Technical Highlights

- TCP/IP and networking protocols
- DHCP and DNS management
- Windows and Linux server administration
- Oracle database management
- Active Directory services
- Virtualization technologies
- Solaris server administration

Experience

Oracle Corporation

Systems Analyst 4-Support

10/2013 - 09/2025

- Remote troubleshoot VPN Connectivity issues (client to site vpn)
- Remote Solaris administration and troubleshooting.
- Remote Linux administration and troubleshooting.
- Support Oracle's Platinum Infrastructure including monitoring
- QA Validation of new pre deployed Oracle's Exadata, Exalogic, Supercluster Technologies
- Provide 24/7 remote support for Microsoft Windows servers.
- Assisted fellow Primary Support Engineers with technical knowledge.
- Provided technical knowledge to customers requesting direction and design of their enterprise projects.
- Managed and participated on large scale enterprise project teams.
- Provide 24/7 remote support for Microsoft Windows servers.
- Assisted fellow Primary Support Engineers with technical knowledge.
- Provided technical knowledge to customers requesting direction and design of their enterprise projects.
- Managed and participated on large scale enterprise project teams.
- Provide 24/7 remote support for Microsoft Windows servers.
- Installed Sun's custom monitoring solution and tailored it to customers' needs.
- Provided technical knowledge to customers requesting direction and design of their enterprise projects.
- Managed and participated on large scale enterprise project teams.
- Designed and Administered 40+ server Citrix Presentation Server 4.0 farm.
- Administered and Deployed 30+ VMware 3.5 sever environment.
- Provide 24/7 support for 150 Windows and Novell servers.
- Managed and participated on large scale enterprise project teams.
- Dedicated to Frontier Communications Solutions account.

Oracle Corporation

Primary Support Engineer

10/2010 - 03/2013

Randstad Management Services

Primary Support Engineer

03/2010 - 10/2010

PrO Unlimited @ Sun Microsystems

Primary Support Engineer

03/2009 - 03/2010

Unity Health System

Senior Systems Administrator

10/2006 - 03/2009

Sun Microsystems

Primary Support Engineer

02/2006 - 10/2006

Frontier Communication Solutions

Senior Technical Analyst

07/2001 - 02/2006

- Provide onsite hardware, OS and Application Administration for 24/7 operations.
- Troubleshoot and design Windows based server technologies.
- Managed and participated on large scale enterprise wide projects.
- Provide 24/7 support for 300+ servers nationwide.
