

WORKU BELIE
MSSQL SERVER DBA

Cell Phone:(605)400-8866.
E-mail: abelabich3@gmail.com

PROFESSIONAL SUMMARY

- ❖ Over 7 years of experience in Microsoft SQL Server Database Installation, Configuration, Administration, Maintenance, Performance Tuning, Backup/Restore and disaster recovery procedure experienced in SQL Server 2019 /2017/2016/2014/2012/2008.
- ❖ Experienced on SQL server Log shipping, SQL server database Mirroring, SQL Server Replication, Active Directory, Window Server Backup, Always on Availability Group, SQL Server Configuration manager, SQL Server Agent, SQL Server Integration service, SQL Server Profiler, SQL Server Database Engine Tuning Advisor, SQL Server Reporting Service, SQL Server Analysis Service, SQL Server Data Tools, Window Failover Cluster, SQL Server Backup and Restore tools, Data Transformation Service.
- ❖ Test and apply latest service packs and hotfixes to update Different versions of SQL Server on clustered and non-clustered environments.
- ❖ Performed complex installation and executing comprehensive Performance tuning manage capacity planning and user accounts effectively.
- ❖ Master troubleshooting and fine-tuning database for enhanced performance and concurrency.
- ❖ Expertise on migrate database from on premises to Azure cloud and experienced on Azure security role.
- ❖ Having hands on experience migrating strategies and databases from one server to another server and extensive experience in creating and modifying stored procedures, triggers, cursors, and functions to meet business requirements.
- ❖ Worked on SQL server Clustering and server consolidation, troubleshooting production issues and raising high availability.
- ❖ Proficiency in SQL Server Replication, Backup/Recovery, Disaster recovery and planning.
- ❖ Created Linked Servers between SQL Server instance, also created DTS package for data transfer between the different environments.
- ❖ Expertness in trouble shooting database issues like space issues, performance, and blocking.
- ❖ Ability to established maintained backup and restore policies and disaster recovery procedures to meet the business Recovery point objectives (RPO) and Recovery time objectives (RTO) † Experienced in server level and Database level security and manage user permissions.
- ❖ 24 X 7 Production Database on Call Support.

TECHNICAL EXPERTISE

Platforms	Windows Server 2019/2016/2014/2012/2008
Languages	T-SQL, Power shell, C++, Java
RDBMS	Microsoft SQL Server /2008/2012/2014/2016/2017/2019
SQL Server Tools	Management Studio, SQL Profiler, DTS/SSIS (ETL), Database Tuning Advisor (DTA) and BCP
BI and Modeling Tool	SSIS, SSRS, SSAS
Third-party tool's	REDGATE Monitoring tool, Redgate backup pro, ServiceNow, Idera

PROFESSIONAL EXPERIENCE

SQL SERVER DATABASE ADMINISTRATOR

OIL AND GAS, Seattle, WA

AUG.2022-PRESENT

-
- ❖ Manage disk space on SQL servers by shrinking data and log files. Determine and forecast the growth of the databases and increase disk space as required.
 - ❖ Optimized SQL Server settings to fix critical resource & memory issues; carefully established ideal memory parameters, including min/max server options.
 - ❖ Performed daily tasks, backup and restore utilizing tools like SQL Server Management Studio, Profiler, Agent & Database Engine Tuning Advisor.
 - ❖ Check alerts from SQL Log and work with Server team to fix any I/O or operating system issues. Help troubleshoot error and perform Root Cause Analysis
 - ❖ Maintaining the Security of the Database, assigning responsibilities as part of Security
 - ❖ Developed SSIS packages to Extract, Transform and Load (ETL) data into the data warehouse database from heterogeneous databases/data sources.
 - ❖ Ensure standard backup policies are implemented across all servers depending upon the application criticality. Make sure we have backup cleanup tasks in place.
 - ❖ Help improve performance of queries by analyzing the execution plans, monitoring resource utilization and Database engine tuning tool to identify indexes/statistics that can help in performance tuning.

- ❖ Understand changes required and attend Change Control Board meetings to explain the changes to happen on the DB and justify the changes required.

SQL SERVER DATABASE ADMINISTRATOR

HP, Houston, TX

Jan. 2020– Jun. 2022

- ❖ Maintaining referential integrity, domain integrity and column integrity by using the available options such as constraints.
- ❖ Designed, constructed databases, tables, views, procedures, triggers for efficient data management.
- ❖ Implemented high availability on the various servers using Replication, Log-Shipping and Mirroring.
- ❖ Implemented and tested the point in time recovery of the production databases.
- ❖ Developed and created the new database objects including tables, views, index, stored procedures and functions, advanced queries and updated statistics using Query Analyzer and Enterprise Manager on the existing servers.
- ❖ Optimized the performance of queries with modifications in T-SQL queries, removed unnecessary columns, eliminated redundant and inconsistent data, normalized tables, established joins and created indexes whenever necessary.
- ❖ Configured data partitioning and table partitioning on huge tables containing numerous numbers of rows for better performance.
- ❖ Scripting the Database Consistency Checks (DBCC), scheduling the scripts to run daily and weekly basis.
- ❖ Monitoring SQL Server logs to ensure whether the backup operations, batch commands, scripts have completed successfully.

SQL SERVER DATABASE ADMINISTRATOR

Amegy Mortgage Capital- Woodland, TX

SEP. 2017– Dec. 2019

- ❖ Created Database Maintenance Plans for the performance of SQL Server which covers Database Integrity checks, update database Statistics and Re-indexing.
- ❖ Developed and optimized database structures, stored procedures, Dynamic Management views, DDL triggers and user-defined functions.
- ❖ Involved in trouble shooting and fine-tuning of databases for its performance and concurrency.
- ❖ Used SQL Profiler to capture the activities of the databases and used the trace file as workload file to the Database Tuning Advisor for index recommendations.
- ❖ Rebuilding the indexes at regular intervals for better performance.
- ❖ Involved with development team and developed functions, procedures and packages performed Logical Backups by Export and Import utilities.
- ❖ Involved in creating functions to provide custom functionality as per the requirements.
- ❖ To analyze long running slow queries and tune the same to optimize application and system performance.

SQL SERVER DATABASE ADMINISTRATOR

Satyam Computer services Ltd.**Aug. 2015 – Jul.2017**

- ❖ Created stored procedures and triggers for Data consistency.
- ❖ Administered SQL Servers daily, focusing on maintaining optimal operational productivity.
- ❖ Participate in implementation of new releases features into production.
- ❖ Managed trouble shooting of Client connections, viewing error log and applications.
- ❖ Performed daily tasks including backup and restore by using SQL Server 2012 tools like SQL Server Management Studio, SQL Server Profiler, SQL Server Agent, and Database Engine Tuning Advisor
- ❖ Responsible for monitoring and making recommendations for performance improvement in hosted databases like index creation, index removal, index modification, file group modifications, and adding scheduled jobs to re-index and update statistics in databases.
- ❖ Developed and optimized database structures, stored procedures, Dynamic Management views, DDL triggers and user-defined functions.

EDUCATION

✚ Bachelor's of Engineering in Computer Science, Jun. 2015
