAPSOL Technologies Inc.

Client: AB InBev Beverage Co. | *Jan 2019 – Present*

- Analyzed business processes across procurement, inventory, logistics, and WM functions.
- Configured and implemented P2P, MRP, STO, return PO, and inbound/outbound delivery processes.
- Executed SAP MM-WM integrations including bin management, picking/putaway, and transfer orders.
- Designed test scripts and executed UAT, regression testing, and supported cutover activities.
- Led master data setup and cleansing activities.
- Worked on RICEF developments, function specs, and collaborated with the ABAP team on enhancements.
- Provided support, resolving issues in MM processes, including GR/IR discrepancies.

Key Achievements:

- ✓ Reduced procurement cycle time by 25% through automated workflows
 - ✓ Enhanced STO and inbound delivery accuracy, improving warehouse productivity
 - ✓ Reduced inventory holding cost through optimized MRP and inventory processes
-

SAP MM/IM/WM Consultant | SAPSOL Technologies Inc.

Client: Lanxess Chemical Co. | *May 2017 – Dec 2018*

- Delivered ECC to S/4HANA migration with focus on MM/IM/WM modules.
- Configured MM processes including consignment, subcontracting, MRP, and invoice verification.
- Integrated WM for stock putaway, picking, storage types, and warehouse activities.
- Developed test scenarios and supported end-user training across purchasing and warehouse teams.
- Enabled EDI-based procurement and set up IDoc interfaces for vendor communications.
- Provided system support, process enhancements, and WM optimization initiatives.

Key Achievements:

- ✓ Automated inventory management processes and improved warehouse visibility
 - ✓ Enabled seamless MM-PM integration for MRO parts management
 - ✓ Streamlined return PO and outbound delivery processes, reducing processing errors
-

Domain Experience

Supply Chain Manager – *Harvir Enterprise, India | 2011–2017*

- Managed end-to-end supply chain operations including procurement, vendor management, inventory control, and logistics. Enhanced operations using SAP ECC.
- Developed strategic sourcing plans and negotiated with suppliers to optimize costs and lead times.
- Implemented inventory optimization techniques, improving stock turnover and reducing holding costs.
- Oversaw material planning and ensure alignment with production and sales operations.
- Supervised warehouse activities and ensured compliance with safety and quality regulations.

Warehouse Supervisor – *TISSCO, Qatar | 2010–2011*

- Supervised warehouse operations including receiving, storage, picking, packing, and dispatch of materials. Managed warehouse operations using SAP ECC.
- Conducted stock audits and implemented cycle counting for accurate inventory control.
- Coordinated with procurement and logistics teams to ensure timely deliveries.
- Trained warehouse staff and improved efficiency and safety standards.
- Maintained accurate documentation and reports for stock movements and inventory transactions.

Operations Supervisor / Executive – *Polychem Ltd, India | 1992–2010*

- Managed daily plant operations including procurement, production coordination, and order fulfillment.
- Handled inventory control, stock level monitoring, and raw material planning.
- Collaborated with vendors and transporters to ensure timely supply chain flow.
- Implemented process improvements to enhance productivity and reduce costs.
- Generated MIS reports for materials, production, and performance monitoring.
