

Rashmi Shahdadpuri

Quality Assurance Engineer

 858-329-9238

 rashmi.chawla.be@gmail.com

 Livermore, CA 94550

PROFESSIONAL SUMMARY

Quality Assurance Engineer with 5 years of experience, including over 2.5 years specializing in consumer robotics and AI/ML. Combines a solid foundation in general QA principles with expertise in the unique challenges of robotics, such as hardware-software integration, real-world variability, and complex user interactions. Key pointers of my professional growth are Automated Testing, Comprehensive Testing, Technological Advancements and Collaboration.

SKILLS

Java

Python

Windows

Linux

IOS

Android

Integration Testing

Functional Testing

Jira

Regression Testing

Stress Testing

Sanity Testing

Performance Testing

Load Testing

Buganizer

Black Box Testing

White Box Testing

GitHub

Anaconda Navigator

Selenium

UI Automator

CIDER

Mobile Harness

Moscar

Organizational Skills

Time Management

Defect monitoring

Collaborative Team Player

Compliance Testing

Client Requirements

EXPERIENCE

QUALITY ASSURANCE AUTOMATION ENGINEER, Sunnyvale, US

AMAZON Lab126, March 2021–Present

- **Test Plan Development:** Create and execute test plans for new consumer robotics features, ensuring high-quality releases.
- **Automation and Efficiency:** Automate test cases, reducing manual effort and contributing to financial growth. Implemented testing frameworks that cut manual testing time, ensuring consistent, high-quality releases.
- **Lab Setup and Robotics Management:** Establish and manage simulation labs, integrating robots into each environment to facilitate comprehensive testing and development.
- **Performance Improvement:** Evaluate test data to identify performance issues, providing actionable recommendations that enhanced robot functionality considerably. Conduct root cause analysis, improving system reliability for crucial component like Sentry , Mobility , Critical Battery.
- **Process Optimization:** Led cross-functional teams to streamline testing processes, boosting efficiency and shortening product release cycles.
- **Global Collaboration:** Facilitated knowledge sharing among international teams, enhancing global collaboration and reducing operational bottlenecks.
- **Operational Coordination:** Coordinated with international teams to ensure seamless operations and effective utilization of lab resources.
- **Resource Optimization:** Optimized lab resource allocation, achieving a 15% reduction in costs while maintaining high

quality and efficiency in testing processes.

- **Enhanced Functionality:** Evaluated test data and identified performance issues, leading to a 30% improvement in robot functionality through targeted enhancements.
- **Efficiency Improvements:** Streamlined lab operations and testing processes, boosting overall efficiency by 25% and reducing product release cycles.
- **CI/CD Implementation:** Implemented CI/CD pipelines with Jenkins and Docker, increasing test efficiency and accelerating the development cycle.

TEST ENGINEER, Sunnyvale, US

Tech Mahindra (Americas) INC. (Client: GOOGLE), May 2018–February 2021

- **Automation Frameworks:** Designed and implemented automation frameworks using Python, Java and UI Automator [Copycat] for Google Photos and Google Search, ensuring comprehensive test coverage.
- **Test Case Development:** Created test cases and scripts from Business Requirements Documents (BRD) in agile environments to ensure robust and thorough testing.
- **Performance Testing:** Conducted performance, stress, and regression tests utilizing Mobile Harness, CIDER, and Moscar, assessing system stability and robustness.
- **Defect Management:** Reported and tracked defects using Buganizer, working closely with development teams to resolve issues efficiently.
- **Automated Test Suites:** Designed and maintained automated test suites for web and mobile applications, providing regular status updates to management.
- **Cross-Functional Collaboration:** Worked with cross-functional teams to address critical issues, enhancing system reliability and improving user satisfaction.
- **Agile Practices:** Facilitated daily stand-ups and sprint planning meetings, ensuring effective communication and alignment of tasks among team members.
- **Data Analysis:** Analyzed test data to identify patterns and trends, optimizing test strategies and reducing defect rates.

ASSISTANT PROFESSOR, Mumbai, India

Rajiv Gandhi Institute of Technology, June 2010–November 2016

- **Class Administration:** Administered multiple classes and assessed student performance through grading examinations.
- **Career Counseling:** Offered optional independent career counseling to students, providing guidance on career planning and development.
- **Subject Consultations:** Provided expert subject consultations and led the work of faculty instructors, ensuring effective teaching and academic support.
- **Course Instruction:** Conducted college-level courses in Information Technology, focusing on Java, Database Management, and Information Systems.
- **Research Collaboration:** Partnered with faculty and research centers to advance external research, contributing to academic growth and innovation.
- **Student Mentorship:** Guided and mentored undergraduate student projects, supporting practical learning and professional development.
- **Administrative Functions:** Executed various administrative tasks within the faculty, ensuring smooth operations and adherence to institutional policies.
- **Software Development:** Developed and tested an online attendance system, enhancing efficiency and reducing manual errors.
- **Research Contributions:** Published several research papers in Artificial Intelligence and e-commerce, bolstering the institute's academic reputation.
- **Policy Development:** Contributed to the creation and implementation of engineering development policies, influencing departmental and institutional practices.

EDUCATION

COMPLETED COURSEWORK TOWARDS MASTERS OF ENGINEERING IN INFORMATION TECHNOLOGY

UNIVERSITY OF MUMBAI, INDIA

COMPLETED COURSEWORK TOWARDS BACHELORS OF ENGINEERING IN INFORMATION TECHNOLOGY

UNIVERSITY OF MUMBAI, INDIA
