
SUMMARY

Results-driven **Java Developer** with **3+ years of experience** in designing and developing **scalable, high-performance applications** using **Spring Boot**. Proficient in **RESTful API development** and **object-oriented programming (OOP)**. Skilled in optimizing application performance and collaborating with cross-functional teams to deliver high-quality solutions. Passionate about continuous learning and staying up to date with emerging technologies.

EDUCATION

- Bachelor's Degree from JNTU Hyderabad, INDIA in December, 2019

WORK HISTORY

Amazon Services LLC, St. Louis, MO, System Analyst

July 2024 to Current

Developed and optimized Java-based warehouse management solutions by analyzing system operations, resolving real-time issues.

- Developed and maintained **Java-based warehouse management solutions** using **Spring Boot, JPA, and DB2**.
- Created and optimized **RESTful APIs** for inventory tracking and order management systems.
- Analyzed **warehouse operations** to identify inefficiencies and implement basic process improvements.
- Implemented **JPA** queries and optimized interactions with **DB2** for efficient data handling.
- Supported **troubleshooting and debugging** of real-time issues to ensure system functionality.
- Collaborated with teams to understand requirements and deliver effective solutions.
- Assisted in **unit testing (JUnit, Mockito)** to ensure code quality and reliability.
- Documented **technical specifications, API endpoints, and database schemas** for team reference.

Skills: Java, SQL, Spring Boot, JPA, Jenkins CICD, REST API, Microservices, Maven, Git, JUnit, DB2, Postman

PVK Corporation, VA, Software Developer

May 2023 to December 2023

Designed a user-centric HR management system to simplify employee self-service, leave requests, and administrative workflows for seamless HR operations.

- Design, develop, and maintain APIs, and microservices using Java, Spring Boot.
- Utilized Git for version control, managing branches, and handling code merges.
- Maven for project build, dependency management, and maintaining project structure.
- Developed RESTful APIs using Spring Boot to handle employee management, attendance tracking, and leave requests.
- Monitor application logs and performance metrics using Splunk to identify issues and improve system reliability.
- Used Jenkins to automate build, test, and deployment processes, ensuring fast and reliable releases.
- Write unit tests using tools like JUnit to ensure code quality.
- Participate in Agile ceremonies, including sprint planning, stand-ups, and retrospectives.

Skills: Java, Spring Boot, REST API, Jenkins CICD, JPA, Microservices, Junit, SQL, Agile, Git, Maven

HCL Technologies, INDIA, Software Analyst

January 2022 to April 2022

An Employee Management System using Java and Spring Boot to streamline employee data management, attendance tracking, and leave requests.

- Developed backend services using Java and Spring Boot for employee management and attendance tracking.

- Created RESTful APIs with Spring Boot for managing employee data and leave requests.
- Used Spring Data JPA for efficient database interactions and data retrieval.
- Wrote unit tests with JUnit and Mockito to ensure application stability.
- Assisted in manual testing, identifying and reporting bugs.
- Managed version control with Git and collaborated on code repositories.
- Used Maven for dependency management and application packaging.

Skills: Java, SQL, Spring Boot, REST API, Testing, JPA, Git, Junit, SQL, Agile, MySQL, HTML, CSS.

Rishva Technologies, Hyderabad, INDIA, Java Intern.

May 2020 to December 2021

An Expense Tracker application for expense management and categorization using java.

- Learnt and apply Object-Oriented Programming (OOP) principles in development.
- Implemented minor features, fix bugs, and refactor code under supervision.
- Worked on writing basic SQL queries to interact with MySQL DB
- Utilized Junit framework for unit tests to validate functionality and improve code quality.
- Managed dependencies using Maven, ensuring proper project setup and smooth integration.

Skills: Java, SQL, Spring, REST API, Maven, CRUD, Junit, Postman
