Houston, TX

EDUCATION

BACHELOR OF SCIENCE IN SOFTWARE
ENGINEERING

• SEPTEMBER 2009 – MAY 2013

University of Miami
Coral Gables, FL

KEY SKILLS

Languages: JavaScript, Ruby, PHP,
Python, SQL, TypeScript

Frameworks/Libraries: React.js,
Node.js, Ruby on Rails, Express.js,
Laravel

Databases: MySQL, PostgreSQL,
MongoDB, Redis

DevOps: Docker, Jenkins, AWS,
CI/CD, Kubernetes

Tools: Git, Webpack, Babel, NPM, Jira,
CircleCI

PROFILE

Innovative and collaborative Full-Stack Developer with over a decade of experience building world-class web platforms for companies like Tesla and Shopify. Strong expertise in **React.js**, **Node.js**, and **Ruby on Rails**, with a proven track record of optimizing performance and driving a 30% improvement in platform speed. Passionate about mentoring teams, streamlining workflows with reusable components, and implementing secure and scalable microservices architecture.

PROFESSIONAL EXPERIENCE

SENIOR FULL-STACK DEVELOPER • OCTOBER 2021 – PRESENT

Tesla • Palo Alto, CA

- Developed and maintained web applications for Tesla's online sales platform, using **React.js** for the front-end and **Node.js** for the back-end.
- Implemented a real-time vehicle tracking system, integrating various APIs and utilizing **WebSocket** for real-time updates.
- Optimized the performance of the **e-commerce** platform, resulting in a 30% increase in page load speed and a 15% increase in conversion rates.
- Worked with a cross-functional team in the migration of legacy systems to a **microservices** architecture, improving scalability and reducing downtime.

FULL-STACK DEVELOPER • MAY 2017 - SEPTEMBER 2021

Shopify • Remote

- Played a key role in the development of Shopify's **payment gateway**, working on both front-end interfaces and back-end transaction processing.
- Built reusable components and modules in **React.js**, streamlining development processes and ensuring a consistent user experience across the platform.
- Worked extensively with **Ruby on Rails** for the back-end, optimizing database interactions and improving the overall performance of the platform.
- Collaborated with the security team to implement secure coding practices, reducing vulnerabilities and enhancing the platform's security posture.

JUNIOR FULL-STACK DEVELOPER • JULY 2013 – APRIL 2017

NextGen • Orlando, FL

- Assisted in the development of custom web applications for various clients, using **JavaScript**, **PHP**, and **MySQL**.
- Developed **RESTful APIs** to support mobile and web applications, ensuring efficient communication between front-end and back-end services.
- Created and maintained technical documentation, improving the team's ability to onboard new developers and maintain code quality.
- Contributed to the design and implementation of database schemas, optimizing data storage and retrieval for web applications.
