

Alejandro Sosa

Personal data

Date of birth: 09/04/1967
Nationality: Argentinean
DNI: 18.205.329
Marital Status: Married
Address: Enrique Prins 1429 CABA
Mobile: (11) 4440-6739
E-mail: ads@outlook.com.ar

Experience Summary

- Over 10+ years of IT experience in Analysis, Design, Development, Implementation of Client/Server, Distributed applications using Object Oriented Programming with .NET (**Blazor, WebForm, WinForm, WPF, MVC, Silverlight, ASP.NET**) and programming languages such as **C#** and **Visual Basic**.
 - 3 years of experience working with mobile technologies such as Xamarin Cross-Platform applications with **Xamarin.Forms** and **PhoneGap**(Updating me with **MAUI**) .
 - 4 years of experience working with Web API (**RESTful** API's).
 - 5 years of experience working with Web Services (**ASMX** and **WCF**)
 - 5 years of experience developing over old technologies such as Visual Basic 3/4/5/6 and ASP Classic
 - Experience working with OOP Principles.
 - Expertise in MVC, **MVVM**, and **Singleton** design patterns.
 - Expertise in source control tools like **Azure, Tortoise, Git**.
 - Expertise in .NET applications with C# using **Entity Framework** and **ADO.Net**.
 - Strong analytical and problem solving skills.
 - Strong database experience in **SQL Server** 2000/2019 (Store Procedures, Triggers, Jobs), **Oracle, DB2**, with good programming skills in SQL and PL/SQL and No relational as **MongoDB** and **Cosmos**.
 - Experience in using Software Development **Agile** methodologies (**Scrum**).
 - Successful work experience in Logistic, Air Navigation, General Cargo and Container Shipping.
-

University formation

Systems Analyst

University John Fitzgerald Kennedy

Experience

Softtek

Position: Developer Senior

Tasks: YPF internal petroleum applications

Development of Mobile Apps

Tools: **Xamarin, Maui.Net**, Azure Functions

Period: From April of 2021 (Current Job)

Baufest

Position: TEX (Technical Expert)

Tasks: Technical leader/ migration from WebForm to **Blazor**

Development of Cencosud systems (Argentina; Chile; Peru)

Tools: **Blazor, Xamarin, ASP.Net**, SQL 2017

Period: From September of 2018 until April of 2021

DaVinci

Position: **Xamarin** Teacher

Tasks: Teach **Xamarin** to college students

Period: 2019 Second Term

ANSES

Position: Analyst Programmer

Tasks: Internal government applications

Development of taxes system.

Development of transport, shipping system

Tools: **ASP.Net**, Ajaxs toolkit, SQL 2012

Period: From November of 2017 until September of 2018

TOEPFER

Position: Analyst Programmer

Tasks: Cereal Company Internal Applications

Development of billing system.

Development of interface with government's (AFIP) Web Services

Tools: **ASP.Net, Xamarin**, DB2, **Silverlight, WPF**, Phonegap, SQL 2012

Period: From November of 2012 until November of 2017

CapGemini

Position: Analyst Programmer

Projects:

ADECCO (France) Development of a HR administration system

Tools: Silverlight, WPF.NET; Oracle 10i; Spring .Net (FrameWork)

Aerolineas Argentinas Development of a fly-cargo administration system
Tools: **Silverlight**, **WPF.NET**; **SQL 2008**; Json

Telecom Development of a back office system
Tools: ASP .Net; SQL 2008i;Json

Period: From December of 2007 until November of 2012

AFIP

Position: Expert developer

Tasks: Government public applications "Mis Aportes"

Web Site [AFIP](#) applications "IDJ" and "Mis Aportes"

Tools:ASP NET; ADO;**Oracle** 9i; ASP; Java Script

Period: From November of 2005 until December of 2007

Indra S.A.

Position: Developer Senior

Tasks:

Chief of Center of Computations for the provincial elections of 24/10/2005
(Catamarca)

Telecom. (Arnet)

Web Site and Intranet

Tools Visual Basic 6.0; ADO; Sql2000; ASP; Java Script)

Period: From February of 2005 until November of 2005

Maersk

Position: Systems Analyst

Tasks: Internal applications Shipping companies

Tools Visual Basic 6. 0 ADO (Access; Sql2000;**Oracle** 8i); ASP; GW Basic

Development of 3D en **VB6**,DirectX7,Oracle (View and walking of Stock of Containers in 3D
In real time

Development of General Cargo System

Development of ships mapping system (Logistics of Containers in a Terminal Port)

Web Site Inter-Intranet (ASP; SQL2000; IIS 5.0; components in VB6.0; Java Script
- [Demo](#))

Audit System of Hard y Soft in a Net (Idem [Track-It](#))

Y2K; Systems of Billing and Stock; etc

Period: From December of 1999 until February of 2005

Siderca (Grupo Techint)

Position: Developer

Tasks: Internal metallurgical applications

Language Natural Data Base Adabas

Period: From September of 1999 until December of 1999

Consist Teleinformática

Position: Systems Analyst

Tasks:

Lenguaje Natural Base de Datos Adabas

Y2k Solution (problem for the year 2000)

Projects with the following clients: Banco Nación (Mainframe), Drayfus (Unix), A.C.A. (Mainframe)

Period: From October of 1997 until Julio 1999

Training Courses:

- Programando en Blazor - ASP.NET Core 7 Udemy
- .NET MAUI con Visual Studio 2022 Udemy
- ASP.NET Core Blazor and Razor Udemy
- Visual Studio: Unit Tests esencial LinkedIn Learning
- Xamarin Forms para desarrollar Apps Multiplataforma Udemy
- PhoneGap - HTML5
- Executrain Developing Web Application with ASP NET (2310)
- Executrain Developing Web Application with ASP NET (2310)
- BS Training Center: Administering a Microsoft SQL Server 2000 Database (2072),
- Programming a Microsoft SQL Server 2000 Database (2073)
- CEI: Visual Basic 6.0 Advanced
- CEI: ASP Advanced

Other Knowledge

- English: ICANA(Advance I)
- Crystal Reports,SQL Oracle; PhoneGap, XAML,Xamarin,Blazor
- Notions of Direct X7;Clipper; Cobol; Basic; GW Basic; etc.
