

Rishikesh Manohar

Seattle, WA | +1 (602) 849-4251 | rmanoha8@asu.edu | [LinkedIn](#) | [GitHub](#)

Professional Summary

Full Stack Developer with 3+ years of experience in developing secure, scalable cloud and web applications. Proficient in JavaScript, Java, SQL, and back-end integration using REST APIs. Hands-on experience in building cloud-native solutions, CI/CD automation, microservices, applying Agile methodologies, and optimizing data-driven functionalities.

Professional Experience

Integrated Travel ASU, Pheonix, US—Software Engineer

Jan 2025 – Present

- Integrated REST APIs into the Med Kids app for real-time data sync, improving responsiveness by 25%.
- Managed AWS Lambda and Docker containers to optimize resource utilization and lower operational costs.
- Automated infrastructure provisioning using Terraform, integrating AWS EC2, S3, and CloudWatch for monitoring.
- Integrated REST APIs and implemented secure, role-based access control across distributed systems using JWT authentication.
- Enhanced CI/CD pipelines (GitHub Actions) for automated testing and deployments with zero rollbacks.
- Instrumented services with logging and performance metrics (AWS CloudWatch, Postman tests), improving incident response time by 30%.
- Partnered with DevOps and SRE teams to troubleshoot performance bottlenecks and enforce security compliance across deployments.

Accenture Solutions Pvt. Ltd., Pune, India—Application Development Associate

Jan 2021 – Dec 2022

- Developed and maintained backend microservices, integrating APIs with AWS RDS and S3 for high availability.
- Supported migration of legacy workloads to AWS Cloud, using CloudFormation templates and Docker containers to ensure environment consistency.
- Worked with SIEMENS client in Agile sprints to design/test backend logic, reducing incident resolution time by 18%.
- Collaborated with cross-functional teams to define cloud architecture and conduct architecture reviews for scalability and performance.
- Developed monitoring and alerting dashboards using CloudWatch and Grafana, enabling proactive performance optimization.
- Participated in security reviews ensuring compliance with SOC2 and GDPR policies.

Sanbury Life Science., Nagpur, India—Web Development Associate

May 2020 – Jan 2021

- Developed .NET apps with SQL Server, deployed via Docker for reliable environments.
- Implemented data layer optimizations, reducing query execution time by 20% and improving overall system scalability.
- Collaborated with the DevOps team to integrate CI/CD pipelines, reducing manual deployment time by 40%.

Technical Skills

Languages: C, C++, Go, Python, Java, JavaScript, TypeScript, SQL

Web Stack: React.js, Node.js, Express, AngularJS, HTML5, CSS3, JSON

Databases: MySQL, PostgreSQL, MongoDB, Oracle

Tools & Platforms: Git, Docker, Heroku, Postman, CloudWatch

Cloud & Analytics: Microsoft Azure Fundamentals (In progress) ,AWS (EC2, Lambda, S3, Redshift, QuickSight)

Projects

Fresh Harvest – Online Grocery Platform

Jan 2023 - Apr 2023

- Developed full-stack app with React, Node.js, Express, and MongoDB.
- Designed REST APIs and implemented secure, role-based authentication.

Online Pharmacy System

Oct 2022- Dec 2022

- Engineered a JavaScript-based online medicine ordering app with user/admin interfaces and secure authentication.
- Integrated with MySQL for efficient data management, enabling data storage and retrieval.
- Used Java Swing to integrate features like Google Maps and email verification, boosting the application's functionality.

EDUCATION

Arizona State University, United States

Jan 2023 - Dec 2024

Master of Science in Information Technology (GPA: 3.93/4)

Pune University, India

Jul 2017 - Apr 2020

Bachelor of Engineering in Computer Engineering (GPA: 7.8/10)
