Azure Document Intelligence

Work Experience

03/2025 – present

Seattle, USA

Software developer

Biglynx Inc

Architected and Delivered Scalable Web Applications: Led full lifecycle development of scalable web applications, architecting for high performance and architectural integrity.

Engineered Advanced User Experiences and Robust Back-End Systems: Designed sophisticated, responsive front-end interfaces and implemented scalable, secure back-end architectures utilizing Azure technologies.

Optimized Enterprise Data Management and Drove Collaborative

Development: Implemented strategic data solutions and fostered seamless cross-functional collaboration, ensuring code quality and efficient project delivery.

06/2019 – 02/2025

Johannesburg, South Africa

Senior Programmer Analyst

Broll Properties Pyt Ltd

Engineered Automated Compliance Solutions: Architected and implemented a sophisticated automated backend system (Win Forms/Web API) for streamlined entity and employee screening, incorporating intelligent document sharing and risk rating algorithms to fortify compliance.

Architected and Developed Robust Full-Stack Applications: Designed and deployed mission-critical web and Windows applications using .NET Framework and SQL Server, emphasizing performance optimization and scalability.

Implemented a High-Performance Automated Invoice Processing Engine: Deployed a scalable, multichannel (Mailbox, SFTP, Blob, S3, Web API) automated invoice processing engine, enabling real-time data extraction from PDFs and seamless JSON response delivery.

Orchestrated the Strategic Migration and Enhancement of a Lease Management

System (UPD8): Led the pivotal migration of a legacy SharePoint-based workflow to a modernized .NET Framework, automating complex approval processes, dynamic fee calculations, comprehensive reporting, and secure document management, with integrated email notifications and digital signature capabilities.

Technical Innovation and Provided Expert Support: Spearheaded R&D initiatives to implement cutting-edge features and significantly enhance application functionality. Delivered expert-level technical support, resolving complex issues with exceptional efficiency.

Work Experience

11/2012 – 01/2019
Hyderabad, India

Consultant Genpact India Pty Ltd

Engineered High-Performance .NET/SQL Server Applications: Developed and optimized applications, driving significant performance improvements while adhering to US Healthcare domain requirements, including HIPAA compliance (2008-2012).

Implemented Agile Development Best Practices: Created comprehensive Agile process and technical design documentation, conducted rigorous code reviews, and applied expert knowledge of 4010-5010 and ICD09-10 conversions.

Facilitated Collaborative Project Delivery: Partnered with business teams to refine requirements, managed project scope, and ensured on-time delivery within Agile sprints, leveraging extensive expertise in claims processing and EDI claims (837 Institutional/Professional).

Contributed to a Robust Payer Testing Platform: Played a key role in the development of an integrated payer testing regression suite, including repository creation and team training, demonstrating hands-on proficiency with 837 Dental and 835 transactions.

Projects

03/2025 – present
Seattle, USA

Ethiks

Azure-powered, blockchain-secured background checks.

01/2022 – 02/2025
Johannesburg, South Africa

Robotic Process Automation – Automatic Invoice Process

Automation project – Invoice Capture Automation for Broll Online system

06/2019 – 02/2025
Johannesburg, South Africa

FICA – Entities/Employee screening Process Automation/ Internal Projects

Automate Financial Intelligence Centre Act (FICA) Documentation and Risk Ratings.

11/2012 – 01/2019
Hyderabad, India

Consultant

Payer Test Platform - Horizon Health(HIPAA)

Claim processing tool with HIPAA compliance, regression, repository, and format conversion (4010/5010, 837 ICD, 835).

Education

03/2007 – 04/2011
Hyderabad, India

Electronic and Communication Engineering | Graduate Academic Degree Hyderabad Institute of Tech & Management

Certificates

02/2025

Azure Developer Associate Microsoft

Achievements

Contributed to the successful implementation of Robotic Process Automation (RPA) in the Occupier Services Division, resulting in Broll Property Group (Pty) Ltd being recognized as a finalist for 'Most Innovative Real Estate Company' at the API Awards.
