## PROFESSIONAL SUMMARY:

Java Full Stack Developer with 5+ years of experience designing and delivering scalable, high-performance applications in the banking sector. Proficient in **Java, Spring Boot, React.js**, and **RESTful APIs**, with expertise in microservices architecture, **CI/CD pipelines**, and cloud platforms (**AWS, Azure, GCP**). Skilled in optimizing database performance, ensuring system security, and transforming complex business requirements into innovative technical solutions. Experienced in Agile environments, with a focus on delivering user-focused applications that meet business goals.

## TECHNICAL SKILLS:

|                         |                                                                                             |
|-------------------------|---------------------------------------------------------------------------------------------|
| <b>Languages</b>        | C, C++, Java, Python, JavaScript, SQL, PL/SQL, XML, TypeScript                              |
| <b>Frameworks</b>       | Spring Boot, Spring Core, Spring MVC, Hibernate, Microservices, JPA, Spring ORM, Spring AOP |
| <b>Web Technologies</b> | HTML, CSS, JavaScript, jQuery, TypeScript, Angular (2+), React.js, Node.js, Bootstrap       |
| <b>Tools</b>            | Git, Jenkins, Postman, IntelliJ, Eclipse, NetBeans, VS Code, Kafka, JMS, Azure DevOps       |
| <b>Databases</b>        | MySQL, PostgreSQL, MongoDB, Oracle, SQL Server, GraphQL                                     |
| <b>Cloud Platforms</b>  | AWS (EC2, S3, Lambda, Redshift, DynamoDB), Azure (Virtual Machines, Blob Storage), GCP      |
| <b>Methodologies</b>    | Agile, Scrum, JIRA, Waterfall                                                               |
| <b>Certifications</b>   | AWS Certified Solutions Architect – Associate                                               |

## PROFESSIONAL EXPERIENCE:

### Sr Full Stack Java Developer, Bank of America, NC

November 2023- Present

- Architected and implemented scalable microservices using **Java, Spring Boot, and RESTful APIs**, integrating Kafka, OpenShift, and Octane API, resulting in a 40% improvement in data streaming efficiency.
- Enhanced system security and performance by leveraging **Spring Security**, OWASP guidelines, PKI, and Apache Camel reducing system vulnerabilities by 30% and improving database query performance by 20% across **Oracle, PostgreSQL**, and **MS SQL**.
- Spearheaded full-stack development by building responsive **Angular** and **React.js** applications, managing CI/CD pipelines with Git and Jenkins, and deploying on Kubernetes.
- Automated build and deployment processes using Git and Jenkins, reducing manual intervention by 40% and improving release cycle efficiency by 20%.

**Environment:** Java, Agile methodology, Spring Boot, ReactJs, Docker, Oracle11, Web services, JPA, JSON.

### Java Full Stack Developer, Mercer, India

January 2019 – August 2022

- Delivered a 35% improvement in API response times by creating and maintaining **RESTful APIs** and microservices using Spring Boot.
- Spearheaded the development of a reusable component library with Angular and React.js, cutting front-end load times by 1.2 seconds and improving average user session duration by 18%.
- Enhanced deployment efficiency by automating CI/CD workflows with **Jenkins**, reducing manual errors by 20%.
- Optimized CI/CD processes using Jenkins and minimizing production issues through rigorous API testing with **Postman**.

**Environment:** Java, Spring Boot, Hibernate, JUnit, Maven, Kafka, MongoDB, Cassandra, Docker, Kubernetes.

## EDUCATION:

- Master of Science in Computer Science, Clark University, MA. (GPA – 3.87/4.0) **August 2022 – May 2024**
- B. Tech in Computer Science and Engineering, BML MUNJAL University, India (CGPA- 7.6/10) **August 2015- April 2019**

## PROJECT:

### Online Banking Management System

- Developed an Online Banking Management System using Java, Spring Boot, and React.js, integrating Spring Security and PostgreSQL for secure account and transaction management, deployed on AWS for scalability and real-time processing.
