

Manohar Vallabi

Java Full Stack Developer

562-269-2450 | manoharvallabi.work@gmail.com | [LinkedIn](#) | Long Beach, CA, 90815

SUMMARY:

Java Full-Stack Developer with **5.5 years** of experience, specializing in **end-to-end** development of **scalable web applications** and cloud-native backend services. Demonstrated expertise in **Java, Spring Boot, and Node.js**, with proficiency in front-end frameworks like **React.js and Angular** for highly responsive user interfaces. Successfully improved **system efficiency by 30%** and automated CI/CD pipelines for **99.9% uptime**. Eager to leverage skills in microservices and API integration and containerization to enhance application performance and security.

WORK EXPERIENCE:

Java Full Stack Developer

Blue Shield of California, Oakland, CA | 02/2024 – Present

- Architected scalable microservices using Java 8+, Spring Boot 3, and Hibernate, handling **1M+ daily insurance transactions** with **99.99% uptime**.
- Built and optimized **RESTful APIs and GraphQL services** within a **microservices architecture**, improving response times by 40% and seamlessly integrating with AWS-based cloud infrastructure.
- **Refactored** database queries through query tuning and indexing strategies across **Oracle, MySQL, and MongoDB**, **cutting query execution time by 40%**, improving data retrieval **efficiency for high-volume transactions**.
- **Orchestrated** fully automated **CI/CD pipelines** using **Jenkins, Kubernetes, and Docker**, cutting deployment time from **5 hours to 30 minutes** while improving system reliability.
- Secured access to **1M+ sensitive healthcare records** by implementing **RBAC with Spring Security, OAuth2, JWT, and SSO authentication**, ensuring compliance with security standards.
- **Collaborated** within Agile teams via daily scrums, sprint retrospectives, **ALM, and JIRA**, cutting turnaround times by **25%** and maintaining robust defect tracking.

Java Full Stack Developer

Voya Financial Inc., San Mateo, CA | 04/2023 – 01/2024

- **Revamped** front-end architecture, **boosting application responsiveness by 30%** and reducing bounce rates by **10%**, **increasing user engagement by 35%** and ensuring **WCAG 2.2 AA compliance**.
- Developed microservices using **Node.js and Spring Boot** within a distributed architecture, integrating **third-party financial SOAP and REST APIs** to accelerate transaction speed by 35%.
- **Refined** caching strategies (**Redis, Memcached**) for PostgreSQL and MongoDB, ensuring seamless high availability.
- Automated CI/CD pipelines using **Jenkins** and **GitHub Actions**, **reducing deployment errors by 60%**.

Application Development Analyst

Accenture (Telstra), Hyderabad, India | 10/2021 – 11/2022

- **Automated user management workflows** in Spring Boot & MySQL, streamlining operations and **increasing efficiency by 40%**.
- Conducted rigorous testing, including **regression, progression, and integration testing**, achieving a **95% defect-free deployment rate** while maintaining high-quality deliverables.
- Implemented **TDD methodologies** using JUnit and Cucumber, achieving **80% test coverage** and **reducing defects by 50%**.
- Integrated **AWS Kinesis** real-time streaming, **enhancing data synchronization** across services and improving data processing efficiency.

Programmer Analyst

Cognizant (MetLife), Hyderabad, India | 12/ 2019 – 10/ 2021

- **Led** migration from **monolithic Struts to Spring Boot microservices**, improving application efficiency and cutting deployment times **by 50%**.
- **Optimized deployment workflows** with Kubernetes and Docker on Pivotal Cloud Foundry (PCF), improving scalability and resource efficiency.

- Implemented **SAML-based Single Sign-On (SSO) authentication** to enhance secure access control across enterprise applications

Java Developer

Dr. Reddy's Laboratories, Hyderabad, India | 06/ 2019 – 11/ 2019

- **Engineered** high-performance **Spring Boot services** for pharmaceutical management, **ensuring 99.9% uptime**.
- Integrated **Kafka & RabbitMQ messaging**, enabling **seamless real-time data synchronization**.
- Applied **AI-driven analytics** to **improve predictive insights**, which **increased efficiency** in pharmaceutical applications by 25%.

TECHNICAL SKILLS:

Backend: Java 8+, Python, C++, Spring Boot, Spring Cloud, Spring Webflux, Spring Batch, Hibernate, JPA, Node.js, Express.js, Servlets, JBoss, J2EE (JSP, JMS, JAXB, JDBC, EJB), Maven

Frontend: JavaScript (ES6+), TypeScript, React.js, AngularJS, Vue.js, Redux, HTML5, CSS3, Bootstrap

Databases: MySQL, MSSQL, PostgreSQL, Oracle PL/SQL, MongoDB, Redis, Cassandra, Elasticsearch

Cloud Platforms: AWS (EC2, S3, RDS, Lambda, IAM, DynamoDB, EKS, CloudWatch, SQS, SNS), Azure, GCP, Ansible, Chef

Testing & Monitoring: JUnit, Mockito, Postman, JMeter, Datadog, Pactflow, Selenium, Cypress, Jest, Prometheus, Grafana, Splunk, SonarQube, Coverity, Veracode

DevOps & CI/CD: Jenkins, GitHub Actions, GitLab CI/CD, Docker, Kubernetes, Pivotal Cloud Foundry, Terraform, helm charts

Version Control & Project Management: Git, Bitbucket, Svn, Jira, Asana, Trello

Architecture & Design Patterns: Microservices, MVC, Event-Driven Design, TDD, Distributed Systems, Object-Oriented Design

Messaging & Streaming: Apache Kafka, RabbitMQ

Documentation: Swagger, Confluence

Operating Systems: Windows, MacOS, UNIX/Linux

IDEs & Code Editors: Eclipse IDE, NetBeans, VSCode, IntelliJ IDEA

CERTIFICATIONS:

AWS Certified Developer Associate,

ORACLE certified Professional Java SE 11 Developer

EDUCATION:

Master's in Computer Science, California State University, Long Beach
