

William (Bill) Wood

[LinkedIn](#) • Greater LA

Sr. Consulting Engineer

Senior Citrix Engineer with over 15 years of experience in designing, implementing, and supporting large and medium-scale Citrix Virtual Apps & Desktops environments in enterprise healthcare and life sciences settings. Proficient in CVAD, NetScaler, PVS/MCS, App Layering, WEM, FSLogix, and hybrid Citrix Cloud deployments. Known for enhancing reliability and performance across multi-site infrastructures supporting more than 2,000 users. Expert in process standardization, automation, and documentation to improve system stability, security, and scalability. Recognized for strong collaboration, technical leadership, and consistently delivering high-quality solutions in complex enterprise environments.

Technical Expertise

- **Citrix Technologies & Certifications:** CVAD (1912–2402 LTSR), NetScaler ADC (Gateway, Load Balancing, MFA), StoreFront, Provisioning Services (PVS), Machine Creation Services (MCS), App Layering, Workspace Environment Manager (WEM), FSLogix Profile Containers.
- Citrix Certified Professional – Virtualization (CCP-V) • Citrix Certified Administrator (CCA-V)
- **Nutanix Technologies:** AOS, AHV, Prism Central, Files, Flow, and Move — experienced in cluster deployment, storage optimization, replication, and hybrid-cloud integration for DR and production workloads
- **VMware Virtualization:** vSphere, vCenter, NSX, and vSAN — skilled in high-availability design, workload migration, and environment scalability
- **Cloud Platforms:** Microsoft Azure (AZ-140 certified), Citrix Cloud, and hybrid architectures that connect on-premises and cloud infrastructures.
- **Automation & Monitoring:** PowerShell scripting, SCCM, Ivanti, ControlUp, eG Enterprise
- **Microsoft Infrastructure:** Windows Server, Active Directory, Group Policy, DNS, DHCP, IIS, NTFS
- **Networking & Security:** NetScaler ADC, VPN, Single Sign-On, Multi-Factor Authentication, Load Balancing
- **Operational Strengths:** Virtual Desktop Infrastructure (VDI), Disaster Recovery Planning, System Reliability Engineering, Application Delivery Optimization, Cross-Functional Collaboration, and Project Management

Professional Experience

Citrix Consulting Engineer (sub-contractor), Aspen Systems, Inc., Greater LA June 2019 - Current

Developed and implemented Citrix ecosystem strategies, optimizing performance and scalability. Configured and optimized NetScaler (MPX & XPS) for gateway, load balancing, Windows Active Directory integration, SSO, and 2FA. Designed and deployed hybrid cloud infrastructures leveraging Citrix Cloud and Microsoft Azure. *Please submit a request for a list of clients.*

- Recently completed development and full failover testing of the DR site, using paired Nutanix clusters.
- Created a PowerShell solution for M365 deployment by modifying the master Citrix VDA, allowing the consolidation of two separate Citrix sites into one unified environment.
- Implemented and managed Nutanix clusters using AOS, AHV, and Prism Central for hyper-converged workloads, simplified management, and hybrid cloud integration.
- Designed and supported VMware environments using vSphere, vCenter, ESXi, and vSAN to deliver reliable, high-availability infrastructure.
- Worked in a change control environment utilizing ITIL practices and change management processes (ServiceNow).

Founder / Sr. Consulting Engineer, Sagewood Systems, Inc., Santa Barbara March 2000 - December 2019

Led Citrix, VMware, and Nutanix implementations for healthcare organizations across Southern California, delivering secure, high-performance end-user computing solutions for hospitals, clinics, and medical groups.

- Introduced Citrix VDI as the primary desktop delivery solution, increasing end-user productivity by 40% and transforming the computing experience.
- Planned deployment of 1,100 Citrix virtual desktops delivering Epic EHR and enabling remote access for 5,000+ clinicians.
- Implemented and optimized EHR systems, including Epic, NextGen, Allscripts, and Meditech.
- Directed project delivery, design documentation, and client communication from concept through implementation.

Additional Experience as Director IT at Unisys, Blue Bell, PA

Education

Bachelor of Arts in Economics, University of California, Santa Barbara
