

IOANNIS VOULGARIS

Product Manager | Boston, MA

+16464640966 | gnvoulgaris@gmail.com | linkedin.com/in/ioannis-voulgaris/

PROFESSIONAL SUMMARY

Product Manager with expertise in defining and delivering AI-driven products, including LLMs, personalization engines, and scalable AI platforms. Skilled in managing end-to-end product lifecycles, prioritizing roadmaps, and collaborating cross-functionally to translate complex AI technologies into intuitive user experiences. Proficient with agile methodologies, data analytics, A/B testing, and tools like Python, SQL, Next.js, Langchain, and Mixpanel. Passionate about leveraging AI to solve user pain points and drive measurable business outcomes.

PROFESSIONAL EXPERIENCE

Ecowiz Global – Multi-Agent AI Solutions | Boston, MA

Product Manager | Nov 2024 - Present

- Defined and executed the product vision and roadmap for an AI-driven platform that guides users step-by-step from business idea generation to venture launch.
- Managed integration and optimization of third-party LLM APIs for ideation, business reasoning, and visual rendering, reducing AI hallucinations by 40% through advanced prompt engineering.
- Conducted user research and designed intuitive UI/UX solutions using Figma, significantly enhancing user engagement and satisfaction.
- Established strategic pilot partnerships with 5+ organizations to validate market fit, gather iterative feedback, and ensure product alignment with real-world entrepreneurial needs.
- Developed and implemented product KPIs (accuracy, CSAT, task completion rate) for LLMs and AI agents, driving informed decisions and significantly enhancing user retention.
- Authored clear, actionable Product Requirement Documents (PRDs), epic stories, user stories, and technical documentation, improving engineering productivity.

TRAM Global – AI & Carbon Reduction Startup (MIT Spinoff) | Boston, MA

Product Manager | Jan 2023 - Dec 2024

- Built and launched the world's first CO2 reduction algorithm, leading to a 0.5 metric ton decrease in user carbon footprints per year.
- Led the validation of the algorithm by AENOR, confirming its effectiveness and establishing product credibility.
- Designed and released the emissions tracking feature, increasing product adoption by 20%.
- Conducted 50+ user interviews to validate features and optimize UX, ensuring strong product-market fit.
- Scaled active users from 0 to 100K in just 6 months by analyzing data via Mixpanel & MySQL.
- Automated reporting workflows (SQL, Tableau, Python), saving 5+ hours per week for the analytics team.
- Designed an MVP B2B dashboard prototype (Figma), streamlining stakeholder decision-making and reducing development time by 15%.

SmartOnboards – AI-Powered Customer Insights Platform for E-commerce | Athens, Greece

Founder & Product Lead | Apr 2022 - Feb 2023

- Founded and secured pre-seed funding, valuing the company at \$300,000.
- Conducted 200+ hours of UX research, increasing survey completion rates by 80% through optimized onboarding.
- Launched an AI-driven customer analytics tool, improving retention by 25% through behavioral insights.
- Led cross-functional teams across engineering, marketing, UX, and legal, ensuring smooth product execution.

Co-Ho (Coworking House) | Boston, MA

Associate Product Manager | Sep 2021 - Dec 2021

- Designed and implemented A/B testing for website onboarding, leading to a 10% boost in conversion rates.
- Developed QR-powered product tutorials, increasing user engagement by 30% and reducing support inquiries.

Mindspace – Entrepreneurial Non-Profit | Athens, Greece

Program Manager | Jan 2018 - Aug 2021

- Supported 12+ startups in scaling operations, helping them raise \$45,000+ in funding.
- Organized Silicon Valley educational trips, connecting students with Google, Uber, Meta, Netflix, and top universities.
- Secured \$50K+ in sponsorships through strategic partnerships with the U.S. Embassy and 10+ organizations.

SIDE PROJECTS

Aithentica – Multi-Agent AI System for Certifying Ethical Human-AI Collaboration

Founder & Inventor | Feb 2025 – Present

- Filed a provisional patent for a multi-agent AI-powered certification system that ensures responsible AI collaboration in academic content generation, promoting transparency and ethical AI adoption.
- Designing AI Tutoring, Process Tracking, and Assessment Agents to monitor human-AI interactions, providing real-time compliance verification and preventing AI misuse.
- Integrating blockchain-based authentication for certification issuance, enabling universities and institutions to verify ethical AI usage in academic work.

Aspiring Product Manager's Club | Boston, MA

Product Manager | July 2022 - Oct 2022

- Led a team of 2 Associate PMs, defining strong user stories & PRDs.
- Achieved 700+ unique website visits in 30 days, with a 30% increase in direct traffic.

SKILLS

Technical Skills: Next.js, Python, Langchain, SQL, Tableau, JIRA, Figma, Mixpanel, Confluence, Miro

Product Management Frameworks: Opportunity Mapping, Solution Mapping, A/B Testing, Scrum, Kanban, Objective-Driven Development, Prioritization Frameworks (e.g., RICE), Roadmap Development, Feature Prioritization (RICE, MoSCoW), Go-To-Market (GTM) Strategy, Product Lifecycle Management (PLM), Customer Journey Mapping, Competitive Analysis

Languages: English, Greek, German (B1)

Soft Skills: Leadership, Cross-Functional Collaboration, Strategic Thinking, Problem-Solving, Communication.

EDUCATION

Northeastern University

August 2023

Master's, Engineering Management

GPA: 3.79

- Relevant coursework: Digital Product Management, Product Development, Computation & Visualization (Python)

Democritus University of Thrace

June 2021

Diploma (B.Sc. + M.Sc.), Production and Management Engineering

- Thesis research: Open BIM-5D, Digital Representation of an Office Building Using BIM Software

CERTIFICATIONS & MEMBERSHIPS
