Experience

Advanced Engineering Analyst, Accenture June 2022 – July 2023

- Developed and optimized RESTful APIs using Flask and FastAPI, reducing response times by 30% through caching strategies and PostgreSQL indexing.
- Designed and implemented PostgreSQL and MongoDB schemas, optimizing ORM queries and improving database efficiency by 25% for large-scale applications.
- Integrated OAuth 2.0, JWT authentication, and role-based access control (RBAC) to enhance API security and user authorization across distributed services.
- Containerized and deployed applications using Docker and Kubernetes, improving deployment efficiency by 40% through automated CI/CD pipelines (Jenkins, GitHub Actions).

Associate Software Engineer, Ezship June 2021 – June 2022

- Developed and integrated React.js frontend components with Flask APIs, reducing API fetch latency by 20% and improving frontend performance.
- Built ETL pipelines in Python, automating the ingestion of real-time shipment tracking data into PostgreSQL and MongoDB, ensuring data consistency and faster processing.
- Designed and deployed a full-stack dashboard using React, Flask, and PostgreSQL, enabling real-time logistics tracking and improving operational reporting by 20%.

Projects

Customer Sentiment Analysis API | Flask, Scikit-learn, AWS Lambda

- Developed and deployed a machine learning API using Flask and Scikit-learn for real-time sentiment analysis, hosted on AWS Lambda, reducing infrastructure costs by 25%.

Sales Analytics Dashboard | React, Flask, PostgreSQL

- Built a full-stack sales dashboard using React, Flask, and PostgreSQL, automating real-time data visualization and reducing manual reporting efforts by 50%.

Automated X-ray Image Processing | OpenCV, AWS S3, NumPy

- Designed a serverless image-processing pipeline using OpenCV and AWS S3, automating scientific image analysis and reducing manual workload by 60%.

Education

Illinois Institute of Technology, MS in Computer Science Aug 2023 – Present

- GPA: 3.66/4.0
- Relevant Coursework: Distributed Systems, Database Systems, Operating Systems, Advanced Algorithms, Cloud Computing, Systems Programming

Vellore Institute of Technology, Bachelor of Technology in Computer Science Jun 2018 – Jun 2022

- GPA: 3.44/4.0
- Relevant Coursework: Data Structures and Algorithms, Computer Architecture, Multithreaded Programming, Software Engineering, Database Management Systems

Certifications and Skills

Certifications:

IBM Data Engineering Professional Certificate – IBM (Earned: June 2024)

AWS Certified Cloud Practitioner – Amazon Web Services (Earned: November 2024)

Skills:

Full-Stack Development: Python (Flask, Django, FastAPI), React.js, RESTful APIs

Cloud DevOps: AWS (Lambda, S3, Glue, EC2), Docker, CI/CD (Jenkins, GitHub Actions)

Databases ETL: PostgreSQL, MySQL, MongoDB, Hive, Apache Airflow
