EDUCATION

- M.Tech – Information Technologies

Year of Passing: 2020 CGPA: 7.49

- B.Sc. - Zoology

Year of Passing: 2015 SGPA: 6.68

- Higher Secondary (12th) State board

Year of Passing: 2012 Aggregate: 68%

- Senior Secondary (10th) State board

Year of Passing: 2010

Aggregate: 63%

PERSONAL DETAILS

- Gender: Female
- Nationality: Indian

PROFESSIONAL SUMMARY

- 10 **Years** of experience in mainframe development in the **Core Banking** and **Financial Services** domain.
- Hands-on experience in coding **COBOL, VSAM, PL1, CICS, Assembler, Easytrieve, JCL, Macro FOCUS, Python and Stored Procedures** in IBM Mainframe Environment.
- Experience in handling **DB2, DATACOM and IMS** databases.
- Proficient in analyzing and translating business requirements to **Technical Specification Document**.
- Experience in handling projects in **Agile and Waterfall** methodology.
- Experience in **leading and mentoring** team members by conducting design/code walkthroughs and functional knowledge sessions.
- Excellent **analytical and good communication skills** coupled with positive user interaction.
- Open to explore **new Technologies and Mainframe Modernization Methods** and adaptive to any Environment.

TECHNICAL SKILL SET

Environment	IBM Mainframes (z/os)
Languages & Frameworks	Cobol, JCL, DB2, Focus, PL1, IMS DB, CICS, Easytrieve, VSAM, JSON, Python, Unix Scripts, JSON , Assembler
Software Tools	File- Aid, Abend-Aid, CA-7, Xpeditor, SCLM,Talend, SQuirreL, Changeman, CA Endevor, PL/SQL Developer
Database	DB2, IMS, Datacom, SQL
Project Management tools	JIRA, Confluence, Azure
Software Engineering	Agile, Waterfall

PROJECT EXPERIENCE

Senior Software Engineer, Aug' 2021 – Till Date

Hexaware – Chicago, USA

Project – Northern Trust

Domain – Banking and Brokerage

Tools - SCLM, Control-M, File- Aid, Abend-Aid, CA-7, SCLM,Talend, SQuirreL, Changeman, CA Endevor, PL/SQL Developer, Z/os Debugger

- Code development of new Macro FOCUS, Cobol, IMS, DB2, UNIX scripts projects.
- Designed the Cloud based application and moved the Mainframe components to Cloud.
- Write code to build and enhance applications, promote changes through SCLM, perform code-reviews, code scanning, and other standard development practices to deliver high-quality artifacts to production.
- Estimate and own delivery tasks (dev, unit test, deployment) to meet the design requirements.
- Collaboratively work with business/product owners, end to end application teams for defect free delivery of Projects.
- Conduct various knowledge transition sessions for the team to build up a strong knowledge base within the team.

Consultant, Jan'2021 – Aug'2021

Capegemini – Pune, India

Project – Bank Of America

Domain – Investment banking and financial services

Tools & Environment - Z/OS, Cobol, JCL, VSAM, DB2

- Worked on development of some new and maintenance projects as per the requirement.
Code development of new Cobol, JCL, VSAM, DB2.
- Worked on Unit testing of the components and handling the defects raised.
- Adhering to standards during coding, so that it is cost efficient.
- Ensure that the deliverables meet the SLA & quality standards of the project.

Senior Project Engineer, Nov'2015 – Jan'2021

Wipro Technologies – Pune, India

Project – Charles Schwab

Domain – Banking and Brokerage

Tools - Changeman, File/Abend-Aid, SPUFI, BMC DB2 tool, SAR, StarTool

- Worked on development of new and maintenance projects as per the requirement. Code development of new Cobol, Easytrieve, DB2, Datacom and Assembler.
- Worked on Unit testing of the components and handling the defects raised.
- Involved in implementing monthly releases.
- Involved in design walkthrough and peer review for different projects.
- Adhering to standards during coding, so that it is cost efficient.
- Handling abends in Production environment and daily report generation.
- Root Cause Analysis of abends and finding solutions for permanent abend fix.
- Ensure that the deliverables meet the SLA & quality standards of the project.
