

SUMMARY

- Accomplished Full-stack Developer with 3+ years of expertise in developing enterprise-level applications using Java Spring Boot, React.js, and cloud technologies
- Demonstrated success in architecting and implementing microservices-based solutions that improved system performance by 45% while serving 1M+ daily users
- Advanced proficiency in developing secure, scalable RESTful APIs with OAuth2/JWT authentication, handling 100K+ concurrent requests
- Expert in process automation and enterprise integration patterns, achieving 40% improvement in operational efficiency through RPA implementations
- Proven track record in optimizing database performance and implementing efficient data modeling solutions across SQL and NoSQL databases
- Strong experience in implementing CI/CD pipelines using Jenkins, Docker, and Kubernetes, reducing deployment cycles by 85%
- Proven leadership in conducting technical training sessions and creating comprehensive documentation

SKILLS & INTERESTS

- Programming Languages:** Core Java, Java 8/11/17, JavaScript (ES6+), SQL, Angular, Typescript, HTML5, CSS3/SASS, Python
- Frameworks:** Spring Boot, Spring Security, Spring Cloud, React.js, Redux, Node.js, Express.js
- Databases:** MySQL, PostgreSQL, MongoDB, Azure SQL, Redis, Elasticsearch
- Cloud Platforms:** Azure (PaaS & Services), AWS, Google Cloud Platform
- DevOps & Tools:** Azure DevOps, CI/CD, Git, Jenkins, Docker, Kubernetes
- IDE & Dev Tools:** Eclipse, IntelliJ IDEA, Postman, Putty, Visual Studio Code
- Testing:** JUnit, Mockito, Jest, React Testing Library, Selenium, Cypress
- Other Tools:** DataStage, Confluence, Snowflake, Control-M, Linux, JIRA
- Methodologies:** Agile, Scrum
- Version Control:** Git, GitHub, Bitbucket
- Build Tools:** Maven, Gradle
- Other Skills:** Problem-Solving and Critical Thinking, Communication and Presentation Skills, Code Review and Quality Assurance
- Operating System:** MacOS, Windows, Linux

RELEVANT WORK EXPERIENCE

PNC FINANCIALS Full-stack Developer	Texas, USA <i>Sept 2023 – Current</i>
- Spearheaded the development of a microservices-based banking platform using Spring Boot and React.js, processing \$500M+ in daily transactions with 99.99% uptime - Architected and implemented a distributed caching solution using Redis and Elasticsearch, reducing database load by 70% and improving response times from 2s to 200ms - Developed a secure authentication system using Spring Security, OAuth2, and JWT, implementing role-based access control (RBAC) for 50,000+ users across 100+ endpoints - Engineered high-performance RESTful APIs using Spring WebFlux and reactive programming, handling 100K+ concurrent requests with sub-second response times - Implemented event-driven architecture using Apache Kafka for real-time transaction processing, achieving 99.999% message delivery reliability - Designed and deployed containerized applications using Docker and Kubernetes, achieving 99.9% application availability and 85% reduction in deployment time - Created a responsive front-end dashboard using React.js and Material-UI, processing real-time financial data for 10,000+ daily active users - Implemented comprehensive monitoring using ELK stack (Elasticsearch, Logstash, Kibana) and Prometheus, reducing MTTR from 4 hours to 30 minutes - Led the migration of monolithic applications to microservices architecture, resulting in 35% cost reduction and 60% improved scalability	
BARCLAYS SHARED SERVICES PVT LTD Process Automation Developer	India <i>Mar 2022 – Aug 2022</i>
- Developed enterprise-grade RPA solutions using Blue Prism and UiPath, integrated with REST APIs and SQL databases, achieving 40% reduction in manual processing time - Engineered a Python-based email processing system integrated with Blue Prism, automatically handling 10,000+ daily emails with 99.9% accuracy - Implemented machine learning algorithms for document classification and data extraction, improving processing accuracy by 35% - Created reusable automation components used across 20+ processes, reducing development time by 50% - Designed and implemented error handling and recovery mechanisms, reducing process failures by 75% - Developed custom analytics dashboard using Power BI for real-time monitoring of automation metrics - Integrated RPA processes with ServiceNow for automated ticket creation and resolution, reducing response time by 60% - Implemented secure credential management using CyberArk, ensuring compliance with banking security standards - Conducted load testing and performance optimization, ensuring stable operation under peak loads of 1000+ concurrent processes - Documented technical specifications and created training materials, reducing onboarding time for new team members by 40%	
INFORMATICA BUSINESS SOLUTION PVT LIMITED Associate Software Engineer	India <i>Jan 2021 – Mar 2022</i>
- Led technical support for enterprise data integration platform, resolving 200+ complex customer issues with 95% satisfaction rate - Implemented LDAP authentication system using Microsoft Active Directory, managing access for 10,000+ users across multiple domains - Developed and optimized ETL workflows using Informatica PowerCenter, improving data processing speed by 40% - Created automated testing frameworks using Selenium and Python, reducing QA cycle time by 50% - Implemented real-time monitoring solutions using Splunk, reducing mean time to detection for critical issues by 60% - Collaborated with R&D team to implement 10+ major product enhancements based on customer feedback - Optimized big data workflows using Spark and Hadoop, processing 5TB+ daily data with improved efficiency - Developed custom REST APIs using Spring Boot for integration with third-party systems	

- Created comprehensive technical documentation and conducted 50+ training sessions for clients
- Implemented automated backup and disaster recovery procedures, achieving RPO of 15 minutes and RTO of 1 hour

EDUCATION

University of Texas at Arlington, Texas - USA - Master of Science in Computer Science

BMS Technology and Management, Bangalore, Karnataka, India - Bachelor’s degree in computer science
