

ANDREY VIAZANKIN

773-419-9421 | aviazankine@yahoo.com

SENIOR SOFTWARE ENGINEER

Senior software engineering professional with demonstrated experience providing project management, leadership, and business requirements. An effective communicator and trainer with a clear focus on providing quality product while meeting stringent deadlines. Known for creating maintainable and extensive code, planning, designing, and developing value-added solutions to meet and exceed organizational goals. Core competencies include:

Customer Relations | Business Planning | Troubleshooting | Design and Implementation | Lean Methodology
Cross Functional Leadership | Process Improvement | PNMS (Push Notification Messaging System)

TECHNICAL SKILLS

I1 **Languages** : C, C++ | Java (JSDK 1.1 - 21 | J2EE) | Python

I2 **Frameworks**: Spring | Spring Boot 2-3 | Spring Batch | Hibernate | Apache CXF | JUnit | JFC (Swing) | EJB 2.0 | SAAJ | JAXP | Servlets | Applets | Portlets | JSP | Apache Struts | JDBC | JSF | XML (SAX and DOM parsers) | XSL(XSLT) | SOAP | WSDL | Xerces | Xalan | xmlBeans | iText | Axis | AspectJ | Oauth | JWT | MQ-Series | Enterprise Service Bus (ESB) | UML (RationalRose | ArgoUML | Visual Paradigm) | Apache Kafka |

I3 **Web Technologies**: JavaScript | HTML | CSS | GWT | jQuery | ActionScript | BlazeDS | Angular | React | NodeJS |

I4 **Software and tools**: Eclipse | IntelliJ | ClearCase | Source Safe | CVS | GITLAB | GITHUB | ANT | Maven | Jenkins | Docker | Kubernetes | CircleCI | Harness | SOAPUI | Postman | ArgoCD | Splunk |

I5 **OS**: MS Windows | UNIX (AIX | HP-UX | SCO | Sun Solaris) | Linux: Red Hat | SUSE | Mandriva

I6 **App Servers**: Apache-Tomcat | IBM WebSphere | Allaire Jrun | BEA Weblogic | Liferay | Jboss | Sun Webspace

I7 **Databases**: Oracle | Borland Interbase | SQL Server | MySQL | PostgreSQL | DB2 | MongoDB | Cassandra | dbVISTA | Raima DBMS

EXPERIENCE

CVS Health, Northbrook, IL, Buffalo Grove, IL

05/2015 - 12/2024

Adviser, Sr Software Engineer III

Designed and developed cloud based and on-premise Spring Boot and NodeJS microservices according to business requirements. Participated in support and implementation of new functionality for Caremark.com portal

- Participated in design, implementation and production support of CVS Health Specialty messaging system.
- Participated in sprint and PI planning, assigning tasks and setting goals for development team
- Translated business requirements into detailed development specifications
- Provided mentoring for junior team members
- Lead migration of traditional Spring Boot applications to GCP cloud.
- Designed and developed Spring Batch/Spring Boot based application for order status processing.
- Participated in design and implementation of UI modules for Campaign Management Tool using Angular and React
- Participated in collecting business requirements, design and implementation of new features and support of existing functionality for Caremark.com portal (IBM Websphere Portal 6.1-8.5).
-

Environment: SAFe Agile | Java (J2EE) | GCP | Spring Boot | Spring Batch | NodeJS | Apache Kafka | Redis | MySQL | PostgreSQL | Oracle | Docker | Kubernetes | Rancher | Circle CI | Harness | ArgoCD | Splunk | Jenkins | Cassandra | MongoDB | Angular | RAD | Websphere

PAGE 2

Allstate, Northbrook, IL

08/2014 – 03/2015

Sr Java Engineer

Designed and implemented new features and support of existing functionality of Allstate RoadSmart web services. Day to day responsibilities include:

- Created high- and low-level design documents.
- Implemented new features and supporting existing code in production.

Environment: Java (J2EE) | RAD | Websphere | Web Services (SOAP) | Spring | Oracle

Sears, Hoffman Estates, IL

04/2014 – 07/2014

Java Architect/Sr. Developer

Participated in the design and implementation of user interactions-based advertisement campaigns.

- Collaborated in the design and implementation of the PNMS (Push Notification Messaging System) a digital marketing subsystem of the Shop Your Way portal.
- Designed and implemented PNMS Interaction Listener an integration module between PNMS and Shop Your Way API.

Environment: Java(J2EE) | JBoss | Spring | Hibernate | Web Services (REST) | AngularJS | Google Visualization

Nokia, Chicago, IL

10/2013 – 03/2014

Java Architect/Sr. Developer

Spearheaded the design and implementation of WFC Dashboard application that provides comprehensive statistics on system health and usage.

- Designed and implemented audit logging framework providing highly configurable message tracking and collection of message processing details in the complex multi-component integration system.
- Designed and implemented WFC Dynamic properties framework allowing changing configuration properties used by Spring dynamically without restarting the server.

Environment: Java(J2EE) | Tomcat 6.2 | Spring | Webservices (SOAP/REST) | Rabbit MQ | AspectJ | REST and SOAP Web services. Oracle | Google Visualization | jQuery | Angular

ADDITIONAL RELEVANT EXPERIENCE

Harman International, Vernon Hills, IL

Sr. Software Engineer

CVS Caremark, IL

Java Architect

AON Hewitt, Lincolnshire, IL

Liferay portal Architect

NEC SPHERE, Lincolnshire, IL

Java Architect

Blue Cross Blue Shield Association
Technical Lead/Portal Architect

Walgreen's, Deerfield, IL
Consultant - System Architect

EDUCATION

Master of Science in Computer Science, MSCS, Aircraft Technical Institute, St. Petersburg, Russia
