
Green Kwam

Senior Software Engineer - Java | Spring Boot | React

Phone: (408) 207-4040

Mail: greenkm.work@gmail.com

Location: New York, NY

SUMMARY

Senior Software Engineer with 10+ years of experience designing and developing scalable backend systems and microservices architectures. Expertise in Java, Spring Boot, React, Angular, AWS, Kubernetes, and GraphQL, with a proven track record of optimizing API performance and implementing CI/CD pipelines. Experienced in building high-availability systems, collaborating cross-functionally with product and design teams, and delivering data-driven solutions that drive business growth.

EXPERIENCE

Walmart Plus – *Senior Software Engineer*

February 2022 – February 2025

Sunnyvale, CA

- Led design and deployment of Spring Boot microservices to power a scalable, high-throughput logistics platform.
- Enhanced backend performance with Redis caching, GraphQL tuning, and SQL optimizations under heavy load.
- Built freight analytics services in Java to support predictive modeling for cost-efficient supply chain decisions.
- Developed React/Angular-based dashboards to streamline order management and cross-platform operations.
- Created CI/CD pipelines using Jenkins and GitHub Actions to ensure fast, stable release cycles.
- Integrated customs compliance APIs to automate border processing and reduce manual intervention.
- Built Java batch processing tools for real-time warehouse forecasting and inventory accuracy.
- Collaborated across data, product, and design teams to align engineering output with business goals.

Meta – *Senior Software Engineer*

November 2019 – January 2022

New York, NY

- Developed backend services in Java to optimize API speed, reduce latency, and improve data consistency.
- Led frontend integration using React/Redux, improving state management and reducing client-side issues.
- Built CI/CD pipelines with Jenkins to automate build, test, and deploy workflows with rollback support.
- Managed AWS infrastructure to ensure scalability, high availability, and cost-efficient cloud deployments.

- Deployed and scaled Kubernetes microservices to enhance fault tolerance and load handling under pressure.
- Authored technical documentation to standardize architectural practices and support onboarding of new engineers.

Intuit – *Software Engineer*

January 2017 – November 2019

Mountain View, CA

- Promoted from intern to software developer after demonstrating strong frontend and backend engineering skills.
- Maintained and enhanced customer-facing JavaScript applications, improving usability and page performance.
- Built ASP.NET backend features to boost system reliability and streamline internal financial operations.
- Integrated Stripe for secure payment processing, reducing transaction issues and improving checkout success.
- Optimized PostgreSQL performance through schema normalization and strategic indexing of high-traffic queries.

Walgreens – *Software developer*

November 2012 – October 2016

New York, NY

- Promoted from intern to full-time developer within 12 months due to strong delivery in production systems.
- Built responsive customer-facing apps using JavaScript frameworks to enhance user engagement.
- Developed backend services in Laravel to reduce server load and improve API response consistency.
- Integrated Stripe API to improve payment handling and ensure PCI compliance for all digital transactions.
- Optimized PostgreSQL queries and schemas to reduce execution times and database contention.

SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, C#, PHP
- **Frontend Development:** React.js, Angular, Next.js, Vue.js, CSS, Sass
- **Backend Development:** Spring Boot, Node.js, Express.js, ASP.NET, Laravel
- **Testing & QA & Monitoring:** Jest, Mocha, Cypress, Selenium, TestCafe, JUnit
- **Databases:** SQL, MySQL, PostgreSQL, MongoDB, Redis
- **Cloud/DevOps:** AWS(EC2, Lambda, RDS, DynamoDB, S3, EKS), Azure, Docker, Jenkins
- **APIs & Integrations:** RESTful APIs, GraphQL, Okta, OAuth, JWT, Swagger
- **Tools & Project Management:** Git, Webpack, Babel, JIRA

EDUCATION

Finger Lakes Community College

BSc. in Computer Science | September 2007 – May 2012
