

ANA TENA

329 Vinings Way Blvd, Destin, FL 32541

(850) 992-5588 | Jimena.tena@live.com

PROFESSIONAL SUMMARY

Detail-oriented and results-driven Software Development Engineer in Test (SDET) with expertise in developing robust automated test frameworks and ensuring high software quality in Agile environments. Proficient in Java, Selenium WebDriver, REST Assured, and Cucumber. Strong background in API testing, database validation, and mobile automation using Appium. AWS Solutions Architect – Professional certified, with hands-on experience in cloud technologies, CI/CD pipelines, and DevOps tools such as Jenkins, Docker, Kubernetes, and Terraform. Adept at collaboration, continuous improvement, and delivering scalable test solutions.

SKILLS

- **Testing Tools:** Selenium WebDriver, REST Assured, Postman, Swagger, Appium, JUnit, TestNG, Cucumber, UIAutomator2, Vysor, Appium Inspector, XCUITest, Xcode
- **Programming:** Java, Gherkin, HTML, XML, basic Python, Bash
- **Frameworks:** BDD (Cucumber), TDD, Page Object Model (POM), Data-Driven Testing (DDT)
- **CI/CD & DevOps:** Jenkins, Docker, Kubernetes, Terraform, Bitbucket, Ansible
- **Cloud Platforms:** AWS (EC2, RDS), Digital Ocean
- **Databases:** MySQL, PostgreSQL, Microsoft SQL Server, Amazon RDS
- **Version Control & Methodologies:** Git, GitHub, GitLab, Agile (Scrum, Kanban)

WORK EXPERIENCE

Old Dominion Freight

Tampa, FL

Software Development Engineer in Test (SDET)

March 2023 – Present

- Led test planning and implementation for Transportation Management System (TMS) integrations, increasing automated coverage by 65%.
- Automated end-to-end testing pipelines using Java, Selenium, and Jenkins, reducing release cycle time by 40%.
- Spearheaded API validation with REST Assured and Postman for real-time shipment and billing services.
- Executed SQL-based data validation on complex ETL flows and reports, improving data accuracy by 35%.
- Collaborated with DevOps to integrate test suites into CI/CD workflows across Kubernetes and Docker containers.

Pipedrive

Fort Lauderdale, FL

Automation Engineer

Nov 2020 – Feb 2023

- Built and maintained automation frameworks using Java, Selenium, and TestNG, boosting regression reliability by 85%.
- Defined and executed test cases for API and UI validation, streamlining test cycles by 55%.
- Implemented BDD using Cucumber and Gherkin to drive business-readable test scenarios.
- Designed Appium automation workflows for cross-platform mobile testing on iOS and Android.
- Participated in Agile ceremonies and acted as QA liaison for backend and frontend teams.
- Maintained code repositories using GitHub, facilitating CI integration for test automation.
- Conducted test plan reviews and contributed to knowledge sharing within the QA team.

Bank of America

Jacksonville, FL

QA Tester

Aug 2018 – Oct 2020

- Designed test plans and automation scripts using Java and Selenium WebDriver for financial applications.
- Led regression testing efforts, reducing bug leakage in UAT by 30%.
- Standardized Jira workflows for issue tracking and test case documentation across teams.
- Actively contributed to Agile practices, improving collaboration between QA and development.
- Validated data accuracy and consistency in transactional flows using SQL and database queries.
- Created reusable test case libraries to improve testing efficiency and reduce redundancy.

EDUCATION

- **Universidad San Ignacio de Loyola – Lima, Peru**
Bachelor's in Hospitality Management

CERTIFICATIONS

- **AWS Solutions Architect – Professional**
Credential ID: 33e4a3ca39924f2d94b06056ba3298a5
