

Kalluri Nagasudheer

Dot Net Full-Stack Developer

Norfolk, VA | +1 7574470605 | kalluri.n@cverate.com

SUMMARY

- Over 4 years of experience in **.NET development**, utilizing **Agile and Waterfall** methodologies to deliver high-quality, scalable solutions within the **software development lifecycle**.
- Proficient in **.NET technologies**, including **C#, ASP.NET MVC, ADO.NET, VB.NET, WPF, and RESTful services**, ensuring robust application development and seamless system integration.
- Strong expertise in front-end technologies such as **Angular, HTML, CSS, JavaScript, Bootstrap, Ajax, and jQuery**, with proficiency in **JSON** for efficient data exchange.
- Extensive experience in managing web and application servers, including **IIS and Apache Tomcat**, optimizing deployments and ensuring high system availability.
- Skilled in cloud platforms like **AWS and Azure**, with hands-on experience in **Logic Apps, Azure Data Factory**, and implementing **CI/CD** pipelines using DevOps tools.
- Strong database management capabilities with **MySQL, SQL Server, Oracle, PL/SQL, and MongoDB**, specializing in schema design, performance optimization, and query tuning.

SKILLS

Methodologies: SDLC, Agile, Waterfall

.NET Technologies & Frameworks: C#, Angular, ASP.NET MVC, ADO.NET, .NET 4, VB.net, WPF, Restful, .NET Framework, SOAP

IDE: MS Visual Studio Code

Languages: Java, DotNet

Web Technologies: HTML, CSS, JavaScript, Bootstrap, Ajax, jQuery, JSON, Front-End frameworks

Web Server: IIS

Application Servers/Cloud Technology: Apache Tomcat, AWS, Azure, Logic Apps, DevOps, CI/CD, Data Factory, Repos

Databases: MySQL, SQL Server, MongoDB, Oracle, PL/SQL

Version Control / Other Tools: UML, MS Visio, Crystal Report, JIRA, SSRS, TFS, Git

Operating Systems: Windows, Linux

EXPERIENCE

PNC Financial Group

Dot Net Full-Stack Developer | May 2024 - Present

- Collaborated with cross-functional teams to design and implement software solutions, following **SDLC phases and Agile** methodologies for efficient project execution.
- Developed and maintained 10+ scalable web applications using **C#, ASP.NET MVC, ADO.NET, and .NET Framework 4**, enhancing performance by 30% and reducing maintenance time by 25%.
- Designed dynamic and user-friendly interfaces with **HTML, CSS, Bootstrap, JavaScript, and Ajax**, improving responsiveness by 40% and boosting user engagement.
- Integrated **AWS cloud** services for application hosting, and scalability, optimizing system efficiency and reducing infrastructure costs.
- Exploited **Git** and other version control tools to maintain code integrity, facilitate seamless collaboration, and manage multiple project versions effectively.
- Engineered and optimized **Oracle database** solutions, developing over 50 **complex queries, stored procedures, and PL/SQL triggers**, improving query performance by 35%.

Kalp Technolab

Dot Net Full-Stack Developer | Aug 2020 - Dec 2022

- Delivered high-quality software solutions by adhering to **SDLC methodologies**, including **Agile and Waterfall**, ensuring efficient project completion and client satisfaction.
- Developed desktop and web applications using **RESTful APIs, SOAP, and .NET Framework**, designing scalable and robust architectures to enhance system performance.
- Enhanced front-end functionality using **jQuery, JSON**, and modern front-end frameworks, improving user experience and application responsiveness.
- Leveraged **Azure services**, including **Logic Apps, Data Factory, and DevOps** pipelines, implementing cloud-based solutions that reduced deployment time by 40% and improved system efficiency by 30% through automated **CI/CD workflows**.
- Designed and managed relational databases in **MySQL and SQL Server**, developing 60+ optimized queries, stored procedures, and data models, enhancing data retrieval efficiency by **25%** and boosting application performance.
- Created **UML diagrams** to design and document application architecture, ensuring clarity, maintainability, and alignment with stakeholder expectations.
- Tracked project progress and managed issue resolution using **JIRA**, maintaining organized workflows and fostering team collaboration.
- Industrialized custom reports using **SSRS**, providing actionable insights for stakeholders and improving data-driven decision-making.
- Generated over 20 detailed reports using **Crystal Reports** and designed 15+ system workflows in **MS Visio**, streamlining project planning and documentation for development teams.

EDUCATION

Master in Data Analytics

Indiana Wesleyan University, Marion, IN
