## WORK EXPERIENCE

### Smash Analytics Inc.

January 2025 – Present

*Software Consultant*

*Salt Lake City, Utah, USA*

- Led the design and architecture of high-performance, scalable, and maintainable applications.
- Wrote clean, modular, and well-documented code, adhering to industry best practices and design patterns.
- Conducted peer code reviews, provided mentorship, and established coding standards to maintain code quality and foster a culture of continuous improvement.
- Performed performance analysis and optimization, resolving system bottlenecks and ensuring high system reliability and responsiveness.
- Troubleshoot complex issues in production environments, identifying root causes and implementing effective solutions to minimize downtime
- Worked closely with product managers, QA engineers, and DevOps to ensure timely delivery of features and smooth deployment processes
- Provided ongoing support and maintenance for software applications to ensure optimal functionality.

### Linnk Technologies

July 2023 – January 2025

*Software Consultant*

*Dubai, UAE*

- Worked for Beehive. Beehive is a leading P2P fintech company that connects businesses with investors through an innovative digital platform, enabling efficient and transparent financing solutions.
- Designed scalable software solutions using .NET tech stack ensuring alignment with business needs.
- Implemented Microservices Architecture for backend for seamless integration while ensuring optimal performance and security standards.
- Provided ongoing support and maintenance for software applications to ensure optimal functionality.

### Multi Level Technology

November 2020 – June 2023

*Lead. Software Engineer*

*Abu Dhabi, UAE*

- A tech company based in Abu Dhabi focuses on cutting-edge technology solutions for various industrial sectors.
- Architected scalable software solutions to improve system performance and user experience across various applications.
- Designed and implemented APIs for secure transaction processing across multiple platforms and payment methods.
- Led collaborative architectural discussions to devise innovative solutions for intricate technical obstacles that arose.

### Network Intelligent Payment Solutions

October 2016 – November 2020

*Sr. Software Engineer*

*Abu Dhabi, UAE*

- A leading provider of innovative fintech solutions within the financial sector.
- Designed architecture for the new and existing application modules.
- Enhanced and maintained company products using .NET technology stack.
- Collaborated across teams for operational support of critical applications.
- Coordinated production support to maintain system integrity.

### Seronic Group

April 2012 – October 2016

*Software Engineer*

*Islamabad, Pakistan*

- A technology firm in Pakistan offering automated solutions to diverse industries.
- Designed, developed and maintained web applications using .NET stack.

- Wrote and optimized SQL queries and stored procedures to improve database performance.
- Debugged and resolved software defects to ensure smooth functionality.

## EDUCATION

---

**Quaid-i-Azam University**

*Degree (M.Sc.), Majors (Computer Science)*

**February 2012**

*Islamabad, Pakistan*

## SKILLS & INTERESTS

---

**Skills:** Clean Architecture; SaaS; C#; .NET Core; ASP.NET MVC; RESTful API; GraphQL; WCF; ASP.NET Web Forms; Windows Services; Multithreading; Reporting; SignalR; Unit Tests; LINQ; Entity Framework; Dapper; SQL Server; MySQL; HTML5; CSS; JavaScript; JQuery; AJAX; NodeJS; MongoDB; TFS; Azure DevOps; SOLID Principles; Problem-solving; OWASP; PCI DSS; Dashboards; Payment Gateways; IoT

- **Interests:** Emerging technologies; Gym; Camping
