Professional Experience

U.S. Energy Information Administration

Remote

Economist (Data/Development focused)

January 2024– Present

- Optimized third-party Python/pandas code in report-writing script, decreasing runtime by 90%.
- Streamlined SQL/Python data pipelines, reducing runtime from 30 minutes to 4.
- Developed GUI for data visualization and analysis of energy model outputs using Python and pandas, streamlining organization-wide data analysis by enabling modelers to explore data more efficiently.
- Solved a multi-year problem of electricity generation without fuel consumption through attention to detail.
- Promote coding best practices across teams to reduce technical debt and improve documentation.
- Presented to organization on optimizing Python/pandas code and utilizing linters in VS Code.
- Review and approve git merge requests, providing feedback to ensure high quality and consistent code.
- Led the implementation of automated documentation across the organization using Sphinx.

Alembic Community Development

New York, NY

Project Manager

January 2020 – December 2023

- Led the development of 300+ affordable housing units with \$200M in total development costs.
- Created an automated zoning analysis in Excel to streamline site selection process.
- Secured a \$2M+ grant with a week to write application, saving a project from a 6-month delay.
- Collaborated with cross-functional teams, including architects, contractors, and government agencies.
- Created GIS maps to analyze site feasibility in new markets across New York State.

Banana Kelly Community Improvement Association

Bronx, NY

Project Manager

June 2017 – December 2019

- Oversaw a team of property managers and managed a portfolio of 1,000+ affordable housing units.
- Led the development process for rehabilitating 500+ housing units using public and private capital.
- Created an asset management dashboard using monthly financial reports to present to board members.
- Successfully secured a \$500,000 grant for strategic planning and organizational improvement initiatives.
