EXPERIENCE

Spectrio, Remote

Business Systems Administrator, IT

June 2024 – Current

- **System Management and Optimization:** Managed and enhanced critical business systems, including Salesforce (Sales Cloud, CPQ), NetSuite, Jira, Zendesk, Celigo, and Pardot (Account Engagement), to streamline operations and ensure seamless performance.
- **Integration Collaboration:** Worked alongside internal teams on implementing MuleSoft migrating from Celigo, facilitating efficient integration and data synchronization across multiple platforms.
- **Project Leadership:** Led the successful deployment of Spiff, managing cross-functional team collaboration, timelines, and effective integration with existing processes.
- **Systems Subject Matter Expertise:** Acted as the SME across core business systems, providing strategic guidance, customizations, workflow optimization, and end-user training to maximize adoption and performance.

Ojo Labs, Austin TX

Senior Salesforce Administrator, IT

September 2020 – April 2024

- **Efficiency Improvement:** Transformed core business processes by migrating from Google Sheets to Salesforce, significantly enhancing operational efficiency and scalability.
- **Communication Enhancement:** Developed and integrated SMS capabilities within Salesforce using Twilio, improving customer engagement and communication strategies.
- **Tool Integration:** Spearheaded the integration of Jira with Salesforce for streamlined case management, facilitating better collaboration between Data and Customer Service teams.
- **CRM Optimization:** Managed the migration from Pardot to HubSpot, optimizing marketing automation and lead management processes.
- **Financial System Integration:** Implemented and integrated NetSuite with Salesforce, streamlining financial operations and payment processing.
- **Document Handling Efficiency:** Led the integration of DocuSign with Salesforce, standardizing document workflows across business units to reduce costs and simplify operations.
- **Technical Proficiency and Quality Assurance:** Managed, debugged, and optimized APEX classes and triggers, leading User Acceptance Testing (UAT), and overseeing the debugging and deployment processes to ensure system reliability and performance.

GoDaddy, Austin TX

Salesforce Administrator, Care + Revenue Expansion Team

October 2018 – August 2020

- **Security Initiatives:** Developed and implemented company-wide Single Sign-On (SSO) during COVID-19, securing user data and facilitating global access.
- **User Management:** Managed a Salesforce org with over 500 users, maintaining system integrity and user support.
- **Sales Optimization:** Collaborated with senior stakeholders to revamp sales pipeline management, achieving a 92% increase in average revenue per sales representative.
- **Process Streamlining:** Reduced customer onboarding time by 20% by developing and implementing a more efficient system.

SKILLS

CRM and Database Expertise: Proficient in CRM logic, Salesforce (Sales Cloud, Service Cloud, CPQ), NetSuite, Jira, Zendesk, Pardot (Account Engagement), MuleSoft integrations, advanced data management, system migrations, and database optimization.

Project and Team Leadership:

Demonstrated success in leading complex, cross-functional system migrations, deployments, and integrations, ensuring smooth transitions and measurable improvements in business efficiency.

Strategic Planning and Design: Skilled in strategic planning, designing, and developing business operations systems that enhance efficiency and drive company objectives.

Digital Marketing Tools: Experienced with Google Adwords, managing digital campaigns, and analyzing performance metrics to optimize marketing strategies.

Technical Integrations:

Expert in integrating and managing diverse platforms including Salesforce CPQ, Spiff, Celigo, NetSuite, Pardot, Zendesk, MuleSoft, Jira, DocuSign, and Twilio to drive operational efficiency and automation.

Analytics and Decision Support: Highly skilled in business systems analysis, automated workflow development, data flow optimization, and leveraging analytics to improve decision-making, productivity, and business performance.

Collaboration Tools:

Extensive experience with Slack, Asana, LucidChart, Confluence, Google Analytics, Tableau, and advanced Zendesk configurations, enhancing team collaboration, project tracking, and customer satisfaction.

- **System Synchronization:** Reconfigured the integration of Salesforce with Marketo, reducing sync errors by over 90%.
- **Training Development:** Partnered with global training teams to create effective training programs for new hires, enhancing satisfaction and reducing follow-up inquiries by 70%.

Shopgate, Austin TX *Lead Salesforce Administrator*

January 2017 – October 2018

- **Salesforce Implementation:** Oversaw the successful global rollout of Salesforce, significantly improving CRM functionality and user engagement.
- **Data Migration Leadership:** Led the migration from in-house CRM systems to Salesforce, ensuring data integrity and system effectiveness.
- **Tool Integration:** Integrated multiple tools including HubSpot, Zendesk, and Vonage into Salesforce, enhancing functionality and user experience.
- **Global Collaboration:** Worked with teams across multiple regions to optimize productivity and user interface through custom workflows and APEX triggers.
- **Migration to Lightning:** Led the transition from Salesforce Classic to Lightning, modernizing the user interface and improving operational efficiency.

CONSULTING

Bloom Protocol, Austin TX — Salesforce Consultant

September 2018 – December 2018

- **Salesforce Setup and Migration:** Led the initial setup and successful migration of data from proprietary systems to Salesforce, tailoring the CRM to meet the unique needs of the organization.
- **Sales Process Development:** Collaborated closely with stakeholders to develop and refine the sales process within Salesforce, enhancing sales operations and tracking.
- **Custom Workflow Automation:** Designed and implemented custom workflows and automations to efficiently track KPIs and streamline business processes.
- **Impactful Reporting Solutions:** Spearheaded the development of custom reports and dashboards that enhanced monitoring of productivity and business health.

Neoreach, Austin TX — Salesforce Consultant

November 2017 - February 2018 (ongoing ad-hoc)

- **Salesforce Implementation and Migration:** Orchestrated the Salesforce implementation and data migration from Salesforce IQ, ensuring a smooth transition and system optimization.
- **Sales and Marketing Strategy:** Worked alongside the Head of Sales and CMO to develop and execute sales and marketing strategies, boosting campaign effectiveness and revenue.
- **Revenue Attribution Model Development:** Developed a streamlined multi-touch revenue attribution model using workflows and APEX triggers, providing actionable insights into marketing and sales performance.
- **Strategic Enablement Plans:** Executed strategic enablement plans that increased sales efficiency and market reach.

Iron Roots Inc., Austin TX — Project Manager

April 2018 - August 2018

- **Dashboard Development:** Managed a development team to create automated, client-facing and internal dashboards that dynamically reflected key metrics and insights.
- **Sales Pipeline Management:** Designed and implemented a sales pipeline management process that analyzed client data trends and suggested performance improvements.
- **Productivity Enhancement:** Developed and implemented triggered suggestions for internal dashboards that significantly enhanced productivity across teams.
- **Client Performance Optimization:** Analyzed client data to create and implement actionable strategies, leading to measurable improvements in client engagement and performance.

Managed Systems

CRM Systems: Extensive experience managing Salesforce (Sales Cloud, Service Cloud, CPQ, Communities, Marketing Cloud), including advanced customization and automation. Proficient in Jira, Zoho CRM, and integrating CRM systems with marketing and financial platforms.

Marketing Automation Tools: Skilled in configuring and managing Pardot (Account Engagement), HubSpot, and Marketo to enhance lead flow, campaign automation, and marketing effectiveness.

Financial and ERP Systems: Expert in managing and integrating NetSuite with Salesforce and other platforms for improved financial operations and reporting. Hands-on experience configuring and managing Salesforce CPQ and supporting sales performance systems like Spiff.

Integration and Data Flow Tools:

Experience supporting MuleSoft implementations to enable scalable, bi-directional data integrations across systems and departments.

Document and Contract Management: Led the integration and optimization of DocuSign, standardizing document workflows, improving compliance, and reducing turnaround times.

Collaboration and Productivity Tools:

Proficient in Slack, Asana, Confluence, LucidChart, and Tableau for project management, communication, and process visualization.

Customer Service and Support Tools:

Implemented and maintained Zendesk to optimize support workflows, enhance case tracking, and improve customer satisfaction across service teams.

Additional Tools: Managed and integrated tools such as GetFeedback for customer feedback, Twilio for SMS communications, and Zapier for no-code workflow automation

Certifications

Salesforce Certified Administrator (SCA),
Google Adwords Certified
