

Sr. Full Stack .NET Developer

Reethika Sajja

Email: reethikasajja4@gmail.com | Phone: 334-781-3720 | Open to U.S. Relocation

Professional Summary

Senior Full Stack .NET Developer with 6+ years of experience in designing, developing, and deploying high-performance web and cloud applications. Expert in .NET Core, ASP.NET MVC, Azure, Angular, PowerApps/Power Platform, and microservices architecture. Proven track record in API development, cloud integration, CI/CD automation, and end-to-end solution delivery. Skilled in Agile environments, mentoring teams, and modernizing legacy systems.

Technical Skills

Languages & Frameworks	C#, VB.NET, .NET Core, ASP.NET MVC, WCF, Web API, Entity Framework, LINQ, PowerApps/Power Platform
Front-end	Angular 8–14, React.js, HTML5, CSS3, JavaScript, jQuery, Bootstrap, XAML, Vue.js
Database & BI	SQL Server, Oracle, PL/SQL, T-SQL, SSIS, SSRS, Cosmos DB, MongoDB
Cloud & DevOps	Azure (Site Recovery, Backup, App Services), AWS (EC2, S3, SNS, SQS), Jenkins, Docker, Kubernetes, CI/CD pipelines
Tools & Others	Visual Studio, TFS, GIT/GitLab, Jira, UML, MS Visio, SharePoint, Power Platform, JSON, XML, SOAP, REST APIs

Professional Experience

HCA Healthcare, TX | Sr. .NET Full Stack Developer | Jun 2023 – Present

- Built JSON-based APIs in C# to integrate multiple enterprise systems, improving data flow efficiency by 30%.
- Conducted performance testing with JMeter, ensuring application reliability under high load.
- Led BDD implementation using SpecFlow, enhancing collaboration between dev, QA, and business teams.
- Designed Angular 8 web interfaces, upgraded legacy systems from Angular 7 to Angular 8.
- Developed loosely coupled WF + C# + NHibernate applications with dependency injection.
- Modernized business processes using Power Platform (PowerApps, Flow, CDS, SharePoint).
- Implemented microservices on AWS, leveraging EC2, S3, SNS, and SQS for scalable

solutions.

- Created SOAP & REST APIs, deployed on Cloud Foundry, AWS S3, and Kubernetes.
- Tracked and managed projects using Jira, ensuring timely delivery and issue resolution.

Environment: .NET 5/6, ASP.NET MVC 5, Angular 8, Windows 10, AWS, CI/CD, Jenkins, Kubernetes, SQL Server, Cosmos DB, Power Platform

Varo Bank, San Francisco, CA | .NET Full Stack Developer | Dec 2020 – Oct 2022

- Maintained enterprise applications using .NET C#, SQL Server, Oracle, Angular 11, Bootstrap, jQuery.
- Designed RESTful APIs and Entity Framework-based data models, improving query performance by 25%.
- Implemented TDD and automated testing for Node.js applications, reducing defects by 30%.
- Led Azure cloud migration and configured CI/CD pipelines with Azure DevOps, enabling seamless deployments.
- Developed Angular-based SPAs, integrating REST services with component-based architecture.
- Optimized database performance via PL/SQL, stored procedures, views, and indexes.
- Managed containerized deployments using Docker & Kubernetes, including blue-green and canary strategies.
- Developed PowerApps solutions integrated with SQL, SharePoint, and Flow to automate processes

Environment: .NET Framework 5.0, ASP.NET Core, Angular 11, SQL Server/Oracle, Azure, Docker, Kubernetes, Node.js, CI/CD, Power Platform

PwC, Kansas City, MO | .NET Developer | Sept 2019 – Nov 2020

- Developed full-stack applications with C#, ASP.NET MVC, and SQL Server using N-tier architecture.
- Built REST APIs and React.js components, enhancing UI responsiveness and code reuse.
- Created SharePoint-hosted solutions for multiple enterprise apps.
- Managed Kubernetes and Docker environments, performing containerization and local cluster deployments.
- Designed MongoDB sharded clusters, including import/export scripts, capacity planning, and shard key optimization.
- Developed SSIS ETL processes to integrate data from multiple sources, ensuring high data quality.
- Applied LINQ to SQL/XML for seamless data integration and validation.

Environment: .NET Core, ASP.NET MVC, C#, React.js, SQL Server, MongoDB, Docker, Kubernetes, Azure, CI/CD, SharePoint

Education

Master's in Computer Science, Auburn University
