EXPERIENCE

Program Manager

Brandeis University, Waltham, MA *December 2024 - Present*

- Coordinate recruitment, scheduling, and resource allocation for 2 neuroimaging and 3 behavioral studies, balancing multiple tasks to ensure smooth study operations
- Oversee financial operations, including processing invoice payments, tracking study expenses, and monitoring budget adherence
- Lead and supervise a team of 3 research assistants, overseeing task delegation and progress monitoring
- Manage administrative functions such as maintaining records, preparing reports, handling correspondence, and coordinating logistics to support efficient operations
- Act as the primary contact for 325+ participants, resolving scheduling conflicts and maintaining protocol alignment while ensuring positive participant experiences

Clinical Research Coordinator II

Massachusetts General Hospital, Charlestown, MA *September 2022 - April 2024*

- Oversaw the execution of 3 neuroimaging projects, managing cross-functional teams and tracking study milestones to ensure timely delivery
- Trained staff on MR-PET scanning protocols and neuropsychological assessments, fostering team alignment
- Conducted data audits for 300+ participants, improving data reliability
- Coordinated data collection and processed neuroimaging data for tau-PET imaging studies

Graduate Teaching Assistant

Boston University, Boston, MA *February 2025 - Present*

- Support data-driven decision-making by helping students analyze marketing, finance, operations, innovation, and HR cycles in a business simulation project for Qualitative and Quantitative Decision-Making, ensuring they apply strategic frameworks to evaluate business feasibility

Undergraduate Research Assistant

University of Miami, Coral Gables, FL *September 2019 - May 2022*

- Gained experience in manuscript preparation and data analysis while executing a Senior Honors Thesis Project
- Managed administrative tasks, including data entry and document organization in the REDCap system, streamlining processes to enhance data accessibility and project efficiency
- Collaborated on and revised chapters for the second edition of *Child Development: A Topical Approach* (Feldman, in progress), managing content updates and ensuring alignment with deadlines
