WORK EXPERIENCE

Amazon Web Services - AWS Training & Certification (T&C)

Herndon, VA

Software Development Engineer II

Aug. 2024 - Present

- Managed platform infrastructure used by service teams to develop microfrontends in React
- Maintained federation infrastructure for unifying GraphQL APIs developed by service teams
- Designed and implemented comprehensive database refactor, achieving significant reduction in table growth rate, eliminating over 95% of unnecessary database records
- Delivered unification of T&C user profiles with other AWS offerings, simplifying user management across AWS
- Designed and developed user interface to programmatically manage email templates sent to customers, reducing operational load
- Collaborated with cross-functional teams to deliver scalable frontend and backend solutions

Amazon Inc. - Buy with Prime

Seattle, WA/Arlington, VA

Software Development Engineer I, II

Jul. 2021 - Aug. 2024

- Developed business analytics data store and real-time dashboard serving merchant data from the ground up
- Designed and implemented flexible database system reducing release cycle time from 6 months to 2 weeks
- Led data ingestion and aggregation refactor for inputs to the largest data tables, reducing database size and API query latency by 90%
- Integrated existing analytics databases with GraphQL, providing merchants API-based data access as alternative to web dashboards
- Delivered event-based integration with webhooks for enterprise customers, allowing Buy with Prime to land their largest enterprise deal to date
- Mentored and provided feedback for two interns, both of whom successfully delivered their projects and received return offers

Amazon Web Services

Remote

Software Developer Engineer Intern

Jun. 2020 - Aug. 2020

- Developed a full-stack application to improve user and operator experiences running email campaigns
- Enhanced operational excellence by reducing operator workload through automation and improved tooling
- Built and deployed complete web service using AWS stack (S3, CloudFront, Route53, Lambda, CloudFormation)
- Created ReactJS frontend with seamless integration to Java and Python backend APIs

Axle Informatics

Rockville, MD

Computer Science Trainee

Jun. 2019 - Aug. 2019

- Worked in a team to develop a cross-platform mobile application
- Built crowdsourcing and gamification app for neural network image segmentation data collection
- Developed frontend and backend systems using JavaScript frameworks with SQL database integration

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript/TypeScript, C, Python, R, SQL
- **AWS:** API Gateway, DynamoDB, RDS, Lambda, EC2, EventBridge, SQS, SNS, OpenSearch, CloudWatch, CloudFormation
- **Technologies:** Node.js, React, SQL, NoSQL, REST, GraphQL, Microservices, Git

EDUCATION

Virginia Polytechnic Institute and State University

Blacksburg, VA

B.S. Computational Modeling and Data Analytics

Aug. 2017 - May 2021
