SUMMARY

NET Developer with 5+ years of experience in designing, developing, and maintaining client/server and enterprise web applications. Skilled in all phases of the software development lifecycle (SDLC) including analysis, design, development, and implementation of web-based applications using ASP.NET, C#, and SQL Server. Proficient in developing microservices, RESTful APIs, and working with technologies such as MVC, WCF, and Entity Framework. Experienced with cloud technologies and Agile methodologies. Strong problem-solving and teamwork abilities.

PROFESSIONAL EXPERIENCE

.NET Developer, Bank of America

08/2022 – Present | TX

- Developed high-performance .NET Core microservices to support scalable cloud-based applications.
- Implemented asynchronous programming using async/await, improving application performance and responsiveness.
- Designed and optimized RESTful APIs with ASP.NET Core, enhancing inter-service communication.
- Refactored legacy .NET Framework applications to .NET 6/7, reducing technical debt and improving maintainability.
- Developed gRPC services for efficient communication between microservices.
- Optimized web UIs using Blazor and integrated SignalR for real-time communication.
- Deployed applications on AWS Lambda, reducing infrastructure costs by 30%.
- Implemented CI/CD pipelines using AWS CodePipeline, CodeBuild, and CodeDeploy to automate deployments.
- Designed and developed N-Tier architecture applications with MVC, Web API, and Entity Framework.
- Collaborated with cross-functional teams to align technical solutions with business needs, increasing project success rate by 25%.
- Led the design and development of user authentication and authorization features, ensuring security compliance for sensitive data handling.
- Conducted performance tuning on .NET applications, improving load time and responsiveness by 20%.

.NET Developer, Progressive Insurance

09/2019 – 07/2021 | TX

- Developed web applications using ASP.NET MVC, creating reusable User Controls and Business Logic Layer classes.
- Built REST APIs for application integration and multi-tier functionality.
- Worked with WCF Services, including designing and deploying them for data processing.
- Developed single-instance applications using WPF and XAML.
- Created secure web pages using HTML5, CSS3, XML, and JavaScript.
- Utilized LINQ for managing relational data and implemented CRUD operations.
- Contributed to the design of the database schema, wrote stored procedures, and developed T-SQL queries.
- Led the design and development of a customer management system, improving customer satisfaction by 15% through faster data access and processing.
- Participated in Agile sprints, contributing to weekly progress reviews and delivering features ahead of schedule.
- Automated data validation processes in ASP.NET, reducing manual errors by 40%.
- Assisted in the integration of third-party APIs for payment processing, improving the overall system's flexibility and reliability.

.NET Developer, Cognizant Technology Solutions

01/2017 – 08/2019 | India

- Developed web applications and services using ASP.NET, C#, and WCF for client-server communication.
- Used ADO.NET for data access, creating stored procedures and writing T-SQL queries.
- Implemented the Entity Framework for data operations and utilized LINQ for data manipulation.
- Involved in the transformation of XML data using XSLT for web presentation.
- Wrote unit tests and performed debugging and troubleshooting for application issues.
- Designed and developed reusable ASP.NET Web Forms and User Controls for enhanced UI flexibility.
- Worked on the integration of SSRS for report generation, improving real-time business insights by 25%.
- Collaborated with the QA team to develop test cases for functional and regression testing, resulting in a 15% decrease in post-release defects.
- Involved in database normalization and schema design, optimizing data retrieval performance by 20%.
- Mentored junior developers, assisting them in understanding .NET Framework principles and best practices, improving team productivity by 10%.

EDUCATION

University of Bridgeport

Masters in Technology Management

08/2021 – 04/2023 | Bridgeport, CT

Avanthi Degree College

Bachelors in Commerce

05/2014 – 05/2017 | Hyderabad, India

Relevant Coursework: Computer Science, Data Structures, Algorithms, Cloud Computing

SKILLS

Languages: C#, VB.Net, SQL, JavaScript, TypeScript, HTML5, CSS3, XAML, T-SQL, Python

Frameworks & Libraries: .NET Framework (4.5/4.7/4.8), ASP.NET, ASP.NET MVC, WCF, WPF, Entity Framework, LINQ, Angular.js, Blazor, SignalR, jQuery, Bootstrap, React.js

Web Technologies: Web API, RESTful APIs, SOAP, Web Services, Web Forms, HTML5, CSS3, JavaScript, AJAX, JSON, XML, XSLT, TypeScript

Databases: SQL Server, Oracle, MySQL, PostgreSQL, MongoDB, SQLite, NoSQL, Database Design, Stored Procedures, Views, Triggers, T-SQL, LINQ to SQL/Objects/XML

Cloud & DevOps: AWS, Azure, AWS Lambda, AWS API Gateway, CI/CD (CodePipeline, CodeBuild, CodeDeploy), Azure DevOps, Git, GitHub, GitLab, Docker, Kubernetes, Jenkins

Testing & Debugging: Unit Testing, Test Driven Development (TDD), NUnit, MSTest, XUnit, Mockito, Jest, Selenium WebDriver, Postman

Data Technologies: ADO.NET, ADO.NET Entity Framework, SSRS, SSIS, SSAS, SQL Server Integration Services, Data Transformation Services (DTS)

Software & Tools: Microsoft Visual Studio, Visual Studio Code, Eclipse, IntelliJ IDEA, MS SQL Management Studio (SSMS), Azure DevOps, Team Foundation Server (TFS), Jira, Confluence, Jenkins, Postman, Fiddler

Version Control: Git, GitHub, TFS, SVN, Visual SourceSafe

UI/UX & Design: Blazor, WPF (Windows Presentation Foundation), HTML5, CSS3, Bootstrap, jQuery, AngularJS, ReactJS, Responsive Web Design, UX Design

Methodologies: Agile (Scrum/Kanban), Waterfall, DevOps, Continuous Integration/Continuous Deployment (CI/CD), Test Driven Development (TDD), Behavior Driven Development (BDD)

Networking: TCP/IP, HTTP/HTTPS, SOAP and RESTful APIs, WebSockets

Security: OAuth, JWT (JSON Web Tokens), SSL/TLS, Role-Based Access Control (RBAC), Cryptography, Authentication & Authorization

Other Tools: Jira, Trello, MS Visio, Postman, RedGate, Fiddler, Wireshark, NUnit, Jenkins
