

Abhi Stephen Rokkam

Saint Louis, MO | +1 (314) 261 6530 | abhistephen.rokkam@gmail.com

Education

Saint Louis University, St. Louis, MO

Aug 2023 - May 2025

Master of Science in Computer Science (GPA: 3.94/4.0)

Technical Skills

Technologies & Tools: MySQL, PostgreSQL, qTest, Git, Jira, AWS, Jenkins, SAP SD, Tricentis Tosca, Docker, GitHub, snowflake.

AI/ML Libraries: scikit-learn, PyTorch, Pandas, NumPy, Matplotlib, Seaborn.

Programming Languages: Python, Java, JavaScript, C, C++, HTML, CSS, React.js, Node.js, Express.js, PHP.

Experience

Accenture, Hyderabad, India

Dec 2020 – Aug 2023

Application Development Analyst

- Developed and maintained automated test cases using Tosca for SAP SD and Fiori applications, accelerating test cycles by 60%.
- Designed data-driven test cases for SAP SD processes in S/4HANA implementation using Excel integration and Templates.
- Executed test cases via Tosca DEX Agents, monitored results, and generated test execution reports for stakeholders.
- Integrated Tosca with qTest for test case management and execution tracking.
- Coordinated regression, smoke, and functional testing across Agile sprints; validated defect fixes and ensured business requirements were met.
- Collaborated with developers, business analysts, and QA leads to align testing strategy with project timelines and compliance standards.

St Louis Community College, St Louis, MO

Aug 2025 – Present

Professional Tutor

- Delivered one-on-one and group instruction in Python and Java programming, covering control structures, functions, and object-oriented programming.
- Supported students in debugging code, strengthening analytical and problem-solving skills.
- Adapted teaching methods to diverse learning styles to improve student engagement, comprehension, and retention.

Trans World Radio(TWR), Cary, NC

Sep 2025 – Present

Programmer Analyst

- Develop and maintain interactive web applications and dashboards using Streamlit, enabling stakeholders to visualize and interact with core data in real time.
- Collaborate with regional teams to gather requirements and design custom software solutions that support global mass media operations.
- Build, test, and document applications in Python, PHP, JavaScript, and SQL, ensuring scalable and maintainable systems.

Projects

Material Donor Mutual Assist, Saint Louis University

Jan 2024 – Apr 2024

- Built a donor engagement platform using React.js, Node.js, and PostgreSQL, increasing community participation by 40
- Developed and consumed RESTful APIs to support secure donor-recipient workflows.
- Deployed the app using AWS EC2 and Docker, ensuring scalable hosting and high availability.

Personal Budget Management System, Saint Louis University

May 2024 – Jul 2024

- Built a real-time expense tracking platform with CRUD operations, dashboards, and reporting features.
- Integrated Snowflake DB with Flask backend to enable secure storage and fast query performance.
- Improved mobile usability by 90% through responsive design and interactive web UI.

Parallel Merge Sort Optimization– High-Performance Computing

Jan 2025 – May 2025

- Implemented parallel merge sort in C++ using std::thread, achieving up to 6.2× speedup on large datasets.

- Enhanced algorithm scalability with dynamic thresholding and memory-aware merging strategies.
- Performed rigorous performance profiling and debugging to optimize CPU utilization and thread synchronization.

Crop Yield Prediction using Machine Learning, Saint Louis University

Aug 2023 – Dec 2023

- Built crop yield prediction models using Python, scikit-learn, and Pandas; applied Random Forest, Naïve Bayes, and other ML algorithms, achieving up to 95% accuracy.
- Performed data preprocessing, feature engineering, and multi-class classification by labeling yields into four categories; utilized NumPy, Matplotlib, and Seaborn for analysis and visualization.
- Co-authored a research paper presenting model evaluation metrics (accuracy, precision, recall, F1-score) and insights on agricultural data science.

Certifications

- Tricentis Tosca AS1, AS2, TDS1
- Core designer Certificate, Dataiku
- Automation Practitioner – Foundation Level
